Social Construction And The Logic Of Money Financial Predom:

Social Construction and the Logic of Money J. Samuel Barkin, 2012-02-01 While other studies of international leadership have looked at a variety of measures to predict behavior this book demonstrates that the key factor is international finance J Samuel Barkin uses an innovative blend of rationalist and constructivist methodologies approaches to international political economy that normally exist in isolation from one another Barkin argues that the level of a country's involvement in international finance specifically motivates it to lead This is particularly relevant today given the on going discussions on how to respond to local and global financial crises Barkin illustrates his theory with an episodic history of international monetary leadership over the last four centuries Dutch leadership in the seventeenth century British leadership in the nineteenth the failure of leadership in the interwar era and Great Depression and the role of the U S in the construction of an international economic infrastructure since World War II

The Dollar and National Security Paul Viotti, 2014-07-23 Defense establishments and the armed forces they organize train equip and deploy depend upon the security of capital and capital flows mechanisms that have become increasingly globalized Military capabilities are thus closely tied not only to the size of the economic base from which they are drawn but also to the viability of global convertibility and exchange arrangements Although the general public has a stake in these economic matters the interests and interpretive understandings held by policy elites matter most in particular those among the owners or managers of capital who focus on international finance and the international monetary regimes that sustain global commerce and their capital positions In The Dollar and National Security Paul Viotti explores the links between global capital flows these policy elites and national security After establishing the historical link between currency gold and security he continues the monetary security story by examining the instrumental role the dollar has played in American economic and national security over the past seven decades He reveals how perceived individual and collective interests are the key drivers toward building the kind of durable consensus necessary to sustain the external financing of American foreign and national security policy and addresses the future implications for national security as decision makers in the BRICs and other countries position themselves to assume an even larger policy presence in global commercial monetary and security matters

Financial Freedom Gisela Enders, 2017-09-15 For many people financial freedom is a major goal If they no longer needed to work for money so much would be possible For people who have to go to work every day that seems like paradise But how do people actually live once they have reached the goal Gisela Enders interviewed people mostly from Germany and Europe who are already financially free She met very interesting people Some who do not work at all anymore and others who spend every day working on their own projects out of sheer passion Some who make their living from stocks and others who live from rental income And others who live abroad and need very little money to live on People who want to enjoy spending time with their kids and others who put all their passion into their own projects Most of the

people interviewed live frugally and from the outside the only thing different about them is that they are rich in time What would your own ideal life be like A life that you planned yourself rather than one planned for you You can put that plan into practice step by step The ideas in this book will inspire you to consider a life beyond the rat race *Class in the Composition Classroom* Genesee M. Carter, William H. Thelin, 2017-12-01 *Class in the Composition Classroom* considers what college writing instructors should know about their working class students their backgrounds experiences identities learning styles and skills in order to support them in the classroom across campus and beyond In this volume contributors explore the nuanced and complex meaning of working class and the particular values these college writers bring to the classroom The real college experiences of veterans rural Midwesterners and trade unionists show that what it means to be working class is not obvious or easily definable Resisting outdated characterizations of these students as underprepared and dispensing with a one size fits all pedagogical approach contributors address how region and education impact students explore working class pedagogy and the ways in which it can reify social class in teaching settings and give voice to students lived experiences As community colleges and universities seek more effective ways to serve working class students and as educators parents and politicians continue to emphasize the value of higher education for students of all financial and social backgrounds conversations must take place among writing instructors and administrators about how best to serve and support working class college writers *Class in the Composition Classroom* will help writing instructors inside and outside the classroom prepare all their students for personal academic and professional communication Contributors Aaron Barlow Cori Brewster Patrick Corbett Harry Denny Cassandra Dulin Miriam Eisenstein Ebsworth Mike Edwards Rebecca Fraser Brett Griffiths Anna Knutson Liberty Kohn Nancy Mack Holly Middleton Robert Mundy Missy Nieveen Phegley Jacqueline Preston James E Romesburg Edie Marie Roper Aubrey Schiavone Christie Toth Gail G Verdi **Wealth, Health, and Hope in African Christian Religion** Stan Chu Ilo, 2017-11-22 *Wealth Health and Hope in African Christian Religion* offers a portrait of how contending narratives of modernity in both church and society play out in Africa today through the agency of African Christian religion It explores the identity and features of African Christian religion and the cultural forces driving the momentum of Christian expansion in Africa as well as how these factors are shaping a new African social imagination especially in providing answers to the most challenging questions about poverty wealth health human and cosmic flourishing It offers the academy a good road map for interpreting African Christian religious beliefs and practices today and into the future **Dilemma Qualitative Method** Martyn Hammersley, 2003-09-02 First Published in 1990 Originally published in 1989 *The Dilemma of Qualitative Method* is a stimulating guide to the discussion of qualitative versus quantitative approaches to social research originated in nineteenth century debates about the relationship between the methods of history and natural science One of the key theorists in this area was Chicago sociologist Herbert Blumer The book analyses the historical context of the dispute and provides a detailed account and systematic analysis Blumer's methodological

