Social And Cultural Lives Of Immune Systems:

Social and Cultural Lives of Immune Systems James M. Wilce Jr.,2003-09-02 *Social and Cultural Lives of Immune Systems* introduces a provocative new hypothesis in medico social theory the theory that immunity and disease are in part socially constituted It argues that immune systems function not just as biological entities but also as symbolic concepts charged with political significance Bridging elements of psychology sociology body theory immunology and medical anthropology twelve papers from leading scholars explain some of the health hazards of emotional and social pressure whilst analysing the semiotic and social responses to the imagery of immunity The Ashgate Research Companion to Anthropology Andrew J. Strathern,2016-03-03 This companion provides an indispensable overview of contemporary and classical issues in social and cultural anthropology Although anthropology has expanded greatly over time in terms of the diversity of topics in which its practitioners engage many of the broad themes and topics at the heart of anthropological thought remain perennially vital such as understanding order and change diversity and continuity and conflict and co operation in the reproduction of social life Bringing together leading scholars in the field the contributors to this volume provide us with thoughtful and fruitful ways of thinking about a number of contemporary and long standing arenas of work where both established and more recent researchers are engaged The companion begins by exploring classic topics such as Religion Rituals Language and Culture Violence and Gender This is followed by a focus on current developments within the discipline including Human Rights Globalization and Diasporas and Cosmopolitanism It provides an interesting and challenging look at the state of current thinking in anthropology serving as a rich resource for scholars and students alike

The Oxford Handbook of Applied Linguistics Robert B. Kaplan,2010-09-30 A monumental editorial enterprise It is to be commended and used widely and wisely *ESL Magazine* *The Cultural Politics of the Paralympic Movement* P. David Howe,2008-02-19 Raising questions and debates crucial to students of social and disability studies this book queries the Paralympic games development as a positive one and questions its role as a vehicle for the empowerment of the disabled community A Companion to Medical Anthropology Merrill Singer,Pamela I. Erickson,2015-04-20 *A Companion to Medical Anthropology* examines the current issues controversies and state of the field in medical anthropology today Provides an expert view of the major topics and themes to concern the discipline since its founding in the 1960s Written by leading international scholars in medical anthropology Covers environmental health global health biotechnology syndemics nutrition substance abuse infectious disease and sexuality and reproductive health and other topics *Culture and Health* Michael Winkelman,2008-12-05 *Culture and Health* offers an overview of different areas of culture and health building on foundations of medical anthropology and health behavior theory It shows how to address the challenges of cross cultural medicine through interdisciplinary cultural ecological models and personal and institutional developmental approaches to cross cultural adaptation and competency The book addresses the perspectives of clinically applied anthropology trans cultural

psychiatry and the medical ecology critical medical anthropology and symbolic paradigms as frameworks for enhanced comprehension of health and the medical encounter Includes cultural case studies applied vignettes and self assessments

A Companion to Psychological Anthropology Conerly Casey, Robert B. Edgerton, 2008-04-15 This Companion provides the first definitive overview of psychocultural anthropology a subject that focuses on cultural psychological and social interrelations across cultures Brings together original essays by leading scholars in the field Offers an in depth exploration of the concepts and topics that have emerged through contemporary ethnographic work and the processes of global change Key issues range from studies of consciousness and time emotion cognition dreaming and memory to the lingering effects of racism and ethnocentrism violence identity and subjectivity *Living and Dying in the Contemporary World* Veena Das, Clara Han, 2015-11-17 Taking a novel approach to the contradictory impulses of violence and care illness and healing this book radically shifts the way we think of the interrelations of institutions and experiences in a globalizing world *Living and Dying in the Contemporary World* is not just another reader in medical anthropology but a true tour de force a deep exploration of all that makes life unbearable and yet livable through the labor of ordinary people This book comprises forty four chapters by scholars whose ethnographic and historical work is conducted around the globe including South Asia East Asia Latin America Africa the Middle East Europe and the United States Bringing together the work of established scholars with the vibrant voices of younger scholars *Living and Dying in the Contemporary World* will appeal to anthropologists sociologists health scientists scholars of religion and all who are curious about how to relate to the rapidly changing institutions and experiences in an ever more connected world **Impotent Warriors** Susie Kilshaw, 2009 From September 1990 to June 1991 the UK deployed 53 462 military personnel in the Gulf War After the end of the conflict anecdotal reports of various disorders affecting troops who fought in the Gulf began to surface This mysterious illness was given the name Gulf War Syndrome GWS This book is an investigation into this recently emergent illness particularly relevant given ongoing UK deployments to Iraq describing how the illness became a potent symbol for a plethora of issues anxieties and concerns At present the debate about GWS is polarized along two lines there are those who think it is a unique organic condition caused by Gulf War toxins and those who argue that it is probably a psychological condition that can be seen as part of a larger group of illnesses Using the methods and perspective of anthropology with its focus on nuances and subtleties the author provides a new approach to understanding GWS one that makes sense of the cultural circumstances specific and general which gave rise to the illness *Health, Risk, and Adversity* Catherine Panter-Brick, Agustín Fuentes, 2008-11-01 Research on health involves evaluating the disparities that are systematically associated with the experience of risk including genetic and physiological variation environmental exposure to poor nutrition and disease and social marginalization This volume provides a unique perspective a comparative approach to the analysis of health disparities and human adaptability and specifically focuses on the pathways that lead to unequal health outcomes From an explicitly anthropological perspective

