Braaten, **Shaping a Global Theological Mind** Darren C. Marks, 2017-11-28 Theological thinkers are placed into contexts which inform their theological tasks but that context is usually limited to a European or North American centre usually ignoring minorities and lesser mainstream theologies even in that context This work focuses on the shift of Christian theological thinking from the North Atlantic to the Global South even within the North Atlantic Church and Academy It gives a Global perspective on theological work method and context Theologians from North America Great Britain and Europe Africa Asia Central and South America comment on how their specific context and methodology manifests organizes and is prioritized in their thought so as to make Christian theology relevant to their community By placing the Global South alongside the newly emerging presence of non traditional Western forms such as Pentecostal Aboriginal and Hispanic theologies and theologians a clearer picture of how Christian theology is both enculturated and still familial is offered **The Mission of the Triune God** Adam Dodds, 2017-07-31 Lesslie Newbigin was arguably the greatest missionary thinker of the twentieth century After a successful missionary career in south India

Newbigin pioneered missionary engagement with the secular West and resurgent Islam. He also led the way in arguing that the Church's mission can only be understood in light of the doctrine of the Trinity. Over fifty years ago Newbigin called for the further development of missionary thinking grounded in the Triune being of God. This work is in response to that call. Adam Dodds provides the first in-depth study of Newbigin's trinitarian theology of mission. Dodds constructs a systematic account of the central features of the mission of the Triune God: the Triune being of God, the mission of the Son, the mission of the Holy Spirit, and the mission of the church. This book contributes to our understanding of the work of Lesslie Newbigin, offers a systematic theological account of the mission of the Triune God, and contributes to the retrieval of Christian mission from the theological margins back to a place of central importance to Christian theology.

Bearing the Witness of the Spirit George R. Hunsberger, 1998. What are the theological implications of today's multicultural world? What does cultural plurality mean for the life and mission of the church? George Hunsberger finds the answers to these and other questions in the missionary theology of Lesslie Newbigin, which he brings into clear view in *Bearing the Witness of the Spirit*.

Paul Tillich and Pentecostal Theology Nimi Wariboko, Amos Yong, 2015-11-17. Paul Tillich (1886-1965) is widely regarded as one of the most influential theologians of the 20th century. By bringing his thought together with the theology and practices of an important contemporary Christian movement, Pentecostalism, this volume provokes active, productive, critical, and creative dialogue with a broad range of theological topics. These essays stimulate robust conversation, engage on common ground regarding the work of the Holy Spirit, and offer significant insights into the universal concerns of Christian theology and Paul Tillich and his legacy.

Leaning Both Ways at Once Jeffrey A. Conklin-Miller, 2020-08-26. How should the Methodist tradition continue to embody its evangelistic mission? Some believe effective evangelism requires ecclesial adaptation, seeking relevance to attract outsiders. But does this strategy result in the church's embrace of consumer market practices, pandering to a world of church shoppers? Others suggest the most evangelistic thing the church can do is to be the church, displaying to the world the attractive beauty of a holy community. But could this ironically distance the church from its context and neglect the many ways the church is called to engage the world? The Wesleys formed a people called Methodist, embodying an evangelistic mission, combining commitments to disciplined spiritual life and vital social engagement. In this book, Conklin-Miller suggests faithful United Methodist evangelism requires living in the tension between the church and the world, leaning both ways at once, emphasizing the holiness of the church as a particular people, but at the same time being a people sent to intercede in the world as servants, advocates, and witnesses. This understanding constitutes not only a broader reframing of evangelistic mission, but also a vision for the identity and agency of the church in the Wesleyan tradition: a Methodist missional ecclesiology.

Apostolic Imagination J. D. Payne, 2022-02-08. A leading expert in the field of Christian missions encourages the church to recover the apostolic imagination that fueled the multiplication of disciples in the first century. J. D. Payne examines the contemporary practice of Western missions and advocates a more central place for Scripture in defining

missionary language identity purpose function and strategy He shows that an apostolic understanding of the church's disciple making commission requires rethinking every aspect of missionary engagement The book includes end of chapter discussion questions and action steps to help pastors and church leaders develop an apostolic imagination The Theology of Wolfhart Pannenberg Carl E. Braaten, Philip Clayton, 2016-07-30 How deep has Pannenberg's influence been on American theology Which particular ideas or themes from his work have been most pervasive to American thinkers and which have encountered the greatest resistance What implications does his work have beyond explicitly theological contexts e.g. for philosophy ethics environmental concerns political action and the natural sciences What new forms have his ideas taken as they have been adapted to fit the very different context of American theology The authors of the twelve critiques in this volume represent a broad cross section of American thought on religion The essays cover virtually all of the major areas in which Pannenberg has published An introductory survey provides a comprehensive overview of the critical literature on Pannenberg from the early 1960s to 1986 Together the essays represent an accurate barometer of the influence Pannenberg has had in America as well as the sorts of reservations that the English speaking world brings to his work It has now been many years since Pannenberg's first visit to the United States At that time the discussion with Pannenberg focused on the radically historical character of his proposal for theology centering around revelation and resurrection In the meantime Pannenberg's thought has expanded almost encyclopedically into most of the major disciplines studied in a modern university Without doubt the most comprehensive theologian at work today his place in the history of twentieth century theology is well assured *Let the Earth Rejoice* William Dyrness, 1998-06-16 Is there any relation between the Christian hope and human hopes and aspirations Does the wish for a better life have no relation to the salvation God offers to all people This book attempts to address these questions as a whole by way of an essay in biblical theology It seeks to respond to the fundamental issue what is the biblical view of God's mission in the world It may be that Scripture approached on its own terms without some preconception about what the church has always believed about evangelism will clarify the issues For in Scripture God is obviously interested in the whole person embedded as he or she is in the whole of creation and inserted in a particular history
