Here Be Dragons Stefan Ekman, Stefan Ekman, 2013-02-19. First in depth study of the use of landscape in fantasy literature. Winner of the Mythopoeic Scholarship Award for Myth and Fantasy Studies 2016. Fantasy worlds are never mere backdrops. They are an integral part of the work and refuse to remain separate from other elements. These worlds combine landscape with narrative logic by incorporating alternative rules about cause and effect or physical transformation. They become actors in the drama interacting with the characters offering assistance or hindrance and making ethical demands. In *Here Be Dragons* Stefan Ekman provides a wide ranging survey of the ubiquitous fantasy map as the point of departure for an in depth discussion of what such maps can tell us about what is important in the fictional worlds and the stories that take place there. With particular focus on J. R. R. Tolkien's *The Lord of the Rings* Ekman shows how fantasy settings deserve serious attention from both readers and critics. Includes insightful readings of works by Steven Brust Garth Nix Robert Holdstock Terry Pratchett Charles de Lint China Miéville Patricia McKillip Tim Powers Lisa Goldstein Steven R. Donaldson Robert Jordan and Neil Gaiman and Charles Vess.
