Institutions and Ideology in Republican Rome Henriette van der Blom, Christa Gray, Catherine Steel, 2018-05-17 This volume brings together a distinguished international group of researchers to explore public speech in Republican Rome in its institutional and ideological contexts The focus throughout is on the interaction between argument speaker delivery and action The chapters consider how speeches acted alongside other factors such as the identity of the speaker his alliances the deployment of invective against opponents physical location and appearance of other members of the audience and non rhetorical threats or incentives to affect the beliefs and behaviour of the audience Together they offer a range of approaches to these issues and bring attention back to the content of public speech in Republican Rome as well as its form and occurrence The book will be of interest not only to ancient historians but also to those working on ancient oratory and to historians and political theorists working on public speech **Antike Plastik 5.0**:// Paul Scheding, Michael Remmy, 2014

Mutilation and Transformation Eric Varner, 2004-06-01 The condemnation of memory inexorably altered the visual landscape of imperial Rome Representations of bad emperors such as Caligula Nero Domitian Commodus or Elagabalus were routinely reconfigured into likenesses of victorious successors or revered predecessors Alternatively portraits could be physically attacked and mutilated or even executed in effigy From the late first century B C until the fourth century A D the recycling and destruction of images of emperors empresses and other members of the imperial family occurred on a vast scale and often marked periods of violent political transition This volume catalogues and interprets the sculptural glyptic

numismatic and epigraphic evidence for *damnatio memoriae* and ultimately reveals its praxis to be at the core of Roman cultural identity

Public Opinion and Politics in the Late Roman Republic Cristina Rosillo-López, 2017-06-01 This book investigates the working mechanisms of public opinion in Late Republican Rome as a part of informal politics. It explores the political interaction and sometimes opposition between the elite and the people through various means such as rumours, gossip, political literature, popular verses and graffiti. It also proposes the existence of a public sphere in Late Republican Rome and analyses public opinion in that time as a system of control. By applying the spatial turn to politics, it becomes possible to study sociability and informal meetings where public opinion circulated. What emerges is a wider concept of the political participation of the people, not just restricted to voting or participating in the assemblies.

Pseudoantike Skulptur II Sascha Kansteiner, 2017-01-11 Eines der Leitmotive der antiken Bildhauerkunst ist die Orientierung an Werken vergangener Epochen. Bei der Beschäftigung mit idealplastischen Skulpturen von der Hand griechischer Bildhauer, die im späten Hellenismus und in der römischen Kaiserzeit tätig gewesen sind, stellt sich daher häufig die Frage, ob die Bildhauer im Einzelfall ein berühmtes Vorbild kopiert oder aber eine klassizistische Neuschöpfung kreiert haben. Zur Beantwortung dieser Frage sind in der Forschung immer wieder Skulpturen herangezogen worden, die als antik angesehen wurden, ohne es tatsächlich zu sein. Ihnen und der Arbeitsweise der griechischen Bildhauer, die ältere Werke rezipiert haben, gilt die vorliegende Studie.

Roman Portraits Paul Zanker, 2016-11-14 Portrait sculptures are among the most vibrant records of ancient Greek and Roman culture. They represent people of all ages and social strata: revered poets and philosophers, emperors and their family members, military heroes, local dignitaries, ordinary citizens, and young children. The Metropolitan Museum of Art's distinguished collection of Greek and Roman portraits in stone and bronze is published in its entirety for the first time in this volume. Paul Zanker, a leading authority on Roman sculpture today, has brought his exceptional knowledge to the study of these portraits. In presenting them, he brings the ancient world to life for contemporary audiences. Each work is lavishly illustrated, meticulously described, and placed in its historical and cultural context. The lives and achievement of significant figures are discussed in the framework of the political, social, and practical circumstances that influenced their portraits: forms and styles from the unvarnished realism of the late Republican period to the idealizing and progressively abstract tendencies that followed. Analyses of marble portraits recarved into new likenesses after their original subjects were forgotten or officially repudiated provide especially compelling insights. Observations on fashions in hairstyling, which typically originated with the Imperial family and spread as fast as the rulers' latest portraits could be distributed, not only edify and amuse but also link the Romans' motives and appetite for imitation to our own. More than a collection catalogue, *Roman Portraits* is a thorough and multifaceted survey of ancient portraiture. Charting the evolution of this art from its origins in ancient Greece, it renews our appreciation of an connection to these imposing, timeless works.
