Mcloughlin,2012-07-01 Given the burgeoning number of diverse students in our nation s schools coupled with the potentially negative outcomes and wasted resources associated with the misidentification of students for special education and excessive use of exclusionary discipline for specific subgroups of students it is imperative that educational professionals understand and address the implications arising from disproportionality for children both with and without disabilities This text contributes unique perspectives and up to date information including advances and research that have emerged since the last of the extant books was published Presented in three sections the first considers disproportionality in special education identification with chapters examining overrepresentation by ethnicity gender and language The second section addresses disproportionality in discipline specifically focusing on inequalities in school disciplinary actions and juvenile justice decisions based on ethnicity and gender The final section provides readers with approaches for addressing disproportionality and creating more equitable learning environments now and in the future The text encourages bidirectional and evolving

relationships between the topics examined in each chapter with the historical framework presented. Because of the comprehensive nature of the topics covered in the book, it is an ideal one-stop reference for readers aiming to acquire a broad understanding of the key issues related to the topic. The book will appeal to a range of potential readers, including university students and practitioners in the fields of education, psychology, sociology, gender studies, ethnic studies, and criminal justice, as well as lay readers interested in issues of equality and/or education.

*The ^AOxford Handbook of Juvenile Crime and Juvenile Justice* Barry C. Feld, Donna M. Bishop, 2011-12-23. State-of-the-art critical reviews of recent scholarship on the causes of juvenile delinquency, juvenile justice system responses, and public policies to prevent and reduce youth crime are brought together in a single volume authored by leading scholars and researchers in neuropsychology, developmental and social psychology, sociology, history, criminology, criminal justice, and law.

*Our Children, Their Children* Darnell F. Hawkins, Kimberly Kempf-Leonard, 2010-02-15. In *Our Children, Their Children*, a prominent team of researchers argues that a second-rate and increasingly punitive juvenile justice system is allowed to persist because most people believe it is designed for children in other ethnic and socioeconomic groups. While public opinion, laws, and social policies that convey distinctions between our children and their children may seem to conflict with the American ideal of blind justice, they are hardly at odds with patterns of group differentiation and inequality that have characterized much of American history. *Our Children, Their Children* provides a state-of-the-science examination of racial and ethnic disparities in the American juvenile justice system. Here, contributors document the precise magnitude of these disparities, seek to determine their causes, and propose potential solutions. In addition to race and ethnicity, contributors also look at the effects on juvenile justice of suburban sprawl, the impact of family and neighborhood bias in postarrest decisions, and mental health issues. Assessing the implications of these differences for public policy initiatives and legal reforms, this volume is the first critical summary of what is known and unknown in this important area of social research.
