The Family Bond Leonard G. Benson, 1971 **Sex, Love Or Romance** Ray E. Short, 2004 From the author of *Sex Dating and Love* comes a foolproof guide to determining the strength of a relationship **The Psychosocial Interior of the Family** Gerald Handel, Gail G. Whitchurch, 1994 This long awaited fourth edition has the same goal as the preceding editions to understand families in terms of the kinds of interaction through which family life is constructed The changes in the family as an institution have influenced these processes just as they have influenced the ways we understand and write about them But even in these postmodern circumstances an underlying premise of the volume is that two partners establish a family because they have selected each other as distinctively meaningful to one another They will affirm modify elaborate or retreat from various aspects of the relationship through interaction over time and in changing circumstances This volume contains the best available interdisciplinary work on the social psychology of the family More than half of the selections are new to this edition which incorporates a variety of theoretical and research perspectives that provide the reader with a range of authoritative and up to date sources on the family and interpersonal relations The newer forms of family organization that have emerged in the more recent literature specifically single parent families stepfamilies and families of gay and lesbian domestic partners are included Authors have been drawn from a variety of disciplines including sociology communication family studies human development psychology anthropology and social work *Instructor's Manual for the Family Bond* Leonard Glenn Benson, 1971 **Catalog of Copyright Entries. Beyond Ethnicity : Consent and Descent in American Culture Werner Sollors Professor of American Literature and Afro-American Studies Harvard University, 1986-02-27 Nothing is pure in America and indeed the rich ethnic mix that constitutes our society accounts for much of its amazing vitality Werner Sollors's new book takes a wide ranging look at the role of ethnicity in American literature and what that literature has said and continues to say about our diverse culture Ethnic consciousness he contends is a constituent feature of modernism not modernism's antithesis Discussing works from every period of American history Sollors focuses particularly on the tension between descent and consent between the concern for one's racial ethnic and familial heritage and the conflicting desire to choose one's own destiny even if that choice goes against one's heritage Some of the stories Sollors examines are retellings of the biblical Exodus stories in which Americans of the most diverse origins have painted their own histories as an escape from bondage or a search for a new Canaan Other stories are American made tales of melting pot romance which may either triumph in intermarriage accompanied by new world symphonies or end with the lovers death Still other stories concern voyages of self discovery in which the hero attempts to steer a perilous course between stubborn traditionalism and total assimilation And then there are the generational sagas in which as if by magic the third generation emerges as the fulfillment of their forebears dream Citing examples that range from the writings of Cotton Mather to *Liquid Sky* a post punk science fiction film directed by a Russian
