Goldstein, 1997-11-03 Tensions over the Tibet Question the political status of Tibet are escalating every day The Dalai Lama has gained broad international sympathy in his appeals for autonomy from China yet the Chinese government maintains a hard line position against it What is the history of the conflict Can the two sides come to an acceptable compromise In this thoughtful analysis distinguished professor and longtime Tibet analyst Melvyn C Goldstein presents a balanced and accessible view of the conflict and a proposal for the future Tibet s political fortunes have undergone numerous vicissitudes since the fifth Dalai Lama first ascended to political power in Tibet in 1642 In this century a forty year period of de facto independence following the fall of the Qing dynasty in 1911 ended abruptly when the Chinese Communists forcibly incorporated Tibet into their new state and began the series of changes that destroyed much of Tibet s traditional social cultural and economic system After the death of Mao in 1976 the rise to power of Deng Xiaoping quickly produced a change in attitude in Beijing and a major initiative to negotiate with the Dalai Lama to solve the conflict This failed With the death of Deng Xiaoping the future of Tibet is more uncertain than ever and Goldstein argues that the conflict could easily erupt into violence Drawing upon his deep knowledge of the Tibetan culture and people Goldstein takes us through the history of Tibet concentrating on the political and cultural negotiations over the status of Tibet from the turn of the century to the present He describes the role of Tibet in Chinese politics the feeble and conflicting responses of foreign governments overtures and rebuffs on both sides and the nationalistic emotions that are inextricably entwined in the political debate Ultimately he presents a plan for a reasoned compromise identifying key aspects of the conflict and appealing to the United States to play an active diplomatic role Clearly written and carefully argued this book will become the definitive source for anyone seeking an understanding of the Tibet Question during this dangerous turning point in its turbulent history **The Routledge Handbook of Asian Security Studies**

Sumit Ganguly, Andrew Scobell, Joseph Chinyong Liow, 2009-12-04 The Handbook of Asian Security Studies provides a detailed exploration of security dynamics in the three distinct subregions that comprise Asia and also bridges the study of these regions by exploring the geopolitical links between each of them This Handbook is divided geographically into four main parts Part I Northeast Asia Part II South Asia Part III Southeast Asia Part IV Cross Regional Issues Despite the richness and complexity of security issues in Asia and the theoretical and conceptual debates these have spawned there is no single volume that scholars can turn to for succinct cogent and dispassionate analysis of these issues The Handbook of Asian Security Studies fills this important gap in the literature dealing with all major security issues in the area which range from unresolved territorial disputes maritime and inland irredentist claims and intra state conflicts to transnational terrorist movements and nuclear rivalries This volume contains essays by many leading scholars in the field and will be essential reading for all students of Asian security Asian politics and International Relations in general Sumit Ganguly is a professor of

**Race in Mind** Paul Spickard, 2015-11-19  
 These essays analyze how race affects people's lives and relationships in all settings from the United States to Great Britain and from Hawaii to Chinese Central Asia. They contemplate the racial positions in various societies of people called Black and people called White of Asians and Pacific Islanders and especially of those people whose racial ancestries and identifications are multiple. Here for the first time are Spickard's trenchant analyses of the creation of race in the South Pacific, of DNA testing for racial ancestry, and of the meaning of multiplicity in the age of Barack Obama.

*Sino-Russian Policies in the Center and Periphery* Samra Sarfraz Khan, 2022-03-10  
 This book is a comparative study of Chinese and Russian policies in their respective inner peripheries. As the inner peripheries of the two states are rather vast, a selected number of regions have been chosen from the two geographical expanses. These regions are not only rich in hydrocarbons and minerals but also serve as conduits of the same. Moreover, the geographical position of the Caucasus provides Russia with an ingress into the Transcaucasia, a region that has often presented Moscow with serious challenges in international politics. Similarly, Xinjiang and Tibet serve as supply bases of hydrocarbon and mineral and as conduits of the same to the Chinese regime. In addition to this, while Tibet serves as China's anchorage in the Himalayas and a buffer zone against the Indian threat, Xinjiang is China's gateway to the resource-rich Central Asian market. With both Russia and China on the path of changing the post-Soviet unipolar order, insights on Sino-Russian ties and the various challenges and opportunities available to the two states are inevitable for any reader trying to understand

the complexity of international politics in general and of Chinese and Russian politics in particular of the twenty first century
