Subcommittee on Human Resources, 1998 *Employment and Training Report of the President* United States. President, 1998 *The Adaptable Degree* Melanie Dreyer-Lude, 2024-09-20 This book utilized a mixed methods research study of the career experiences of theatre graduates in the U S to provide data on employment patterns and job satisfaction With a population of over 1 000 participants this study examined where graduates were working how their careers had changed over time which skills acquired with their theatre degree were being used in current employment and whether they believed their course of study was worth the financial investment given their current circumstances Evidence from this study revealed that a theatre degree provided many of the skills the employment market is currently seeking and that theatre graduates were gainfully employed in multiple sectors of the economy This important data based field specific information will aid chairs deans provosts politicians students and parents in decision making at a time when arts and humanities departments across the country are under the threat of elimination *Education, Skills, and Technical Change* Charles R. Hulten, Valerie A. Ramey, 2019-01-11 Over the past few decades US business and industry have been transformed by the advances and redundancies produced by the knowledge economy The workplace has changed and much of the work differs from that performed by previous generations Can human capital accumulation in the United States keep pace with the evolving demands placed on it and how can the workforce of tomorrow acquire the skills and competencies that are most in

demand Education Skills and Technical Change explores various facets of these questions and provides an overview of educational attainment in the United States and the channels through which labor force skills and education affect GDP growth Contributors to this volume focus on a range of educational and training institutions and bring new data to bear on how we understand the role of college and vocational education and the size and nature of the skills gap This work links a range of research areas such as growth accounting skill development higher education and immigration and also examines how well students are being prepared for the current and future world of work Challenging Transitions in Learning and Work ,2010-01-01 In the past two decades advanced capitalist countries have seen sustained growth in labour market participation along with a growth in the number of jobs workers tend to have in their working lives Over a slightly longer period we also see that participation in both formal educational attainment and a range of non compulsory learning training has grown However labour market discrimination based on gender age disability and race ethnicity remains a serious issue in virtually all OECD countries Challenging Transitions in Learning and Work presents a critical and expansive exploration of learning and work transitions within this context These transitions are challenging for those enmeshed in them and need to be actively challenged through the critical research reported The impetus for this volume its conceptual framing and much of the research emerges from the team of Canadian researchers who together completed case study and survey projects within the Work and Lifelong Learning WALL network The authors include leading scholars with established international reputations as well as emerging researchers with fresh perspectives This volume will appeal to researchers and policy makers internationally with an interest in educational studies and industrial sociology Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 2016 United States.
