money and am always learning I remember when I first started though I was scared to death I knew nothing about Wall Street except that my dad worked there and people could make very good money doing it Yes even in bad times The dilemma I faced was that I had no idea what IT really was In my college days what they taught didn't prepare me for what the real world of Wall Street was all about Sure they provided tons of financial formulas and economic theories but not one course I took explained to me how to manage politics or how to decide what job I was best for or even what the jobs were for that matter To this day I am amazed that for all the money you spend on degrees there is no outline for the real world of Wall Street Nothing to help you decide what is right for you Nothing that details the skills required to be successful in one of the largest and most complex industries in the world Well there is now **Congressional Record** United States.
