Harm Fiona Woollard,2015-01-08 Doing harm seems much harder to justify than merely allowing harm If a boulder is rushing
towards Bob you may refuse to save Bob s life by driving your car into the path of the boulder if doing so would cost you your
own life You may not push the boulder towards Bob to save your own life This principle the Doctrine of Doing and Allowing
requires defence Does the distinction between doing and allowing fall apart under scrutiny When lives are at stake how can it
matter whether harm is done or allowed Drawing on detailed analysis of the distinction between doing and allowing Fiona
Woollard argues that the Doctrine of Doing and Allowing is best understood as a principle that protects us from harmful
imposition Such protection against imposition is necessary for morality to recognize anything as genuinely belonging to a
person even that person s own body As morality must recognize each person s body as belonging to her the Doctrine of Doing
and Allowing should be accepted Woollard defends a moderate account of our obligations to aid tackling arguments by Peter

are incompatible with self ownership **Health Risks and Fair Compensation in the Fire Service** Tee L.
Guidotti,2015-10-27 This book is an overview of the hazards of firefighting the health risks of exposure to combustion
products that characterize firefighting the science behind interpreting these risks for purposes of identifying diseases as
work related and the legal and policy implications of adopting legislated presumption for purposes of compensation The
emphasis of the book will be on the risk of cancer cardiovascular disease traumatic hazards and disabling psychosocial
adjustment following major incidents Several new studies have appeared recently including the largest study of firefighters
ever done by the National Institute of Occupational Health and Safety NIOSH They evidence supports the conclusion that
firefighters face significant occupational health risks in addition to the obviously severe safety hazards **Report of the
