

Social Change In The United States 1945 1983

M. J. Heale

Social Change In The United States 1945 1983:

Social Change in the United States, 1945-1983 William Issel, 1985 **Twentieth-Century America** Douglas Tallack, 2014-07-22 The multi volume Longman literature in English series aims to provide students of literature with a critical introduction to the major genres in their historical and cultural context This book looks at cinema painting and architecture in 20th century America as well as the culture of politics The American Work Ethic and the Changing Work Force Herbert Applebaum, 1998-06-25 A major force in American society the work ethic has played a pivotal role in U S history affecting cultural social and economic institutions But what is the American work ethic Not only has it changed from one era to another but it varies with race gender and occupation Considering such diverse groups as Colonial craftsmen slaves 19th century women and 20th century factory workers this book provides a history of the American work ethic from Colonial times to the present Tracing both continuities and differences the book is divided into sections on the Colonial era the 19th century and the 20th century and includes chapters on both major occupational groups such as farmers factory workers laborers and gender racial and ethnic minorities This approach which covers all major groups in U S history enables the reader to discern how the work ethic applied to different occupational and ethnic groups over time The book subjects the work ethic to an analysis based on historical sociological economic and anthropological perspectives and provides an analysis of current thinking about how the work ethic applied to various groups and classes in different historical periods The Routledge Companion to World History since 1914 Chris Cook, John Stevenson, 2006-01-27 The Routledge Companion to World History since 1914 is an outstanding compendium of facts and figures on World History Fully up to date reliable and clear this volume is the indispensable source of information on a thorough range of topics such as the Arab Israeli conflict anti semitism and the Holocaust all the world s major famines and natural disasters since 1914 whether all countries of the world have a king president prime minister or other governance GNP of the world s major states year by year biographies of key figures civil rights movements the Vietnam War the rise of terrorism globalization Thematically presented the book covers topics relevant from the First World War to the Iraq war of 2003 and from post colonial Africa to conflicts and movements in Southeast Asia With maps chronologies and full bibliography this user friendly reference work is the essential companion for students of history politics and international relations and for all those with an interest in world history Altered States Jeremy Black, 2006-11 The United States Jeremy Black suggests is a continent pretending to be a country Its government presides over 3 7 million square miles of earth and nearly 300 million people Its sheer scale poses a monumental challenge to all who try to grapple with its rich and immensely complex physical and social geography Drawing on his own travels Black responds to this challenge by offering a succinct and authoritative analysis of the ways in which events in history and culture since 1960 have remade the USA s geography and demographics BOOK JACKET The Irony Of Reform G. Calvin Mackenzie, 2018-03-08 This book describes how American society has evolved over the past half century

by examining the cultural context for political change It explores the profound alterations that have occurred in American political process and discusses the reforms that have altered the American politics **Feminism in the Heartland** Judith Ezekiel,2002 Set in Dayton Ohio Feminism in the Heartland traces the history of a dynamic utopian movement that transformed the lives of thousands of women who fought to make their city and country responsive to women s needs

The Sixties Paul Monaco,2003-06 This book covers the 1960 s as part of the definitive history of American cinema from its emergence in the 1800s to the present day **American Childhoods** Joseph E. Illick,2013-09-04 Selected by Choice magazine as an Outstanding Academic Title The experiences of children in America have long been a source of scholarly fascination and general interest In American Childhoods Joseph Illick brings together his own extensive research and a synthesis of literature from a range of disciplines to present the first comprehensive cross cultural history of childhood in America Beginning with American Indians European settlers and African slaves and their differing perceptions of how children should be raised American Childhoods moves to the nineteenth century and the rise of industrialization to introduce the offspring of the emerging urban middle and working classes Illick reveals that while rural and working class children continued to toil from an early age as they had in the colonial period childhood among the urban middle class became recognized as a distinct phase of life with a continuing emphasis on gender differences Illick then discusses how the public school system was created in the nineteenth century to assimilate immigrants and discipline all children and observes its major role in age grouping children as well as drawing working class youngsters from factories to classrooms At the same time such social problems as juvenile delinquency were confronted by private charities and ultimately by the state Concluding his sweeping study the author presents the progeny of suburban inner city and rural Americans in the twentieth century highlighting the growing disparity of opportunities available to children of decaying cities and the booming suburbs Consistently making connections between economics psychology commerce sociology and anthropology American Childhoods is rich with insight into the elusive world of children Grounded firmly in social and cultural history and written in lucid accessible prose the book demonstrates how children s experiences have varied dramatically through time and across space and how the idea of childhood has meant vastly different things to different groups in American society American Labor and the Cold War Robert W. Cherny,William Issel,Kieran Walsh Taylor,2004 The American labor movement seemed poised on the threshold of unparalleled success at the beginning of the post World War II era Fourteen million strong in 1946 unions represented thirty five percent of non agricultural workers Why then did the gains made between the 1930s and the end of the war produce so few results by the 1960s This collection addresses the history of labor in the postwar years by exploring the impact of the global contest between the United States and the Soviet Union on American workers and labor unions The essays focus on the actual behavior of Americans in their diverse workplaces and communities during the Cold War Where previous scholarship on labor and the Cold War has overemphasized the importance of the Communist Party the automobile

