## **Social Assistance In Albania:**

**Social Assistance in Albania** Harold Alderman, 1998-01-01 Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries social assistance in Albania is fairly well targeted to the poor. Albania Social Assistance Policy Note Melis U. Guven, 2013 Reducing poverty continues to be one of the main priorities of the Government of Albania. Currently Albania has an ample platform to provide social protection to its citizens through social insurance, social assistance and employment programs. However, these programs are not efficiently linked to each other which can lead to unclear and occasionally overlapping roles among the programs. Among these social protection programs, Ndihma Ekonomike NE is the only poverty targeted social benefits program available to the Albanian Government, but despite the continued efforts of the Government to improve the program, the poverty impact of NE remains low. Against this backdrop, the objective of this note is to assist the policy makers in Albania with identifying reforms that would improve the overall effectiveness and targeting of NE. Specifically, the note will present key challenges faced by the Government as well as outline the reforms that would contribute to a more efficient and effective social assistance system in Albania, resulting in a process with improved transparency and accountability. The note is organized as follows: Section 2 presents a brief overview of the social protection system in Albania while at the same time discussing inefficiencies that arise due to lack of linkages between these programs. Section 3 assesses the current effectiveness of NE and Section 4 concludes with recommendations. *Poverty and Exclusion in the Western Balkans* Caterina Ruggeri Laderchi, Sara Savastano, 2013-02-12 This book maps the latest developments in the policy relevant analysis on poverty inclusion and the social agenda in the Western Balkans. It does so by presenting a selection of recent papers which explore from a methodological and analytical point of view how the inclusion agenda can be monitored and adapted to understand the challenges in the region. The volume includes an overview and four sections covering respectively: 1) innovations in terms of measurement of poverty and inclusion in the region; the concept of inclusion as elaborated at the EU level; innovations in survey design to suit the measurement of inclusion; methodological insights from qualitative work; 2) innovative country level analysis updating poverty mapping in intercensal years; the analysis of material deprivation; the analysis of determinants of social inclusion; subjective wellbeing of public work program participants; 3) examples of country level analysis of drivers of exclusion; barriers to formalization in the labour market; gender disparities in the labour market; disruption in social networks following urbanizations; attitudes towards multi ethnic states; 4) building inclusive safety nets; an assessment of safety nets in the region; the political economy of welfare reform; micro simulations of social assistance reform; the adoption of better tools to improve targeting performance. The chapters combine sophisticated techniques which are at the frontiers of poverty analysis: small area estimation; efficiency analysis applied to household

welfare micro simulations with less ground breaking papers which take advantage of innovative datasets or perspectives deeply grounded in the policy dialogue in the countries of the region By providing a wide spectrum of innovative and policy relevant analytical contributions this book will be of broader interest than for observers of the region **Enterprise and**

**Income Support for the Poorest** Emil Tesliuc,Lucian Pop,Margaret Grosh,Ruslan Yemtsov,2014-06-26 This study reviews the role and workings with their strengths and weaknesses of last resort income support LRIS programs in Eastern Europe and Central Asia It draws on a combination of household survey and administrative data for a large group of countries and detailed case studies for a smaller number of countries that span the spectrum of the income range in the region It thus combines the value of wide comparable multi country work with that of in depth country specific probing on key themes The experiences of LRIS programs in Eastern Europe and Central Asia have demonstrated the technical feasibility of highly efficient poverty targeted programs in the region The detailed case studies suggest how programs can improve their coverage control error and fraud and be implemented effectively in decentralized settings This experience is pertinent to other regions as well adding to the know how for poverty targeting programs in middle and low income countries Perhaps especially importantly the book shows that means testing can be accomplished in settings with sizeable informal sectors and at reasonable administrative costs The study also suggests that currently the role of last resort income support programs within the overall social protection systems of the region is often too small and that their eligibility thresholds should be revised and indexed so that the programs continue to serve a meaningful swath of the low income households in each country Moreover the programs can be used as the nexus to weave together a variety of income supports and services for low income households Social Policy and International Interventions in South East Europe Bob Deacon,Paul

David Tobis,2000 One of the most harmful costly and intractable legacies of the command economies of Central and Eastern Europe and the former Soviet Union is the reliance on residential institutions for the care of children the elderly and the people with disabilities As a result there are almost no community based alternatives to care for large and growing numbers of vulnerable individuals Other industrial nations have experienced similar periods of economic and social upheaval and also relied on residential institutions to care for vulnerable and marginalized groups However most of these nations have switched from residential care to community based social services The question for the countries of Central and Eastern Europe and the former Soviet Union is how they can make the same transition Moving from Residential Institutions to Community Based Social Services in Central and Eastern Europe and the Former Soviet Union examines the use of residential institutions for vulnerable groups past and present and proposes strategies for the future The study focuses on five countries Albania Armenia Latvia Lithuania and Romania where the World Bank is helping develop community based social services to reduce the reliance on residential institutions
