Racism in the 21st Century Ronald E. Hall, 2008-08-06 In the post Civil Rights era there is a temptation to assume that racism is no longer the pressing social concern in the United States that it once was The contributors show that racism has not fallen from the forefront of American society but is manifest in a different way According to the authors in this volume in 21st century skin color has come to replace race as an important cause of discrimination This is evidenced in the increasing usage of the term people of color to encompass people of a variety of racial and ethnic backgrounds The editor has compiled a diverse group of contributors to examine racism from an interdisciplinary perspective Contributions range from the science of racism from its perceived biological basis at the end of the 19th century to sociological studies its new forms in the 21st century The result is a work that will be invaluable to understanding the challenges of confronting Racism in the 21st Century [Interdisciplinary Perspectives on Colorism](#) Ronald E. Hall, 2022-07-22 This timely and unique book explores the concept of colorism which is discrimination based on the color of a person s skin in a world where arguably light skin is privileged over dark and one s wealth health and opportunities are impacted by skin color sometimes irrespective of one s racial background In the context of our multi cultural and increasingly global society and the historical backdrop of slavery the text takes a unique approach by moving from personal anecdotes to adopting a scientific perspective grounded in empirical evidence Hall explores how skin color is a more effective framework for examining prejudice and discrimination as racial identities become increasingly mixed due to inter racial unions and immigration He argues that racism as discrimination by race is contrived polarizing and non quantifiable and that it is often skin color that is used to identify race

often inaccurately With skin color being a visual and physical characteristic with race based prejudices attached to it the author shows how skin color can be a loaded identifier of value and identity In a world where the objective measure of skin color crosses racial boundaries and where race will become increasingly indiscernible over time the ultimate aim of this book is to prepare for the social future of mankind that has already begun to take shape Split into three parts examining historical contemporary and potential future perspectives on colorism this is fascinating reading for students and academics in psychology social work education criminal justice and other social sciences The text will also be useful for providing validation for including colorism into the public domain

Racism in Contemporary African American Children's and Young Adult Literature Suriyan Panlay, 2016-10-25 Applying critical race theory to contemporary African American children's and young adult literature this book explores one key racial issue that has been overlooked both in race studies and literary scholarship internalised racism By systematically examining the issue of internalised racism and its detrimental psychological effects particularly towards the young and vulnerable this book defamiliarises the very racial issue that otherwise has become normalised in American racial discourse reaffirming the relevance of race racism and racialisation in contemporary America Through readings of works by Jacqueline Woodson Sharon G Flake Tanita S Davis Sapphire Rosa Guy and Nikki Grimes Suriyan Panlay develops a new critical discourse on internalised racism by studying its effects on marginalised children its manifestations and the fictional narrative strategies that can be used to regain and reclaim a sense of self

Filipino American Psychology Kevin L. Nadal, 2009 Filipino Americans are the second largest Asian American Pacific Islander population in the United States and they are projected to become the largest Asian American population by 2010 With 1.37 million Filipino born immigrants living in the US Filipino Americans are the second largest immigrant population in the country As descendants of the Philippines a country that was colonized by Spain for over three centuries and by the US for nearly 50 years Filipino Americans are an ethnic group with a sociocultural and historical experience that is unlike any other First they are the only ethnic group that has been categorized as Asian American Pacific Islander and Hispanic However California state laws require that all personnel surveys or statistical tabulations classify persons of Filipino ancestry as Filipino rather than part of any other racial or ethnic group Additionally Filipino Americans have often been referred to as the Forgotten Asian Americans because their presence has been invisible in psychology education humanities and other social sciences Filipino American Psychology A Handbook of Theory Research and Clinical Practice offers a comprehensive look at the psyche of Filipino Americans By examining history cultural values influences of colonialism community dynamics and intersections with other identities the reader will have an opportunity to understand essential information about this population Students will gain knowledge and awareness about Filipino American identity and personality development while practitioners will learn culturally competent techniques to become better counselors clinicians and educators This book is the first of its kind and aims to promote visibility of this invisible group so that 2.4 million Filipino Americans will have their

voices heard *The Routledge International Handbook of Colorism* Ronald E. Hall, Neha Mishra, 2024-08-04 This timely and unique edited book explores the concept of colorism which is discrimination based on the color of a person's skin. It takes a global approach that draws on authentic voices from varied contexts and is dedicated to exploring and enriching the diverse intellectual discourse on colorism. The book explores colorism across the globe and studies how it has been woven into the cultural fabric of communities of color. With 22 chapters organised geographically into parts representing six continents, it looks at various facets of colorism offering international insights beyond a Western perspective. The handbook examines policy making in the sphere of colorism internationally and across countries and provides thoughtful insights on colorism discrimination in different contexts. Chapters are written by leading experts from different disciplinary backgrounds who present cutting edge research on the topic of colorism in different country contexts contributing to a global dialogue on colorism. *The Routledge International Handbook of Colorism* comprehensively highlights colorism and skin color bias which blurs the national and international boundaries. It will be fascinating reading for students and academics in psychology, social work, education, criminal justice and other social sciences. It will also be of interest to those working in areas relating to marginalization, human rights, diversity and inclusion.