industry and Hollywood this book focuses on politically moderate conservative workers and union leaders the medium sized cities that housed the majority of the population and the Roman Catholic Church These are all original essays that draw upon extensive archival research and some upon oral history sources The Civil Rights Movement William Riches,2017-11-07 An established introductory textbook that provides students with a compelling overview of the growth of the mass movement from its origins after the Second World War to the destruction of segregated society before charting the movement's path through the twentieth century up to the present day This is an ideal core text for modules on Civil Rights history or American history since 1945 or a supplementary text for broader modules on American history African American history or Modern US politics which may be offered at the upper levels of an undergraduate history politics or American studies degree In addition it is a crucial resource for students who may be studying the Civil Rights Movement for the first time as part of a taught postgraduate degree in American history US politics or American studies New to this Edition Revised and updated throughout in light of the latest research Includes in depth analysis of Barack Obama's presidency Provides further exploration of cultural and gender history Examines contemporary issues such as the Black Lives Matter movement and the 2016 US election **Crucible of Freedom** Eric Leif Davin,2012-07-10 This book explores the relation between democracy and industrialization in United States history Over the course of the 1930s the political center almost disappeared as the Democratic New Deal became the litmus test of class with blue collar workers providing its bedrock of support while white collar workers and those in the upper income levels opposed it By 1948 the class cleavage in American politics was as pronounced as in many of the Western European countries such as France Italy Germany or Britain with which we usually associate class politics Working people created a new America in the 1930s and 1940s which was a fundamental departure from the feudalistic and hierarchical America that existed before They won the political rights of American citizenship which had been previously denied them They democratized labor capital relations and gained more economic security than they had ever known They obtained more economic opportunity for them and their children than they had ever known and they created a respect for ethnic workers which had not previously existed In the process class politics re defined the political agenda of America as for the first time in American history the political universe polarized along class lines Eric Leif Davin explores the meaning of the New Deal political mobilization by ordinary people by examining the changes it brought to the local county and state levels in Pittsburgh Allegheny County and Pennsylvania as a whole **Catholicism in the American West** Roberto R. Treviño,Richard V. Francaviglia,2007 Like the rosary itself the influence of Catholicism on the social and historical development of the American West has been both visible and hidden visible in the effects of personal conviction on lives and communities hidden in that the fuller context of this important American religious group has been largely marginalized or undervalued in traditional historiographic treatments of the region This volume an outgrowth of the 2004 Walter Prescott Webb Memorial Lectures seeks to redress this imbalance Editors Roberto R Treviño and Richard Francaviglia

have assembled here a variety of scholarly voices to present according to the preface little known stories about a religion whose traditions and adherents had until recently remained largely at the periphery of U S history narratives The result is a work that offers at once a fuller portrait of the Catholic experience in and impact on the American West and also tantalizing glimpses that are highly suggestive of fruitful areas for further study The contributors to Catholicism in the American West bring to light the variety the hardships and ultimately some of the triumphs of Catholicism in the American West These studies are fine examples of the scholarship currently reshaping how historians understand the role of Catholicism both in the development of the West and in the broader history of the nation

The Sixties in America M. J. Heale, 2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company