writings including his doctoral thesis The strategies for qualitative research advocated by Blumer within the Chicago tradition are reviewed and assessed

The Strong State and the Free Economy Werner Bonefeld, 2017-05-09 German ordoliberalism originated at the end of the Weimar Republic 1918 1933 in a context of hyper inflation depression mass unemployment and social unrest For ordoliberalism a free economy is premised on a sound political legal social and moral framework to secure its cohesion The role of the state is to ensure a liberal economic order Ordoliberalism is a contested account of post neoliberal political economy some argue that it offers a more restrained and socially just market order others in complete contrast that is a form of authoritarian liberalism and that it is the theoretical foundation for the austerity politics that the EU has actively promoted in recent years Foucault discusses ordoliberalism at length in The Birth of Biopolitics and Bonefeld's book provides a thought provoking companion to those lectures by offering a more comprehensive investigation of the theoretical foundation of ordoliberal thought and its historical and theoretical contexts

Uncertain Futures Jens Beckert, Richard Bronk, 2018-07-05 Uncertain Futures considers how economic actors visualize the future and decide how to act in conditions of radical uncertainty It starts from the premise that dynamic capitalist economies are characterized by relentless innovation and novelty and hence exhibit an indeterminacy that cannot be reduced to measurable risk The organizing question then becomes how economic actors form expectations and make decisions despite the uncertainty they face This edited volume lays the foundations for a new model of economic reasoning by showing how in conditions of uncertainty economic actors combine calculation with imaginaries and narratives to form fictional expectations that coordinate action and provide the confidence to act It draws on groundbreaking research in economic sociology economics anthropology and psychology to present theoretically grounded empirical case studies These demonstrate how grand narratives central bank forward guidance economic forecasts finance models business plans visions of technological futures and new era stories influence behaviour and become instruments of power in markets and societies The market impact of shared calculative devices social narratives and contingent imaginaries underlines the rationale for a new form of narrative economics

Money Makes Us Relatives Jenny Barbara White, 2004 In the rural immigrant community of Istanbul poor women spend up to fifty hours a week producing goods for export yet deny that they actually work Money Makes Us Relatives asks why Turkish society devalues women's work concealing its existence while creating a vast pool of cheap labor for the world market Drawing on two years of ethnographic fieldwork among family producers and pieceworkers and using fascinating case studies throughout Jenny B White shows how women's paid work is viewed in terms of kinship relations of reciprocity and obligation an extension of domestic work for the family which is culturally valued but poorly compensated Whilst offering the benefits of social identity and long term security women's work also reflects global capitalism's ability to capture local cultural norms and to use these to lower production costs and create exploitative conditions This fully revised second edition includes a new introduction and conclusion updated references

comparative material on women s labor elsewhere in the world and brand new material on Islam globalization gender and Turkish family life It is an important contribution to debates about women s participation in late global capitalism

It'S Nothing Personal It'S Only Business William N. Spencer,2016-01-28 Today in America we are no longer the worlds largest market economy If anything the only thing greatest about the American economy is the amount of money we owe to other countries Politicians and activists portray big government as essential to safeguard the common good There is no question we need the government to protect our rights and assure the rule of law But overly large and politicized government ends up dominating and undermining a moral society Instead of empowering people big government programs from welfare subsidies to corporate bailouts promote dependency and deteriorate personal responsibility encouraging both people and companies to make bad decisions How did we as a country allow our students and our citizens in general to become so economically uneducated in just two generations
