Social Care Markets Progress And Prospects:

Social Care Markets Gerald Wistow, 1996 Based on detailed research in twenty five local authorities this book focuses on initial experiences of and attitudes towards operating within social care markets It examines perspectives on and capacities to implement the community care reforms and locates them within conceptual and policy frameworks which help us identify implications for local authorities private and voluntary sector providers central government and the research community Generally local authorities have moved from a relatively crude anti commercialism to a belief that the market is capable of delivering benefits to users and carers However there is relatively little evidence that authorities have developed

understandings of how to use the market to achieve social goals **Market Research in Health and Social Care** Mike Luck, Rob Pocock, Mike Tricker, 2003-09-02 The shift to managed markets has meant that whilst planners and purchasers of health and social services seek information on needs managers who provide these services seek information on performance and response Market research contributes to both This text is a comprehensive and rigorous introduction to the relevance planning and management of market research in the areas of health and social care that have developed in Britain and most other industrialised countries It features an explanation of how managed markets provide the context for market research a comprehensive guide to choosing the appropriate survey method recommendations for commissioning monitoring and implementing results practical advice on producing successful student projects a comparative international perspective Intended for managers and students of public sector management and marketing this outstanding book contains instruction on research methods practical advice for managers and professionals on how to commission monitor and implement the results of market research and an excellent selection of case studies The Welfare State in Post-Industrial Society Jason L.

Powell, Jon Hendricks, 2009-06-10 In recent years major social forces such as ageing populations social trends migration patterns and the globalization of economies have reshaped social welfare policies and practices across the globe Multinational corporations NGOs and other international organizations have begun to influence social policy at a national and local level Among the many ramifications of these changes is that globalizing influences may hinder the ability of individual nation states to effect policies that are beneficial to them on a local level With contributions from thirteen countries worldwide this collected work represents the first major comparative analysis on the effect of globalization on the international welfare state The Welfare State in Post Industrial Society is divided into two major sections the first draws from a number of leading social welfare researchers from diverse countries who point to the nation state as case studies highlighting how it goes about establishing and revising social welfare provisions The second portion of the volume then moves to a more global perspective in its analysis and questioning of the impact of globalization on citizenship ageing and marketization The Welfare State in Post Industrial Society seeks to encourage debate about the implications of the most pressing social welfare issues in nation states and integrate analyses of policy and practice in particular countries struggling

to provide social welfare support for their needy populations **The Voluntary Sector in the United Kingdom** Jeremy Kendall, Martin Knapp, 1996 This book provides an analytical overview of the vast range of historiography which was produced in western Europe over a thousand year period between c 400 and c 1500 Concentrating on the general principles of classical rhetoric central to the language of this writing alongside the more familiar traditions of ancient history biblical exegesis and patristic theology this survey introduces the conceptual sophistication and semantic rigour with which medieval authors could approach their narratives of past and present events and the diversity of ends to which this history could then be put By providing a close reading of some of the historians who put these linguistic principles and strategies into practice from Augustine and Orosius through Otto of Freising and William of Malmesbury to Machiavelli and Guicciardini it traces and questions some of the key methodological changes that characterise the function and purpose of the western historiographical tradition in this formative period of its development **Management, Social Work and Change**

Elizabeth Harlow, John Lawler, 2018-02-05 This title was first published in 2000 This text focuses on developments in social work and its management In doing so it is of necessity multi disciplinary research and literature from the fields of management organization and social policy as well as social work are drawn upon The major theme of the book is change which paradoxically appears to be the major constant Change is everywhere and living with change is part of the modern condition As the various transformations of social work are articulated their influence becomes apparent Each process will constitute a theme around which the content of this book is introduced Although these processes are interdependent each will be dealt with in turn **Managing Change and Innovation in Public Service Organizations** Kerry Brown, Stephen Osborne, 2012-10-02 The context and environment of public services is becoming increasingly complex and the management of change and innovation is now a core task for the successful public manager This text aims to provide its readers with the skills necessary to understand manage and sustain change and innovation in public service organizations Key features include the use of figures tables and boxes to highlight ideas and concepts of central importance a dedicated case study to serve as a focus for discussion and learning and to marry theory with practice clear learning objectives for each chapter with suggestions for further reading Providing future and current public managers with the understanding and skills required to manage change and innovation this groundbreaking text is essential reading for all those studying public management public administration and public policy Community Care in England and France Bleddyn Davies, José Fernández, 2018-12-17