‘Dying’ to be White Purnima Mehta Bhatt, 2024-08-12 This book examines the phenomenon of colorism in India and the Global South and critically analyses the obsession with fair skin and its association with social capital or mobility. Exploring the prevalence of colorism in India, China, Japan, Vietnam, South Africa, Brazil, Argentina, Kenya and Australia, it traces its roots in history, scriptures, travel narratives, contemporary media and popular culture. How much did colonialism and European imperialism contribute to the desire to be white? How have globalization and the spread of consumer culture and Western ideals of beauty helped exacerbate these issues? The author discusses these questions while looking at the aspirations for beauty and modernity among these societies and the growing popularity of the use of creams, lotions and other methods to whiten the skin as a means to assimilate, emulate the West and gain better prospects and life. Lucid and topical, this book will be an essential read for scholars and researchers of race and colorism, sociology, social history, social anthropology, cultural studies, consumer economics, Asian studies and South Asian studies.

The Western Journal of Black Studies, 2009 *The Anatomy of Colorism in America* Robb Nelson, 2025-04-21 *The Anatomy of Colorism in America* addresses the significance that colorism, racial hierarchy and white skin idealization have each had on the lives of individuals across multiple communities and how those experiences have compared with one another. These three complexion based imperial systems culturally, legally, politically and socially divided persons based on differing skin shades, hair textures, eye shapes, facial angles, body types or claims to mythical racial backgrounds. *The Anatomy of Colorism in America* argues that the practices associated with empire building and imperial expansion in America such as manifest destiny, settler colonialism and indentured servitude and slavery all led to the creation of these complexion based divisions. Once formed, these divisions led to socially damaging outcomes for the individuals perceived as nonwhite by the

The Theory and Practice of Third World Solidarity Darryl C. Thomas,2001-02-28 This study

examines the development of Third World solidarity within the broader historical context of changing hegemonic power systems from Pax Britannia to Pax Americana Thomas focuses on the political economic and racial structures that are fundamental to hegemonic supremacy over peripheral and semiperipheral states and he analyzes the divergent modes of Third World incorporation subordination into the world system He concludes that the racial structure of global apartheid that dominated the world system during the colonial period is re emerging under the rubric of a New World Order

Colorblindness, Post-raciality, and Whiteness in the United States Sherrow O. Pinder, 2015-12-27 This book problematizes the ways in which the discourses of colorblindness and post raciality are articulated in the age of Obama Pinder debunks the myth that race does not matter and reconsiders the presumptive hegemony of whiteness through the dialectics of visibility and invisibility of race From Antebellum Light Skinned Slaves to the Globalization of Skin

Whitening Biotechnology Amina Mire, 2024-12-15 From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology takes historically grounded analysis and delineates how the skin whitening industry has become a contemporary site that facilitates commodification of unregulated whiteness on a global scale Amina Mire investigates the extent to which antebellum South anti miscegenation racial purity laws facilitated unofficial interracial reproduction of light skinned slaves resulting primarily from a systemic rape of enslaved Black women by white slave masters This is because while different in terms of historical context what the unregulated globalization of the skin whitening industry and the antebellum unofficial reproduction and trade in light skinned slaves have in common is the unofficial and unregulated nature of the accumulation of economic symbolic and aesthetic investment in whiteness The central argument of this book is that commodifiable whiteness is a form of racial capital with profound health social and political implications Consequently as long as whiteness remains a salient ideological force that shapes global understanding of standards of beauty and desirability commodification of whiteness will continue to further entrench systems of racism and colorism The author argues this requires taking seriously the resilience and malleability of white supremacy and its ability to rebrand itself endlessly

Philippine Digital Cultures Cheryll Ruth Soriano, Earvin Charles Cabalquinto, 2025-10-01 Social media platforms have been pivotal in redefining the conduct of contemporary society Amid the proliferation of a range of new and ubiquitous online platforms YouTube a video based platform remains a key driver in the democratisation of creative playful vernacular intimate as well as political expressions As a critical node of contemporary communication and digital cultures its steady uptake and appropriation in a social media savvy nation such as the Philippines requires a critical examination of its role in the continued reconstruction of identities communities and broader social institutions This book closely analyses the diverse content and practices of amateur Filipino YouTubers exposing and problematising the dynamics of brokering the contested aspirational logics of beauty and selfhood interracial relationships world class labour and progressive governance in a digital sphere Ultimately YouTube and Brokerage Dynamics in Philippine Digital Cultures offers a fresh compelling and nuanced account of

YouTube as an important site for the mediation of culture economy and politics in Philippine postcolonial modernity amid rapid economic globalisation and digitalisation
