The Fierce Embrace A Study Of Contemporary American Poetry:

The Fierce Embrace Charles Molesworth, 1979 Critically examines the development of contemporary poetry looking at the work of Lowell Ginsberg Plath Snodgrass Berryman Sexton Ashbery Roethke O Hara Kinnell Bly and Levine **The Fate of American Poetry** Jonathan Holden, 2008-07-01 Readers of Holden's splendid new book will be rewarded by his summary of the latest battle neo formalists versus post post modernists versus creative writing programs versus whatever The decline of modernism is also examined Holden rightly chastises those who decry the institutionalization of poetry details the current state of lyric narrative and political poetry and gives sensitive intelligent readings of works by new and established poets An important book by a solid poet and critic Highly recommended Vincent D Balitas *Poet's Prose* Stephen Fredman, 1990-11-30 *Poet's Prose* is devoted exclusively to American prose poetry and has been recognised as a pioneering study in contemporary American poetry [The Ground of Our Beseeking](#) Peter Sharpe, 2004 *The Ground of Our Beseeking* Metaphor and the Poetics of Meditation describes the signature styles of meditation in three American poets and shows how each generated language out of spiritual yearning The author's inquiry in this area grew out of an interest in the interplay of creativity language and religion and a need to know as both critic and practicing poet how metaphor arises particularly in the context of poetry which hearkens after the sacred How far in other words has metaphor taken some of our central poets T S Eliot Wallace Stevens and Theodore Roethke in matters of belief No other critique of American poetry prior to this study has systematically linked the idea of the sacred with the practice of metaphor Nor has a compelling case been made until now for viewing meditation a style of thinking close to prayer as the source or ground of these poets BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Poetry of James Wright** Andrew Elkins, 1991 In *The Poetry of James Wright* the author traces Wright's formal evolution and concentrates on his consistent themes the artist's role in society the artist's search for poetic and personal identities the power of poetry as fortification against the onslaughts of time and the definition of a good and humane action Charting the poet's evolution from his first book *The Green Wall* to the last collections *This Journey* Elkins discusses one major book in each chapter explicating the more important poems in detail and explaining how each volume is part of a progression from youthful imitator to mature innovator Wright's individual struggle taking place as it did in the last half of the 20th century in America dramatizes the central problems of the creative individual in a late industrial society who is trying to turn a life into art Wright worked in the great tradition of the adamant individualists in our literary heritage and like all of his formidable ancestors he refused to trust the socialized self he found attached to his soul refused to be diminished or circumscribed by any society's definition of himself The effect of reading and studying his complete work is the recognition that Wright is a major 20th century American poet whose apparent simplicity and occasional sentimentality can obscure the complexity and maturity of his courageous confrontation with the problems of living and writhing in contemporary America **The Postmoderns** Donald Allen, George

F. Butterick, 1982 This anthology includes many of the major poets to have emerged and gained pre eminence since World War II and whose writing reflects not only the significant changes in this nation s postwar history and the coming to grips with a nuclear age but also an entirely new way of looking at and structuring reality United by their postmodernist concerns with spontaneity instantism formal and syntactic flexibility and the revelation of both the creator and the process through the writing itself these 38 poets represent very diverse strains of an essential American individualism Included are many of the poets whose work first gained widespread national attention with the 1960 publication of *The New American Poetry* Charles Olson Allen Ginsberg Paul Blackburn LeRoi Jones Amiri Baraka Denise Levertov Robert Duncan and others Among the poets included here for the first time are Anne Waldman Diane di Prima Ed Sanders Jerome Rothenberg and James Koller In addition to a new preface by Allen and Butterick the book provides autobiographical notes of all the poets and listings of their major works

A Companion to Twentieth-Century Poetry Neil Roberts, 2008-04-15 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era The original contributions by leading international scholars and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite However the volume also looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century