American Credo Michael Foley, 2007-09-13 American society may be hostile to the thought of ideologies but it possesses a sophisticated but little understood ability to engage in deep conflicts over political ideas while at the same time reducing adversarial positions to legitimate derivatives of American history and development The study asks how this occurs how the sources traditions and usages of core ideas and their derivative compounds animate political discourse and structure the basis of political conflict and how it is possible to sustain a high incidence of competitive value laden argument and principled political conflict within a stable political order The fundamental aim of this study is to examine the traditions and usages of American political ideas within the arena of practical politics By locating them in their respective contexts it will be possible to assess both their changing meanings and their shifting relationships to one another In surveying America s core ideas both in isolation and in combination the book facilitates an informed awareness of their political and cultural leverage as forms of persuasion and sources of legitimacy American Credo roots the examination of American political ideas firmly in the milieu of social drives political movements and contemporary issues within which the ideas themselves are embedded This not only allows the study to investigate the interior properties and traditional priorities of America s key values but permits the theoretical implications and practical consequences of these ideas to be traced and evaluated By marshalling a wide variety of evidence from different disciplines and perspectives and by employing innovative principles of organisation the study offers clarity and depth in support of an inventive explanatory scheme It concludes with a review of the current and likely future challenges to the protocols and conventions surrounding the matrix of ideational coexistence

The Great Boom 1950-2000 Robert Sobel, 2016-02-09 In The Great Boom historian Robert Sobel tells the fascinating story of the last 50 years when American entrepreneurs visionaries and ordinary citizens transformed our depression and war exhausted society into today s economic powerhouse As America s G I s returned home from World War II many of the nation s best minds predicted a new depression yet exactly the opposite occurred Jobs were plentiful in retooled factories swamped with orders from pent up demand Tens of thousands of families moved out of cities into affordable suburban homes built by William Levitt and his imitators They bought cars televisions and air conditioners by the millions And they took to the nation s roads and new interstate highways

the largest public works project in world history where Kemmons Wilson of Holiday Inns Ray Kroc of McDonalds and other start up entrepreneurs soon catered to a mobile populace with food and lodgings for leisure time vacationers Americans and their families began to channel savings into new opportunities Credit cards democratized purchasing power while early mutual funds found growing numbers of investors to fuel the first postwar bull market in the go go 60s At the same time the continuing boom enriched the fabric of social and cultural life A college education became a must on the highway to upward mobility high tech industries arose with astonishing new ways of conducting business electronically and an unprecedented 49 million families had become investors when the 1981 2000 stock market boom reached 10 000 on the Dow The Great Boom is the first major book to portray the great wave of homegrown entrepreneurs as post war heroes in the complete remaking and revitalizing of America All that plus the creation of unprecedented wealth or themselves for the nation for tens of millions of citizens all in five short drama filled decades

Reader's Guide to American History Peter J. Parish,2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader s Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history

Dudley Randall, Broadside Press, and the Black Arts Movement in Detroit, 1960-1995 Julius E. Thompson,2005-02-15 In 1965 Dudley F Randall founded the Broadside Press a company devoted to publishing distributing and promoting the works of black poets and writers In so doing he became a major player in the civil rights movement Hundreds of black writers were given an outlet for their work and for their calls for equality and black identity Though Broadside was established on a minimal budget Randall s unique skills made the press successful He was trained as a librarian and had spent decades studying and writing poetry most importantly Randall was totally committed to the advancement of black literature The famous and relatively unknown sought out Broadside including such writers as Gwendolyn Brooks Margaret Walker Mae Jackson Lance Jeffers Etheridge Knight Sonia Sanchez Nikki Giovanni Audre Lorde and Sterling D Plumpp His story is one of battling to promote black identity and equality through literature and thus lifting the cultural lives of all Americans

Future Survey Annual 1986 Michael Marien,1987-01-01

Silent Film and the Triumph of the American Myth Paula Marantz Cohen,2001-05-03 *Silent Film and the Triumph of the American Myth* is a broad cultural study that connects the rise of film to the rise of America as a cultural center and world power in the twentieth century Cohen argues that through the medium of silent film America was able to sever its literary and linguistic ties to Europe assert its cultural independence and forge a unique form of cultural expression Silent films drew

on elements developed in popular forms of representation like photography landscape panoramas and vaudeville performance to create a medium that more accurately represented the American experience

Thank you very much for downloading **Social Change In The United States 1945 1983**. Most likely you have knowledge that, people have look numerous period for their favorite books with this Social Change In The United States 1945 1983, but end going on in harmful downloads.
