Soccer Through The Years 1862 :

The Early Years of Chicago Soccer, 1887-1939 Gabe Logan, 2019-05-30 For over a century Chicago has played soccer. This work explains the early history of the game in the Second City beginning with the 1887 formation of the Chicago Football Association and concluding with the 1939 season and Chicago Sparta's National Open Cup win which brought the trophy to the city for the first time. This study chronicles the early British immigrants who first transported and organized the game in Chicago. It documents the myriad ethnic groups and native born players that kicked in the city's many leagues and examines the many championship tournaments, teams and players that made Chicago one of the nation's early soccer powers.

African Soccerscapes Peter Alegi, 2010-02-14 From Accra and Algiers to Zanzibar and Zululand, Africans have wrested control of soccer from the hands of Europeans and through the rise of different playing styles, the rituals of spectatorship and the presence of magicians and healers have turned soccer into a distinctively African activity. African Soccerscapes explores how Africans adopted soccer for their own reasons and on their own terms. Soccer was a rare form of national culture in postcolonial Africa where stadiums and clubhouses became arenas in which Africans challenged colonial power and expressed a commitment to racial equality and self-determination. New nations staged matches as part of their independence celebrations and joined the world body FIFA. The Confédération africaine de football democratized the global game through anti-apartheid sanctions and increased the number of African teams in the World Cup finals. In this compact, highly readable book, Alegi shows that the result of this success has been the departure of huge numbers of players to overseas clubs and the growing influence of private commercial interests on the African game. But the growth of women's soccer and South Africa's hosting of the 2010 World Cup also challenge the one-dimensional notion of Africa as a backward, tribal continent populated by victims of war, corruption, famine and disease.

Fringe Nations in World Soccer Kausik Bandyopadhyay, Sabyasachi Mallick, 2013-09-13 Soccer is the most popular mass spectator sport in the world, gaining huge media coverage and reaching all levels of society in countries all around the world. More than just entertainment, soccer has proved to be a reflection of national culture, community and ethnic identity as well as an indication of the development and international status of post-colonial nation states. For those nations still at the fringes of the modern global game, soccer represents a vision of potential commercialisation capable of generating foreign reserves and bringing in considerable economic power. This book explores aspects of the development of soccer in countries which have recently been marginalised in world soccer or have only erratic success on the international stage. These fringe nations include a greater part of Africa, the USA, Australia, Israel, India, Nepal, Bhutan, Burma, Indonesia, Thailand, Maldives and Sri Lanka, and while these countries are rarely noticed by the global football media, they nonetheless have great potential to excel and many have a rich soccer heritage that still holds a place of central importance in the everyday life of the people. This book was previously published as a special issue of Soccer and Society.
