La mujer, el SIDA y el activismo Marion Banzhaf, 1993. The first comprehensive and progressive book in Spanish about women and AIDS. Enfoca la problemática de la mujer en relación a la epidemia del SIDA desde un punto de vista liberatorio e integral. *VIH/SIDA* Odalys García Trujillo, 1998. Más allá del SIDA María del Carmen Gorbea Robles, 2024-03-11. Han transcurrido 30 años desde que se reconocieron los primeros casos de SIDA. Durante las primeras décadas fueron establecidos la epidemiología y el cuadro clínico de la infección y se desarrollaron potentes terapias antirretrovirales. Sin embargo, en los últimos cinco años el progreso ha sido menos dramático. En la epidemia global del SIDA existen problemas vinculados con éste como el diagnóstico y el tratamiento de los efectos relacionados con la terapia antirretroviral, altamente activa los efectos tóxicos y la resistencia a los fármacos, situaciones que en conjunto proveen la base del tratamiento estructurado por supuesto que estos problemas no son triviales. Este libro busca transmitir aspectos prácticos de la importancia del manejo integral de los pacientes con VIH/SIDA, entendiéndose por integral el no fragmentar al paciente consciente de que es una unidad indivisible: mente, cuerpo y espíritu, pero también compartir experiencias del día a día de los diferentes escenarios que estos seres humanos y sus familias atraviesan. Este libro está dividido en capítulos y trata de temas que de acuerdo con estas familias son importantes para ellas. Cada capítulo brinda información e ideas que ayudarán a cuidar a su paciente, a su familia y a usted mismo. Este libro no puede contestar todas las preguntas, ya que cada paciente, cada mamá y cada familia son especiales. HIV/AIDS in Memory, Culture and Society Alicia Castillo Villanueva, Angelos Bolas, 2024-07-08 This volume examines the role of culture in developing social cultural and political discourses of HIV AIDS from a contemporary viewpoint In doing so the memory of HIV AIDS is a powerful tool to examine representations of the past and connect them with future debates This reassessment of HIV AIDS explores the most appropriate way to come to terms with a past that involved a negative stigmatised and marginalised representation Therefore remembering plays a key role in generating collective memory which allows for the exchange of mnemonic content between individual minds creates discourses on memory and commemoration and disseminates versions of the past that may affect the representation of HIV AIDS in the future Indeed rewriting about the past also means assessing our responsibility towards the present and the potential of transmission to future generations especially in times of pandemics
