Tolan,2004-07-01 Elijah a nine year old African American with unusual mental powers and a special ability to reach into the natural world becomes a hostage of a terrorist militia group and finds himself in a world of violence The Raven's Children Dan Ketchum,2025-10-31 Starship Captain Dex Varklyn in a moment of compassion buys a young girl out of a lifetime of slavery on a harsh planet He gives her a life and changes her slave number into a name Zuzu Raven Their friendship and her continual growth as a free person is filled with rescue missions reunited families and the discovery of an ancient world protected by an unusual alien race Harassed throughout by a vengeful race of slave traders their adventures culminate in a space and land battle that tests the limits of their wits and skills Even the well organized planetary coalition may be no match for the vicious slaver king on his dark throne Creative world building wholesome themes and strong relationships make this sci fi with heart a refreshing adventure for anyone to enjoy **Eyes of the Raven** Ben Levell,2016-04-06 Journey into the prophetic future into the fun exciting

world of a make believe raven who has some astonishing adventures on his way to feed Elijah The truth is incredible and sometimes dangerous **The Raven** Derek Ratcliffe, 2010-01-31 The Raven presents a summary of knowledge of its natural history describing its distribution feeding habits association with other animals and breeding The Raven is one of the most spectacular and romantic of British birds but relatively neglected in the modern literature of ornithology Derek Ratcliffe here presents a thorough summary of our knowledge of its natural history emphasizing the long association of the bird with humankind The place of the Raven in myth legend and history is long established and this book describes the bird's fall from grace as a valued scavenger in medieval cities to a persecuted outcast in the modern wilds The previous wide occurrence of Ravens is reviewed against the relationships between their present distribution status and habitat requirements as both a nesting and a non breeding resident The dependence of Ravens on carrion especially sheep within an omnivorous diet is the key to the species ecology and its social behaviour has evolved in close relation to this lifestyle The flocking and communal roosting of non breeders are major features of Raven behaviour while their nesting habits emphasise the territorial nature of breeding birds and their adaptation to secure but harsh environments Raven numbers vary in relation to their food supply local populations adjusting accordingly although the precise mechanism involved is still obscure Ravens have a considerable capacity for recolonising old haunts when suitable conditions are restored as well as exploiting new areas where the habitat becomes favourable and there are local success stories to tell Nationwide however the species position is delicately balanced and depends on both sympathetic land management practices and improving attitudes to Ravens as friends not foe Worldwide Ravens are one of the most successful of all bird groups occurring over a large part of the northern hemisphere and replaced in some southern and tropical regions by other raven species which exploit the familiar raven niche in their own environments The discussion of the northern hemisphere species is enlivened by reference to other species where useful Finally the Raven's age old reputation for high intelligence is weighed critically against the available evidence Today Ravens carry a new omen in the modern world as a barometer of goodwill to wildlife Like those in the Tower of London the continued existence of Ravens in our wild countryside will reveal something about both our current situation and our prospects for the future The text is brought to life through wonderful illustrations by Chris Rose *The Raven's Leaf* Allie Isabel Lucas, 1907