First published in 1998 the aims of this book are the comparison of community care service and financing systems the comparison of reform arguments and history over the last decade the comparison of who uses how much of what services and with what impact on their needs and the probability of having to enter institutions for long term care The book breaks new ground by comparing systems from a new perspective and describing contemporary reform argument and proposals for the first time in the English language It presents new evidence from the most ambitious collection and analysis of quantitative

data so far made for the comparison of the two countries based on matched area samples collecting comparable information about cohorts of new users on two or more occasions The book also shows how the need related circumstances of users differ between countries and within each country between areas The book shows how and why higher levels of the French cash benefit for community care had more effect on the central policy goal than its British counterpart how higher levels of services generally had little impact on it in either country but on average how the effect of the British services were much greater

Voluntary Organizations and Innovation in Public Services Stephen P. Osborne, 2013-01-11 The innovative capacity of voluntary organizations has become a touchstone for their role in providing public services Across the world there are increasing pressures on voluntary organizations to improve the quality and effectiveness of public services through innovation and change This volume uses original research to assess the innovative capacity of voluntary organizations It provides a conceptual framework for understanding the innovative capacity of voluntary organizations empirical evidence detailing the nature and extent of innovation an analysis of successful innovators in personal social services the applicability of the for profit model of innovation to non profit organizations an account of the contingent nature of voluntary organizations relationship to their external environment and particularly their main funders The development of a theory of innovation in non market and nonprofit conditions makes this volume an important addition to organizational studies literature

Relational Social Work Fabio Folgheraiter, 2004 In this innovative book Fabio Folgheraiter presents a systematic introduction to networking and reflexive practice in social work The text explores how the interested parties in social care can acquire a shared power in care planning and decision making and that when this networking occurs the efficacy of caring initiatives increases

European Social Policy and Social Work Hans van Ewijk, 2009-09-10 European Social Policy and Social Work explores shifts in international social policies and how they affect national trends and thus the context for social work practice The book discusses international and national social work strategies and practice and investigates the responsibilities for social welfare held by the state the market and civil society Hans van Ewijk then elaborates a new concept of citizenship based social work which supports and encourages self responsibility social responsibility and the implementation of social rights The main themes covered are international social policy and social work from welfare to workfare citizenship essentials of citizenship based social work community policy and community work social work and alternative areas of activity such as youth care and social care Integrating different roots and social professions in an overarching new concept this book particularly looks at European Union countries Hans van Ewijk examines debates regarding social work as an internationally recognised profession and science This book is suitable for social work students academics and professionals with an interest in social policy and international social work

Managing the Ageing Experience Denise Tanner, 2010 A book which truly makes older people's experiences central to understanding how best policy makers and practitioners might promote well being in later life

Frontiers in the Economics of Gender

Francesca Bettio, Alina Verashchagina, 2009-11-24 Gender is now recognized as a fundamental organizing principle for economic as well as social life and related research has grown at an unprecedented pace in the recent decades across branches of economics The volume takes stock of this research proposes novel analytical frameworks and outlines further research directions It grew out of the Summer School of International Research in Pontignano University of Siena that traditionally brings together the most representative scholars in the chosen field The thirteen essays included in the volume cover recent advances in gender related issues across disciplinary branches from Economic History and the History of Economic Thought to Macroeconomics Household Economics the Economics of Care Work Labour Economics Institutional and Experimental Economics The volume is primarily addressed to graduate students in Economics and is an essential companion for researchers in the area of Gender Economics As most essays are written in a non technical language it is also of interest to a wider audience including specialists in Sociology Demography and History

Government Reformed Jenny Fleming, 2017-11-22 This title was first published in 2003 This insightful work examines institutional formation and change as evidence of the major re shaping of government internationally over the last two decades It is based on a series of case studies of institutional reform and ranges across institutions in countries including the UK China Australia and the USA Each case study considers questions concerning the establishment of institutions such as what have been the objectives of institutional changes What are the principles and values on which new institutions are founded In addition to looking at broad hypotheses regarding the state and new institutions the book also draws together practical lessons regarding institutional reform Thus the cases are analysed as a group to throw light on a number of issues are there patterns discernible in the formation of new political institutions What do the cases reveal about what works and what does not work in forming new institutions What predictions can be made about the relationship between values and governance structures

