Finding My Wild Kathy Donaghy,2023-02-06 Life had brought me to the edge of myself and here I was feeling like I was on the edge of the world After moving back to her homeplace on the Inishowen Peninsula in Donegal with her young family journalist Kathy Donaghy s life changed in ways she never saw coming This unflinching memoir looks back at a decade of love and loss of mothering identity and ultimately healing An ode to friendship home and the extraordinary healing powers of immersing yourself in the natural world especially the ocean

Scripture illustrated by means of natural Science: in botany, geology, geography ... Charles Taylor,1814

The Tennessee Mountain Man George Moon,2013-04-24 My writing style is like a wheel I begin with the hub then branch out into other tales however before it all ends I bring it back so that it all makes sense Im able to describe a murder as well as sex without resorting to explicit detail like so much found in todays fiction By the proper use of language I accomplish the same emotional response from my readers The reader often finds interesting essays that digress from or adds to the main plot They might include slices of local history or an explanation why certain things appear as they do My stories are told with the reader in mind The plots are fast moving and contain enough surprises to hold the readers attention The Tennessee Mountain Man is my third book It takes a popular character from the first bio novel Renos Funmakers and gives his exploits after five years of marriage The year is 1861 and the trouble down at Fort Sumter in South Carolina not only changes the United States but Jack Leffingwell and his family Along with the main plot my books never fail to offer the reader information that was previously unknown making it a learning experience

The Boy and the Mountain Torbjorn Ekelund,2023-05-23 In this engrossing book a father and son ascend a mountain together retracing the steps of a boy who went missing there a century earlier a quest that spawns a tender meditation on nature family and the joy of discovery Six year old Hans Torske disappeared in Norway s Skrim mountains in 1894 Why he wandered away from his family s cabin is still a mystery but his body was found the following summer lying atop a 2 860 foot mountain peak and covered with his thin jacket More than 100 years later nature writer Torbjorn Ekelund and his seven year old son August attempt the same summit It s August s first overnight hiking trip and Ekelund is eager to share his love of nature with his son But soon he notices that the ways children and adults experience nature are vastly different for better and for worse The Boy and the Mountain reflects on what parenthood requires experiencing the joy of watching your child go out into the world for the first time while also worrying about the dangers they may face Filled with curiosity humility and deep gratitude for wild places this gem of a book is a celebration of the uncompromising nature of the

elements our bond with them and the special relationship between father and son
