Economic Models for Policy Making Solomon

Cohen,2013-05-02 Over the past decades many different kinds of models have been developed that have been of use to policy makers but until now the different approaches have not been brought together with a view to enhancing the systematic unification and evaluation of these models This new volume aims to fill this gap by bringing together four decades worth of work by S I Cohen on economic modelling for policy making Work on older models has been rewritten and brought fully up to date and these older models have therefore been brought back to the fore both to assess how they influenced more recent models and to see how they could be used today The focus of the book is on models for development policies in developing economies but there are some chapters that relate to economic policies in transition and developed economies The policy areas covered are of typical interest in developing and transition economies They include those relating to trade liberalization reforms sustainable development industrial development agrarian reform growth and distribution human resource development and education public goods and income transfers Each chapter contains a brief assessment of the empirical literature on the economic effects of the policy measures discussed in the chapter The book presents a platform of economic modelling that can serve as a refresher for practising professionals as well as a reference companion for graduates engaging in economic modelling and policy preparations

Institutions, Goals, Policies And Analytics In Economic

Development Solomon I Cohen,2024-07-09 The field of Development Economics DE has overstretched over time with risks of becoming shallow There is a need for the compartmentalization of DE that focuses on simplification oversight productivity and relevance This volume is a handbook in development economics with a compartmentalized perspective It makes use of case study applications both recent and over the last few decades Next to 2 introductory chapters that elaborate on the development regions the book falls in five parts The first part consisting of two chapters displays structural system changes in the development regions examines institutions that discourage promote development and applies institutional modelling to related case studies of land reform in India and Chile The second part consisting of two chapters takes the courageous step of discussing measuring and posting the twin development goals of growth with redistribution as the primary development goals and analysing their trade offs for major countries in the six development regions Secondary development goals are important but they correlate with the primary goals and are considered as conditional The third part consisting of eight chapters contains applications on multi sector development policies The applications use the Social Accounting Matrix and related economy wide modelling They highlight alternative policies to achieve the development goals of growth and redistribution in Pakistan Indonesia Korea UAE Nepal Sudan Suriname and other countries The fourth part consisting of six chapters examines human resource development and policies in the areas of labor market information systems labor market adjustments manpower forecasts earnings profiles educational plans and intergenerational mobility with case studies related to Pakistan Indonesia Colombia Korea Ethiopia The fifth and final part consisting of two chapters focuses on world

development and global governance in particular the persistent income disparities at the global level in spite of the strengthened positions of the development regions in the world economy the consequences of shifting dominance for world governance the evaluation of the G 20 and a proposed more representative world governance Throughout all chapters special attention is devoted to introducing and applying analytical methods that have proven to be fundamental in development economics

Pro-poor Growth and Liberalization in Developing Economies Sanjaya Acharya,2013-03-01 By looking at the link between trade liberalization and pro poor growth in Nepal this book explores how a developing and transition economy can attain higher and pro poor growth along with the ongoing trend of globalization The author develops a social accounting database for Nepal and applies it to quantify computable general equilibrium CGE model to investigate the trade offs between growth and distribution that are associated with opening up the economy and deregulating it The book presents a number of pragmatic scenarios that bring about the desired pro poor growth effects in order to demonstrate possible outcomes for policy making The research findings apply to other economies with similar macroeconomic structure to Nepal those small economies with a dominant traditional and stagnant agriculture fragile industrial base weak and volatile external sector and almost half of the population living below the poverty line This book will be of considerable interest to students and scholars in the areas of development economics political economy of policy reforms and trade and poverty with special emphasis on South Asia

Development Economics Research Trends Gustavo T. Rocha,2008 Development economics is a branch of economics which largely deals with the economic aspects of the development process in developing countries with a focus on methods of promoting economic growth while also dealing with the economic social political and institutional mechanisms both public and private necessary to bring about rapid and large scale improvements in levels of living for the peoples living in developing countries This new book presents the latest research in this growing field

East Asian Trade After the Uruguay Round David Robertson,1997-03-27 This volume provides a comprehensive assessment of the likely effects of the Uruguay Round agreements on the dynamic economies of East Asia The rapid development of these countries owes much to the strong export performance and unilateral deregulation of their economies in recent years Their major stake in maintaining the integrity of the global trading system was demonstrated by their active participation in the negotiations The impact of the Uruguay Round liberalisation on East Asian economic development and policies is evaluated using sophisticated CGE models to estimate the effects on trade and income The strengthening of trade rules and dispute settlement procedures are examined by a group of world trade experts They establish that some gaps in the system remain to be tackled anti dumping regional discrimination and that some new problems are pending competition policy investment
