Shaping Language Policy in the U.S. Scott Wible, 2013-02-08 In Shaping Language Policy in the U S The Role of Composition Studies author Scott Wible explores the significance and application of two of the Conference on College Composition and Communication's key language policy statements the 1974 Students Right to Their Own Language resolution and the 1988 National Language Policy Wible draws from a wealth of previously unavailable archived material and professional literature to offer for the first time a comprehensive examination of these policies and their legacies that continue to shape the worlds of rhetoric politics and composition Wible demonstrates the continued relevance of the CCCC's

policies particularly their role in influencing the recent post 9 11 emergence of a national security language policy He discusses in depth the role the CCCC s language policy statements can play in shaping the U S government s growing awareness of the importance of foreign language education and he offers practical discussions of the policies pedagogical professional and political implications for rhetoric and composition scholars who engage contemporary debates about the politics of linguistic diversity and language arts education in the United States *Shaping Language Policy in the U S* reveals the numerous ways in which the CCCC language policies have usefully informed educators professional practices and public service and investigates how these policies can continue to guide scholars and teachers in the future

Resources in Education ,2001-10 *Situated Language and Learning* James Paul Gee,2012-10-02 Why do poor and minority students under perform in school Do computer games help or hinder learning What can new research in psychology teach our educational policy makers In this major new book Gee tackles the big ideas about language literacy and learning putting forward an integrated theory that crosses disciplinary boundaries and applying it to some of the very real problems that face educationalists today *Situated Language and Learning* looks at the specialist academic varieties of language that are used in disciplines such as mathematics and the sciences It argues that the language acquisition process needed to learn these forms of language is not given enough attention by schools and that this places unfair demands on poor and minority students The book compares this with learning as a process outside the classroom applying this idea to computer and video games and exploring the particular processes of learning which take place as a child interacts with others and technology to learn and play In doing so Gee examines what video games can teach us about how to improve learning in schools and engages with current debates on subjects such as communities of practice and digital literacies Bringing together the latest research from a number of disciplines *Situated Language and Learning* is a bold and controversial book by a leading figure in the field and is essential reading for anyone interested in education and language

The Practical Critical Educator Karyn Cooper,Robert E. White,2006-06-10 I am delighted to have the opportunity to write this foreword for Karyn Cooper s and Robert White s splendid and compelling edited text on *The Practical Critical Educator* Critical practice in education is grounded in two bodies of thought and action critical theory and critical pedagogy Drawing on classical Marxism and its articulation of how oppression and injustice arose through capitalism s economic exploitation of labour critical theories of society took a cultural turn in the writings of Adorno and Horkheimer European Jewish refugees who fled to America where they articulated how the power relations and oppressive forces of capitalism expressed themselves in the alienating symbolic forces of culture music and art When booming demographics and an economic surplus fuelled the student movement of the late 60s and in to the 70s in many Western nations new forms of cultural Marxism were added to this body of critical theory extending beside but also far beyond the classical Marxist preoccupations with economic equalities of social class British writers such as the articulate and elegant cultural Marxist Raymond Williams revived and refined the lost work of Italian Marxist Antonio

Gramsci from the 1920s and his concern with the influence of what he called hegemony the force through which ruling classes could maintain existing structures of domination by defining through language media and culture what was normal natural true beautiful and defensible and what was eccentric unreasonable or unworthy of serious consideration

Language Diversity in the Classroom Geneva Smitherman, Victor Villanueva, 2003 It is no secret that in most American classrooms students are expected to master standardized American English and the conventions of Edited American English if they wish to succeed *Language Diversity in the Classroom From Intention to Practice* works to realign these conceptions through a series of provocative yet evenhanded essays that explore the ways we have enacted and continue to enact our beliefs in the integrity of the many languages and Englishes that arise both in the classroom and in professional communities Edited by Geneva Smitherman and Victor Villanueva the collection was motivated by a survey project on language awareness commissioned by the National Council of Teachers of English and the Conference on College Composition and Communication All actively involved in supporting diversity in education the contributors address the major issues inherent in linguistically diverse classrooms language and racism language and nationalism and the challenges in teaching writing while respecting and celebrating students own languages Offering historical and pedagogical perspectives on language awareness and language diversity the essays reveal the nationalism implicit in the concept of a standard English advocate alternative training and teaching practices for instructors at all levels and promote the respect and importance of the country's diverse dialects languages and literatures Contributors include Geneva Smitherman Victor Villanueva Elaine Richardson Victoria Cliett Arnetha F Ball Rashidah Jammi Muhammad Kim Brian Lovejoy Gail Y Okawa Jan Swearingen and Dave Pruett The volume also includes a foreword by Suresh Canagarajah and a substantial bibliography of resources about bilingualism and language diversity *An Introduction to Critical Discourse Analysis in Education* Rebecca Rogers, 2004-02-26 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **Children's Learning in a Digital World** Teena Willoughby, Eileen Wood, 2008-04-30 Children's Learning in a Digital World presents exciting and challenging new ideas from international scholars on the impact of computers the Internet and video games on children's learning Features exciting new research which reassesses the threats posed by technology to the social emotional and physical development of children Examines the impact of technology in both formal and informal learning contexts covering a range of technologies relevant to students and researchers as well as professional educators Presents key information on the social and cultural issues that affect technology use in addition to the impact on children's learning Includes research from an international range of contributors *International Perspectives on Bilingual Education* John E.