situated in the practice and theory of biosocial studies this book combines theoretical rigor with more applied and practice oriented approaches and critically examines infectious and chronic diseases reproduction and nutrition **Women's Health and Wellness Across the Lifespan** Ellen Olshansky,2014-10-07 Women s Health and Wellness Across the Lifespan offers the innovative approach to care that today s patients often demand combining traditional medicine and alternative approaches It covers women s wellness care and specific issues during puberty through young adulthood midlife and old age In addition it provides information essential to enabling your patients to achieve their full health potential covering wellness for special populations physical activity and nutrition oral health herbal medicine and pharmacologic approaches methods to promote healing healthy sleep and peaceful dying **The Arc of Life** Grazyna Jasienska,Diana S. Sherry,Donna J. Holmes,2017-01-03 Given the rapidly developing area of evolutionary medicine and public health The Arc of Life examines ways in which research conducted by biological anthropologists can enrich our understanding of variation in human health outcomes The book aims not only to showcase the perspective that biological anthropologists bring to the burgeoning field of evolutionary medicine but to underscore the context of human life history especially the concept of evolutionary trade offs and the ensuing biological processes that can affect health status over the life course This dual emphasis on life history theory and life cycle biology will make for a valuable and unique yet complementary addition to books already available on the subject of evolution and health The book consolidates diverse lines of research within the field of biological anthropology stimulates new directions for future research and facilitates communication between subdisciplines of human biology operating at the forefront of evolutionary medicine **The Life of a Pest** Emily Wanderer,2020-05-12 The Life of a Pest tracks the work practices of scientists in Mexico as they study flora and fauna at scales ranging from microscopic to ecosystemic Amid concerns about climate change infectious disease outbreaks and biotechnology scientists in Mexico have expanded the focus of biopolitics and biosecurity looking beyond threats to human life to include threats to the animal plant and microbial worlds Emily Wanderer outlines how concerns about biosecurity are leading scientists to identify populations and life forms either as worthy of saving or as pests in need of elimination Moving from high security labs where scientists study infectious diseases to offices where ecologists regulate the use of genetically modified organisms to remote islands where conservationists eradicate invasive species Wanderer explores how scientific research informs and is informed by concepts of nation **Toward Psychologies of Liberation** M. Watkins,H. Shulman,2008-07-15 Psychologies of liberation are emerging on every continent in response to the collective traumas inflicted by colonialism and globalization The authors present the theoretical foundation and participatory methodologies that unite these radical interdisciplinary approaches to creating individual and community well being They move from a description of the psychological and community wounds that are common to unjust and violent contexts to engaging examples of innovative community projects from around the world that seek to heal these wounds The creation of public homeplaces and the work of liberation arts critical participatory action

research public dialogue and reconciliation are highlighted as embodying the values and hopes of liberation psychology Drawing on psychoanalysis trauma studies liberation arts participatory research and contemporary cultural work this book nourishes our understanding of and imagination about the kinds of healing that are necessary to the creation of more just and peaceful communities In dialogue with cultural workers writers and visionaries from Latin America Africa Asia Europe the United States and the Pacific Islands Toward Psychologies of Liberation quickens a dialogical convergence of liberatory psychological theories and practices that will seed individual and community transformation

Emotions as Bio-cultural Processes Birgitt Röttger-Rössler, Hans Jürgen Markowitsch, 2009-06-12 Emotions have emerged as a topic of interest across the disciplines yet studies and findings on emotions tend to fall into two camps body versus brain nature versus nurture *Emotions as Bio cultural Processes* offers a unique collaboration across the biological social divide from psychology and neuroscience to cultural anthropology and sociology as 15 noted researchers develop a common language theoretical basis and methodology for examining this most sociocognitive aspect of our lives Starting with our evolutionary past and continuing into our modern world of social classes and norms these multidisciplinary perspectives reveal the complex interplay of biological social cultural and personal factors at work in emotions with particular emphasis on the nuances involved in pride and shame A sampling of the topics 1 The roles of the brain in emotional processing 2 Emotional development milestones in childhood 3 Social feeling rules and the experience of loss 4 Emotions as commodities The management of feelings and the self help industry 5 Honor and dishonor societal and gender manifestations of pride and shame 6 Emotion regulation and youth culture 7 Pride and shame in the classroom A volume of such wide and integrative scope as *Emotions as Bio cultural Processes* should attract a large cohort of readers on both sides of the debate among them emotion researchers social and developmental psychologists sociologists social anthropologists and others who analyze the links between humans that on the one hand differentiate us as individuals but on the other hand tie us to our socio cultural worlds