Strategy Mix for Nonprofit Organisations Annette E. Zimmer, Christina Stecker, 2013-03-19 In many countries particularly in continental Europe societies have been plagued by high unemployment for several decades Simultaneously due to recent shifts from industrial to service oriented post industrial societies labor as a significant culture code is increasingly losing importance Because of this the third or voluntary sector as a place of employment and as a service agency to society has become important for Europe as indicated by the 1997 Communication of the European Commission and various declarations by the European Parliament and the EU's Economic and Social Council Strategy Mix for Nonprofit Organizations Vehicles for Social and Labor Market Integration explores the role of the third sector in Europe where unemployment is high and in North America where unemployment is rising and exploring the gaps that the third sector is fulfilling both as a social service and as an employer The volume is organized into two distinctive parts Part 1 The Nonprofit Sector and Social Integration highlights the embeddedness of the sector in selected countries it discusses how the sector is currently affected by changes of public policy particularly in the traditional social democratic welfare state regimes and it

draws our attention to the sector's potentials to provide avenues for social integration self actualization and civic empowerment Part 2 Labor Concepts and Market Integration refers to the multifunctionality of third sector organizations discussing potentials of workplace as well as community involvement via nonprofit organizations This seminal volume will be of interest to those in the nonprofit sector organizational management and economics political scientists and other researchers working with nonprofit organizations and civil society studies on an international level

Families in Ageing Societies Sarah Harper, 2004-09-02 Western families are undergoing considerable change The demographic ageing of societies is increasing the number of living generations and decreasing the number of living relatives within these generations These ageing societies are also seeing an ageing of some life transitions with individuals choosing to delay full economic independence from parents formal adult union through marriage or committed long term cohabitation and parenting Such demographic change is occurring within the context of a variety of new kin structures stepfamilies ethnic minority families single parent families cohabiting couples This volume takes an interdisciplinary research approach to consider the implications of demographic ageing for European and American families

Sectors Matter! Stefan Mann, 2011-06-10 Although all economic activities take place in sectors economists often devote little attention to differences between and characteristics of sectors This book tries to show that mesoeconomics the economic exploration of sectors and groups is a useful instrument of analysis between microeconomics the analysis of markets and macroeconomics the analysis of economies In order to do so economists and social scientists from related disciplines and coming from Europe Australia and Asia demonstrate that sectors matter for economic development and the formation of societies The book includes chapters with rigorous economic analysis outlooks on economic history and case studies in order to show the relevance of sectoral issues this broad range of content making it likely the most comprehensive book on mesoeconomics to date

Nordic Welfare States in the European Context Johan Fritzell, Bjorn Hvinden, Mikko Kautto, Jon Kvist, Hannu Uusitalo, 2005-07-28 This important sequel to *Nordic Social Policy* Routledge 1999 compares welfare state development over the last twenty years in Denmark Finland Norway and Sweden with that of Germany the Netherlands the United Kingdom and other Western European countries Topics covered include income distribution health inequalities and gender equality gender policies health and social care services and policy reaction to family changes social security and employment policies financing of welfare states In the context of globalisation ageing populations changing employment patterns and rising inequalities *Nordic Welfare States in the European Context* offers an empirical analysis of welfare adaptations and a lively discussion of the historical development of European social policy It finds a greater ambiguity regarding variation and trends than is commonly suggested Contrary to expectation there is little evidence of the Europeanisation of Nordic welfare states rather the reverse The comparable and empirical data used in this study make it a unique contribution to understanding current trends in European social policy

Bureaucrats and Leadership K. Theakston, 1999-12-07 The book uses a

biographical approach to analyse the potential for forms of and constraints upon bureaucratic leadership in modern government Case studies written by experts in the different fields assess the impact of particular officials operating in Whitehall the United States federal government the health service local government and Europe The book brings together an innovative methodology with a wide policy coverage Network Governance and the Differentiated Polity R. A. W. Rhodes,2017-07-04 Network Governance and the Differentiated Polity is the first of two volumes featuring a selection of key writings by R A W Rhodes Volume I collects in one place for the first time the main articles written by Rhodes on policy networks and governance between 1990 and 2005 The introductory section provides a short biography of the author s journey Part I focuses on policy networks and Part II focuses on governance The conclusion provides critical commentary both replying to critics and reflecting on theoretical developments since publication The volume complements the author s other publications on networks and governance and many chapters in the volume feature an afterword setting out the context in which it was written and identifying what has changed empirically Volume II looks forward and explores the interpretive turn and its implications for the craft of political science especially public administration **Complex Policy Planning** Philip Haynes,2018-08-13 First published in 1999 this book examines recent developments in the application of chaos and complexity theory to the applied social sciences and the implications for the government planning of social care services The study argues that there are fundamental limitations to traditional government political and managerial planning structures Chaos and complexity theory shows that the effects of time and space are critical aspects for planners to consider Small changes in isolated social or individual factors can have larger scale effects on the future validity of a policy programme In particular rigid linear statistical calculations like the Government Standard Spending Assessment can undermine the ability of local authorities to make realistic plans It is proposed that government political strategies and managerial methods of analysis need to better understand the complexity of information available to them New political and institutional typologies are required if planning activity is to evolve to be of optimal social value
