Social Class and the Division of Labour Anthony Giddens, Gavin MacKenzie, 1983-01-20 The problems of class analysis and the division of labour in industrial societies are of fundamental importance in the social sciences Designed as a testimonial volume for Ilya Neustadt *Social Class and the Division of Labour* provides a comprehensive discussion of the central issues of this debate All the essays in this volume attempt to integrate theoretical debate and empirical investigation some focus directly on the division of labour considering especially Marxist views of its relation to class domination while others are more concerned with the labour process as it currently exists in capitalist productions The volume as a whole demonstrates forcibly that class divisions and class conflict can only be properly understood in conjunction with an elaborated analysis of the division of labour The book represents a major contribution to class theory and analysis which will attract considerable attention amongst sociologists and economists and become a standard textbook for undergraduates in these subjects

publication provides me with a welcome opportunity to acknowledge the help and encouragement I have received over the years from scholars friends and relations At the Ruhr University of Bochum where I began my studies I am indebted to Professor Otto Poggeler Director of the Hegel Archives to the other past and present members of staff at the Hegel Archives and to Professors Jiirgen Gebhardt Jiirgen von Kempfski Heinz Kim merle and Leo Kofler It was my time at Bochum under the guidance of these scholars that kindled my love for the study of Hegel which proved to be a lasting romance In Scotland where I continued my studies and spent two fruitful and happy years I am indebted to George Elder Davie and Richard Gunn who first introduced me to the Scottish Enlightenment and to Professors R H Campbell and T D Campbell who supervised my research in that field At Cambridge where most of this study was prepared my greatest debt is to Duncan Forbes I am grateful for his supervision of my research but also beyond the scope of my research for what I have learned genuinely learned from the man

Urban Inequality Owen Crankshaw,2022-01-27 Based on new evidence that challenges existing theories of urban inequality Crankshaw argues that the changing pattern of earnings and occupational inequality in Johannesburg is better described by the professionalism of employment alongside high levels of chronic unemployment Central to this examination is that the social polarisation hypothesis which is accepted by many is simply wrong in the case of Johannesburg Ultimately Crankshaw posits that the post Fordist post apartheid period is characterised by a completely new division of labour that has caused new forms of racial inequality That racial inequality in the post apartheid period is not the result of the persistence of apartheid era causes but is the result of new causes that have interacted with the historical effects of apartheid to produce new patterns of racial inequality

Stratification and Power John Scott,2014-04-03 This volume presents a systematic discussion of the leading theoretical approaches to social stratification It is both an accessible overview and a distinctive contribution to the analysis of class status and power John Scott argues that Max Weber s conceptual framework reconstructed and enlarged provides the basis for integrating what have been considered up to now as divergent approaches to stratification studies Marxist theories of class and economic division normative functionalist theories of status and cultural division and elitist theories of command and authoritarian division all find their place in the proposed framework

Each theoretical approach is illustrated through empirical investigations undertaken by writers associated with them Recent work by Dahrendorf Wright and Goldthorpe is also examined and it is shown how their arguments contribute to a theoretical synthesis in the analysis of stratification Stratification and Power will be much appreciated by students and academics alike in the social sciences The clarity of its style and the significance of its contribution have made it a leading text in its field
