The Filipino Family In The Eighties:

The Filipino Family in the Eighties Stella P. Go, 1993 **Faith, Family, and Filipino American Community Life**
Stephen M. Cherry, 2014-01-03 Stephen M Cherry draws upon a rich set of ethnographic and survey data collected over a six year period to explore the roles that Catholicism and family play in shaping Filipino American community life From the planning and construction of community centers to volunteering at health fairs or protesting against abortion this book illustrates the powerful ways these forces structure and animate not only how first generation Filipino Americans think and feel about their community but how they are compelled to engage it over issues deemed important to the sanctity of the family Revealing more than intimate accounts of Filipino American lives Cherry offers a glimpse of the often hidden but vital relationship between religion and community in the lives of new immigrants and allows speculation on the broader impact of Filipino immigration on the nation The Filipino American community is the second largest immigrant community in the United States and the Philippines is the second largest source of Catholic immigration to this country This ground breaking study outlines how first generation Filipino Americans have the potential to reshape American Catholicism and are already having an impact on American civic life through the engagement of their faith *Historical Dictionary of the Philippines*
Artemio R. Guillermo, 2012 The Historical Dictionary of the Philippines Third Edition contains a chronology an introductory essay an extensive bibliography and several hundred cross referenced dictionary entries [A Christian Perspective on Family Issues](#)
Winifredo Nierras, Ph.D, J.D, The book provides a discussion about marital and family life which are filled with many challenges each with its joys difficulties hopes and often riddled with issues conflicts and problems Although sometimes their solutions are elusive the book strongly argues that strong family life with solid marriages still remains the rule rather than the exception Thus the Christian perspective in dealing with family issues is profoundly necessary to be taught to our students married couples and those who intend to get married The primary objective of the book is to offer perspectives and theories that would strengthen every family through the precepts of God and His Church [Modern Philippines](#)

Megatrends, 1998 Family Ambiguity and Domestic Violence in Asia Maznah Mohamad, Saskia E

Wieringa, 2013-06-06 This book revisits the issue of Domestic Violence DV in Asia by exploring the question of family ambiguity and interrogating DV's relationship between concept law and strategy Comparative experiences in the Asian context enable an examination of the effectiveness of family regulations and laws in diverse national cultural and religious settings Key questions relate to the limits and relevance of the human rights discourse in resolving family conflicts the extent to which power and control in intimate relationships can actually be regulated by a set of inanimate homogeneous and uniform policies and legislations and how the state relates to the family as an ambiguous unit given state rules of governance that perpetuate unequal gender relations Many of the difficulties in understanding DV have sprung from the fact that the family unit is ambiguous When the state intervenes e.g. reproductive health the family is treated as a public concern yet with respect to individual human multicultural rights the family is considered a private domain Complications and contradictions arise with regard to different legislative religious practices across Asia for example the enforcement of Sharia technocratic imperatives with regard to demographic goals of marriage and reproduction and state interference of gender imbalances and inequality The politics and culture around DV is thus a mirror of modern day Family State collusion which sustains rather than curtails discrimination based on sexuality and gender This book views gender inequality for instance in relation to heteronormativity as the fundamental basis of intimate violence rather than violence as a generic and neutral phenomenon requiring generic solutions It offers new theoretical insights to the conceptualisation of the family culture and law with respect to DV And it provides reasoned new perspectives on the effectiveness inadequacy of present policies laws and enforcement strategies against domestic violence in Asia Resilience and Familism Veronica L. Gregorio, Clarence M.

Batan, Sampson Lee Blair, 2023-08-10 A highly comprehensive ethnographic analysis Resilience and Familism demonstrates in a specifically Filipino context how strong familial ties can affect inner strength and outer determination **International**

Lineages of Modernity Emmanuel Todd, 2019-06-10 In most developed countries there is a palpable sense of confusion about the contemporary state of the world Much that was taken for granted a decade or two ago is being questioned and there is a widespread urge to try and understand how we reached our present situation and where we are heading In this major new book the leading sociologist historical anthropologist and demographer Emmanuel Todd sheds fresh light on our current predicament by reconstructing the historical dynamics of human societies from the Stone Age to the present Eschewing the tendency to attribute special causal significance to the economy Todd develops an anthropological account of history focusing on the long term dynamics of family systems and their links to religion and ideology what he sees as the slow moving unconscious level of society in contrast to the conscious level of the economy and politics He also analyses the dramatic changes brought about by the spread of education This enables him to explain the different historical trajectories of the advanced nations and the growing divergence between them a divergence that can be observed in such phenomena as the rise of the Anglosphere in the modern period the paradox of a Homo americanus who is both innovative and archaic the startling electoral success of Donald Trump the lack of realism in the will to power shown by Germany and China the emergence of stable authoritarian democracy in Russia the new introversion of Japan and the recent turbulent developments in Europe including Brexit This magisterial account of human history brings into sharp focus the massive transformations taking place in the world today and shows that these transformations have less to do with the supposedly homogenizing effects of globalization and the various reactions to it than with an ethnic diversity that is deeply rooted in the long history of human evolution
