Summer Before The Dark:

The Summer Before the Dark Doris Lessing, 2010-11-17 As the summer begins Kate Brown attractive intelligent forty five happily enough married with a house in the London suburbs and three grown children has no reason to expect anything will change But when the summer ends the woman she was living behind a protective camouflage of feminine charm and caring no longer exists This novel Doris Lessing s brilliant excursion into the terrifying stretch of time between youth and old age is her journey from London to Turkey to Spain from husband to lover to madness on the road to a frightening new independence and a confrontation with self that lets her finally come truly of age

The Summer Before the Dark Doris Lessing, 1973 **Journey Through the Dark** Iben Krog Bidstrup, 2004 *The Summer Before the Summer of Love* Marly A. Swick, 2004-04-01

The ten stories in this collection explore the intimate dynamics of parents and children friends and lovers and husbands and wives The characters stand on unstable ground and coexist with unpleasant truths a grown son drives his mother to the abortion clinic two girls go on a road trip to a Beatles concert with their divorced mother three recently single women try to purge the past with a garage sale a father moves into his daughter s group house in Berkeley Grappling with loss and disappointment struggling to become whole again or for the first time her characters pass like ghosts through their own lives seeking to understand imperfectly and belatedly where they ve come from and what might have been

Beyond Innocence, Or, The Altersroman in Modern Fiction Linda A. Westervelt, 1997 In this groundbreaking work Linda A Westervelt defines an important yet previously unidentified and therefore unnamed type of novel the altersroman or age novel Fictions focusing on a protagonist s confrontation with mortality toward the end of middle age are likely to become ever more prominent in a Western world in which the average age of the population increases and more people reach late middle age and old age Working from a diverse sample of modern literature Westervelt analyzes the variety of responses to the life evaluation Some characters achieve a level of affirmation that allows renewal redirection or simply peace while others confront feelings of disgust or despair that so little time is left them Her altersromane are books about seeking wisdom though not everyone of this age becomes wise The use of the term altersroman highlights the fact that the altersroman is a classification comparable to but also clearly distinguishable from the bildungsroman wherein characters make the transition from youth to adulthood Westervelt contrasts her older protagonists characteristics with the equivalent characteristics in the bildungsroman through an examination of Don Quixote part 2 as well as six American novels *The Ambassadors* by Henry James *The Professor s House* by Willa Cather *The Mansion* by William Faulkner *The Angle of Repose* by Wallace Stegner *A Book of Common Prayer* by Joan Didion and *Jazz* by Toni Morrison These seven works though remarkably different share the common features of the altersroman Westervelt articulates the traits clearly rests them on the psychological literature and then shows in depth how the characteristics of the altersroman can enrich and more deeply inform our reading of a significant subset of modern literature that previously went unheralded Readers can use Westervelt s

analysis to identify altersromane in literature other than their own and she begins this process by identifying exemplars written in other languages Beyond Innocence or the Altersroman in Modern Fiction introduces readers to the altersroman as a tool for classification and analysis and demonstrates the power and utility of that tool It offers a meaningful and enriching complement to the more established category of the bildungsroman **Beyond Feminist Aesthetics** Rita Felski,1989 Beyond Feminist Aesthetics has a dual focus First Rita Felski gives a critical account of current American and European feminist literary theory and second she offers an analysis of contemporary fiction by women drawing in particular on the genres of the autobiographical confession and the novel of self discovery in order to show that this literature raises questions for feminism that cannot be answered in terms of a purely gender based analysis Felski argues that the idea of a feminist aesthetic is a nonissue that feminists have needlessly pursued she suggests in contrast that it is impossible to speak of masculine and feminine subversive and reactionary literary forms in isolation from the social conditions of their production and reception The political value of such works of literature from the standpoint of feminism can be determined only by an investigation of their social functions and effects in relation to the interests of women in a particular historical context This leads her to argue for an interdisciplinary approach to the analysis of literature which can integrate literary and social theory and to develop such an approach by drawing upon the model of a feminist counter public sphere Rita Felski has produced a closely reasoned stimulating book that creates a new framework for discussing the relationship between literature and feminist politics It will interest students and teachers of women s studies comparative literature cultural studies and fiction
