Social Change In Russia And Eastern Europe From Party Hacks To Nouveaux Riches:

Social Change in Russia and Eastern Europe Silviu Brucan, 1998-09-30 Brucan a former Romanian ambassador to the United States and the United Nations provides the first social history of the remarkable transition from communism to capitalism in Russia and Eastern Europe after the collapse of the Soviet Union He begins with an examination of the old social structure in communist societies which used to be cosmetically advertised by the party and officialdom paying particular attention to the nomenklatura who have miraculously transformed themselves into big businessmen and bankers A chapter is devoted to the decline of the working class whom Brucan shows to be the big loser in the revolution He then examines the new social stratification illustrating how the new classes are taking shape under the conditions created by market reform The symbiosis between capital and power is analyzed in depth and Ambassador Brucan concludes his study with a look at the direction the social transformations are pushing these societies particularly the separate paths being followed by Russia and Eastern Europe This is an important study for researchers scholars and policy makers involved with Russia and Eastern Europe

Inside the Mechanisms of Romanian Modernization Florin Grancea, 2006-09-05 This book analyzes in the relation with the Romanian modernity the transformations of the Romanian public sphere political system and journalism from the beginning of the 19th Century up to 2005 The argumentation starts from the idea that the Romanian Enlightenment never had the chance to reach its purpose the creation of the individual as a human category As a consequence of this historical fact the Romanian modernity was not explored in all its dimensions and was not congruent with its western model of development Only after late 90 s signs for a surpassing historical backwardness were seen in Romania and only after the integration into EU become sure From this perspective this book looks onto the change in the modernization engine of Romania in late 90 s This change is happening as a transgression from a three steps modernization model in which the role of the elite is central to a two steps modernization model in which the role of the elite is minimal Because the three steps modernization model fits the idea of an acclamatory public sphere while the two steps modernization engine fits the concept of civil public sphere this book proves that the Romanian democracy is evolving from its totalitarian background to become a participative democracy The only question unanswered yet is if the elite and the mass media are willing to let Romania and its citizens to breakup the ties with the totalitarian past

How Russia Is Not Ruled Allen C. Lynch, 2005-01-10 The state remains as important to Russia s prospects as ever This is so not only because as in any society an effectively functioning state administration is necessary to the proper functioning of a complex economy and legal system but also because in Russian circumstances factors of economic geography tend to increase costs of production compared to the rest of the world These mutually reinforcing factors include the extreme severity of the climate the immense distances to be covered the dislocation between European population centers and Siberian natural resource centers and the inevitable predominance of relatively costly land transportation over sea borne transportation As a result it is questionable whether
