Disabled American Veterans ... National Convention Disabled American Veterans, 2016 **Theology and Down Syndrome** Amos Yong, 2007 While the struggle for disability rights has transformed secular ethics and public policy traditional Christian teaching has been slow to account for disability in its theological imagination Amos Yong crafts both a theology of disability and a theology informed by disability The result is a Christian theology that not only connects with our present social medical and scientific understanding of disability but also one that empowers a set of best practices appropriate to our late modern context Publisher description [Sports](#) Tim Delaney, Tim Madigan, 2009-05-16 Why do

billions of people around the world love sports. The popular media is increasingly dedicated to the heated rivalries of sports teams; academic institutions are held in its thrall; sports metaphors are commonplace in our language and most individuals participate in athletics or follow a team sport in some variation. This entertaining and informative book attempts to find out why by examining sports in all its facets. The authors provide an overview of the history of sports with a constant focus upon the social conditions through which sport arises and by which it continues to thrive. *Sports, Religion and Disability* Nick J. Watson, Andrew Parker, 2016-04-14. This ground-breaking book provides a fascinating insight into the relationship between sports and leisure, religion and disability. In the shadow of the London 2012 Olympic and Paralympic Games, at which athletes that were both able-bodied and disabled provided an extravaganza of sporting excellence and drama, this text is a timely and important synthesis of ideas that have emerged in two previously distinct areas of research: i) disability sport and ii) the theology of disability. Many of the elite athletes at this global sporting mega-event often explicitly displayed their religious beliefs and in turn their importance in the context of sport by observing different religious rituals and/or utilising the multi-faith sports chaplaincy service. This raises a whole range of unanswered questions with regard to the intersections between sports, religion and disability, which to date has been under-researched. Examples of subjects addressed in this text include elite physical disability sport, Paralympics, intellectual disability sport, Special Olympics, reflections on the illness narrative of the cyclist Lance Armstrong through the lens of the theology of radical orthodoxy, the application of biblical athletic metaphors in understanding modern conceptions of disability sport, the role of sport and spirituality in the rehabilitation of injured British Military personnel and the importance of sports and leisure in L'Arche communities. This book begins a critical conversation on these topics and many others for both researchers and practitioners. This book was based on two special issues of the *Journal of Religion, Disability and Health*. *Unleash Different* Rich Donovan, 2018-09-04. If you discovered a new market comprising 53% of the world's population, would you act to invest in it? There are 1.3 billion people around the world who identify as having a disability. When you include friends and family, the disability market touches 53% of all consumers. It is the world's largest emerging market. *Unleash Different* illustrates how companies like Google, PepsiCo and Nordstrom are attracting people with disabilities as customers and as employees. Replacing 'nice to do' with 'return on investment' allows market forces to take over and the world's leading brands to do what they do best: serve a market segment. In this case, the disability market. Business managers will come to understand how taking a charity-oriented approach to people with disabilities has failed, what action is required to capitalize on the world's biggest emerging market and how their organizations can grow revenue and cut costs by attracting people with disabilities as customers and talent. Rich gives the reader a peek into how he rose from a Canadian school for crippled children to manage 6 billion for one of Wall Street's leading firms. He makes it easy to relate to the business goal of serving disability because he has actually done it. [The London Olympics and Urban Development](#) Gavin Poynter, Valerie Viehoff, Yang Li, 2015-07-24. As London sought to use the

Olympics to achieve an ambitious programme of urban renewal in the relatively socially deprived East London it attracted global attention and sparked debate This book provides an in depth study of the transformation of East London as a result of the 2012 Summer Olympic and Paralympic Games Government and event organisers use legacies of urban renewal to justify hosting the world s leading sports mega event this book examines and evaluates those legacies The London Olympics and Urban Development the mega event city is composed of new research conducted by academics and policy makers It combines case study analysis with conceptual insight into the role of a sports mega events in transforming the city It critically assesses the narrative of legacy as a framework for legitimizing urban changes and examines the use of this framework as a means of evaluating the outcomes achieved This book is about that process of renewal with a focus on the period following the 2012 Games and the diverse social political and cultural implications of London s use of the narrative of legacy

Theology, Disability and Sport Nick J. Watson, Kevin Hargaden, Brian Brock, 2020-01-24 This ground breaking book provides fascinating insights into the fast emerging body of research that explores the relationship between sport theology and disability within a social justice framework In the shadow of two major sport faith events that fore fronted the theology of disability sport the Vatican s international conference Sport at the Service of Humanity and the Inaugural Global Congress on Sports and Christianity York St John University UK at which Dr Brian Brock led a thematic strand on the topic this book provides a foundation for further research and practice This text is a timely and important synthesis of ideas that have emerged in two previously distinct areas of research i disability sport and ii the theology of disability Examples of subjects addressed in this text include elite physical disability sport Paralympics intellectual disability sport Special Olympics equestrian sport church sport and disability and theologies of embodiment competition and mercy This book written by leaders in their respective fields begins a critical conversation on these topics and many others for both researchers and practitioners The chapters originally published in the Journal of Disability and Religion and Quest
