Kagitibasi, 2014-03-05 The culmination of 15 years of research by a Turkish psychologist who was educated in the West this volume examines both the theoretical and practical aspects of cross cultural psychology It takes a contextual developmental functional approach linking the child family and society as they are embedded in culture A refreshingly different view the author presents a portrait of human development from the other side from the perspective of the majority world In a world seemingly dominated by American psychology she proposes the cross cultural orientation as a corrective to the culture boundedness of much of Euro American psychology Analyzing human development in context while avoiding the pitfalls of extreme relativism this work studies development with an inclusive holistic and ecological perspective focusing on the development of the self and of competence In so doing it also attempts to combine cultural contextualism with universalistic standards and psychological processes It proposes a theory of family change which challenges some commonly held modernization assumptions and links theory and application while examining the role of psychology in inducing social change

Culture and Family Wen-Shing Tseng, Jing Hsu, 2018-02-06 Originally published in 1991, this landmark guide gave brilliant insights on dealing with the cultural aspects of family mental health. It systematically reviews various dimensions of the family from a cross cultural perspective, including system development, behaviour and functioning. It then thoroughly examines the problems and dysfunctions that can occur in families of different cultural backgrounds and finally proposes culturally appropriate assessments and treatments for resolving these family problems. Family counsellors, therapists and researchers who study the family will find practical suggestions on how to assess and evaluate the family with cultural considerations, clinical suggestions on providing culturally relevant, effective care of the family and theoretical elaboration on the cultural implications of family therapy. Instead of focusing on families of a particular ethnic or cultural background, the book gives comprehensive coverage to subjects that related to cultural aspects of the family function, problems and therapy. The authors' unique backgrounds, which include analysis of the cross cultural aspects of human behaviour, knowledge in family research and clinical experience in family therapy, add immeasurably to this book's important contribution.

Counseling Across Cultures Paul B. Pedersen, Walter J. Lonner, Juris G. Draguns, Joseph E. Trimble, Maria R. Scharron-del Rio, 2015-01-14 Containing various perspectives on counselling individuals from cultures other than that of the counsellor or therapist, this book covers everything on cross cultural counselling. Topics cover a broad range from basic issues in cross cultural counseling and counselling in ethnocultural contexts to counseling individuals in transitional, traumatic or emergent situations and counseling in the context of some common culture mediated circumstances.

Pastoral Counseling Across Cultures David W. Augsburger, 1986-01-01 In this book David Augsburger discusses the dynamics of pastoral care and counseling across cultural lines. Augsburger combines theology with global perspective and cultural sensitivity to posit an inclusive understanding of pastoral care. This book will be of great interest to pastoral counselors in both academic and practical contexts.