The Anthropology of Childhood David F. Lancy, 2014-12-18 How are children raised in different cultures What is the role of children in society How are families and communities structured around them Now available in a revised edition this book sets out to answer these questions and argues that our common understandings about children are narrowly culture bound Enriched with anecdotes from ethnography and the daily media the book examines family structure reproduction profiles of children s caretakers within the family or community their treatment at different ages their play work schooling and transition to adulthood The result is a nuanced and credible picture of childhood in different cultures past and present Organised developmentally moving from infancy through to adolescence and early adulthood this new edition reviews and catalogues the findings of over 100 years of anthropological scholarship dealing with childhood and adolescence drawing on over 750 newly added sources and engaging with newly emerging issues relevant to the world of childhood today

The Politics of Immunity Mark Neocleous, 2022-04-05 The violence and destruction hiding behind the

obsession with immunity Our contemporary political condition is obsessed with immunity The immunity of bodies and the body politic personal immunity and herd immunity how to immunize the social system against breakdown The obsession intensifies with every new crisis and the mobilization of yet more powers of war and police from quarantine to border closures and from vaccination certificates to immunological surveillance Engaging four key concepts with enormous cultural weight Cell Self System and Sovereignty Politics of Immunity moves from philosophical biology to intellectual history and from critical theory to psychoanalysis to expose the politics underpinning the way immunity is imagined At the heart of this imagination is the way security has come to dominate the whole realm of human experience From biological cell to political subject and from physiological system to the social body immunity folds into security just as security folds into immunity The book thus opens into a critique of the violence of security and spells out immunity's tendency towards self destruction and death immunity like security can turn its aggression inwards into the autoimmune disorder Wide ranging and polemical Politics of Immunity lays down a major challenge to the ways in which the immunity of the self and the social are imagined

The Handbook of Food and Anthropology Jakob A. Klein, James L. Watson, 2016-08-25 Winner of the CHOICE Outstanding Academic Title of the Year Award 2017 Interest in the anthropology of food has grown significantly in recent years This is the first handbook to provide a detailed overview of all major areas of the field 20 original essays by leading figures in the discipline examine traditional areas of research as well as cutting edge areas of inquiry Divided into three parts Food Self and Others Food Security Nutrition and Food Safety Food as Craft Industry and Ethics the book covers topics such as identity commensality locality migration ethical consumption artisanal foods and children's food Each chapter features rich ethnography alongside wider analysis of the subject Internationally renowned scholars offer insights into their core areas of specialty Examples include Michael Herzfeld on culinary stereotypes David Sutton on how to conduct an anthropology of cooking Johan Pottier on food insecurity and Melissa Caldwell on practicing food anthropology The book also features exceptional geographic and cultural diversity with chapters on South Asia South Africa the United States of America post socialist societies Maoist China and Muslim and Jewish foodways Invaluable as a reference as well as for teaching The Handbook of Food and Anthropology serves to define this increasingly important field An essential resource for researchers and students in anthropology and food studies

Biosocial Foundations of Family Processes Alan Booth, Susan M. McHale, Nancy S Landale, 2010-12-01 Biosocial Research Contributions to Family Processes and Problems based on the 17th annual National Symposium on Family Issues examines biosocial models and processes in the context of the family Research on both biological and social environmental influences on behavior health and development is represented including behavioral endocrinology behavior genetics neuroscience evolutionary psychology sociology demography anthropology economics and psychology The authors consider physiological and social environmental influences on parenting and early childhood development followed by adolescent adjustment and family formation Also factors that influence how families

adapt to social inequalities are examined Measuring Stress in Humans Gillian H. Ice, Gary D. James, 2006-12-21 The purpose of this 2006 book is to present non invasive methods of measuring the biological responses to psychosocial stress in humans in non laboratory field settings Following the pathways of Seyle s General Adaptation Syndrome the text first describes how to assess the psychosocial stressors of everyday life and then outlines how to measure the psychological behavioral neurohumeral physiological and immunological responses to them The book concludes with practical information on assessing special populations analyzing the often complicated data that are collected in field stress studies and the ethical treatment of human subjects in stress studies It is intended to be a practical guide for developing and conducting psychophysiological stress research in human biology This book will assist students and professionals in designing field studies of stress
