The Film Cheat Murray Pomerance,2020-10-15 Murray Pomerance venerated film scholar is the first to take on the cheat in film where cheating constitutes a collection of production performance and structuring maneuvers intended to foster the impression of a screen reality that does not exist as presented This usually calls for a suspension of disbelief in the viewer but that rests on the assumption that disbelief is problematic for viewership and that we must find some way to suspend or disconnect it in order to allow for the entertainment of the fiction in its own terms The Film Cheat explores forty five aspects of the cheat analyzing classic films such as Singin in the Rain and Chinatown to more contemporary films like The Revenant and Baby Driver with Pomerance engaging his encyclopedic knowledge of film history to point out numerous instances of suspensions of disbeliefs Whether or not Gene Kelly is actually dancin in the rain or if Elliott is really flying on his bicycle carrying E T these cheats are what make movie magic Elegantly weaving the narrative for one to dip into at random or to read from cover to cover

Pomerance turns things upside down so that the audience actually finds pleasure in the cheat itself pleasure in the disbelief To see the elegant fake the supremely accomplished simulacrum is a pleasure in its own right indeed one of the fundamental pleasures of cinema *Milestones of Flight* F.
