Sleuthing The Divine The Nexus Of Science And Spirit:

Sleuthing the Divine Kevin J. Sharpe, 2000 Well versed in and appreciative of the latest developments in physics and cosmology biology and neuroscience Sharpe provides fascinating accounts of how contemporary knowledge expands stodgy notions of reality He also queries the new scientific gurus for the substance and religious pertinence of their visions

Transpersonal Ecosophy, Vol. 1: Theory, Methods and Clinical Assessments Mark A. Schroll, 2016-01-24 The image on the cover of this book represents the idea that brain state alterations at sacred sites allow us to re experience memories that are woven into the morphogenetic fields of that place an idea that originates with Paul Devereux s empirical enquiry into dreams at sacred sites in Wales and England This books examines how this investigation provides us with a new way of understanding consciousness and a new direction toward a reconciliation of the divorce between matter and spirit We explore the work of David Lukoff and Stanislav and Christina Grof the connections between the varieties of transformative experience in dream studies ecopsychology transpersonal psychology and the anthropology of consciousness as well as the overlap between David Bohm s interpretation of quantum theory and Rupert Sheldrake s hypothesis of formative causation

Has Science Displaced the Soul? Kevin J. Sharpe, Rebecca Bryant, 2005 Religion tells us that God is love but neuroscience counters with love as a well timed trickle of transmitters and hormones With doctorates in both mathematics and theology Kevin Sharpe explores these notions and asks the question Has Science Displaced the Soul **The Cosmic Breath** Amos Yong, 2012-05-10 The interjection of pneumatology in both theologies of interreligious dialogue and in the theology and science conversation comes together in this volume The resulting Christianity Buddhism science dialogue opens up to new pneumatological perspectives on philosophical cosmology and anthropology in interdisciplinary and global context **The Oxford Handbook of Religion and Science** Philip Clayton, Zachary Simpson, 2006 The field of science and religion is exploding in popularity among both academics and the reading public This is a comprehensive and authoritative introduction to the debate written by the leading experts yet accessible to the general reader *Developing the Horizons of the Mind* K. Helmut Reich, 2010-06-24 *Developing the Horizons of the Mind* is the first book on Relational and Contextual Reasoning RCR a new theory of the human mind which powerfully addresses key areas of human conflict such as the ideological conflict between nations the conflict in close relationships and the conflict between science and religion K Helmut Reich provides a clear and accessible introduction to the new RCR way of thinking that encourages people to adopt an inclusive rather than an oppositional approach to conflict and problem solving Science of God Kevin J. Sharpe, 2006 Is theology responsible to tradition or new insight Institutional church or humanity at large Spiritual or everyday existence Revelation or scientific findings In his new book *Science of God Truth in the Age of Science* Kevin Sharpe proposes a method for doing theology which does not divorce it from the practical applications of science Not only does this work establish that theology ought to be empirical in what it says about the world and God s relationship to it but it also outlines a clear method for doing this

Science and theology can each share the same empirical method when each attempts a description of any part of reality it is relying on its own essential assumptions or lens When applied to theology the method assumes the existence of God and then seeks the nature of God using falsifiable and verifiable techniques Starting with the sciences that examine happiness particularly biology genetics psychology and social psychology Science of God seeks to understand the spiritual nature of humans and through it the nature of God Entertaining the Triune Mystery Jeffrey C. Pugh,2003-10-01 Drawing on one of Christianity's great mysteries the life of the Trinity Jeffrey Pugh seeks to bridge the gap between ancient faith traditions and scientific inquiry in part by celebrating that gap itself as God's essence Pugh uses the wisdom of Plato Irenaeus the Cappadocians Einstein and many others to prompt us to think of God's energies within the processes of creation and life as the presence of God's suffering love for the cosmos God not only nourishes the possibilities of the creation but is fully present in them both suffering with and extending hope for a world coming to be BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Race and the Cosmos** Barbara A. Holmes,2002-06-01 Argues that theoretical physics and cosmology can provide a key to overcoming race related problems explaining how they enable a means for discussing individual and communal quests for fulfillment beyond racial ethnic class and sexual barriers Original

Liberation and the Cosmos Barbara A. Holmes,2023-02-28 The rich legacy of black critical thought creative expression and religious reflection come together in these creatively imagined conversations between the elders about the shape and conditions of Black liberation Barbara A Holmes has defined key issues of freedom and identity hypothesizing a meeting of the ancestors assembled on the other side to discuss them Imagine a conversation between Barbara Jordan and Thurgood Marshall on what freedom looks like in relation to law and politics Or between Tupac Shakur Nina Simone and James Baldwin on art culture and liberation Malcolm X and Harriet Tubman discuss freedom and wholeness while Audre Lorde Fannie Lou Hamer and George Washington Carver talk about liberated bodies These imagined dialogues open up rich reflection and insight and offer a unique vantage point for understanding the luminaries of liberation down through the generations An important resource for the contemporary task of Black liberation *An Amos Yong Reader* Amos Yong,2020-05-12 Amos Yong is the most prolific pentecostal theologian to date and his published works are so many that it is difficult to find an amiable entry point into his thought *An Amos Yong Reader* is the first introduction to Yong's theology in his own words It brings into one volume representative samples of the broad range of Yong's scholarship including theology of religions religion and science theology and disability political theology Luke Acts and theological method Christopher A Stephenson perhaps Yong's most insightful interpreter provides an introductory essay that both orients readers to Yong's extensive theological program and identifies the most important key to understanding Yong's theology as his most neglected work *Spirit Word Community* a book with implications far beyond the boundaries of Pentecostalism *An Amos Yong Reader* provides an overview of Yong's thought and a starting point for more thorough study in any of the major themes in his
