Suitors and suppliants: the little nations at Versailles, introd Stephen Bonsal, *Nation, State, and Territory* George W. White, 2007-04-26 Globalization seems to be making nation states increasingly irrelevant yet their number has continued to grow in recent years New nation states emerged out of the ruins of the Soviet Union and Yugoslavia more still may come as Palestinians Kurds Chechens and other peoples struggle tenaciously to establish their own Nation State and Territory shows that national identities are as potent as ever Today many conflicts rage over places and territories of historical linguistic and religious significance Many analyses however only consider the economic and geostrategic value of territory George W White shows that national identity is intimately bound to specific places and territories Nation state and territory are mutually defining and reinforcing phenomena and through careful analysis White examines their origins evolutions and relationships to provide a better understanding of the interactions and conflicts of the world's nation states **Beyond the Arab Disease** Riad Nourallah, 2006-07-13 Presenting bold and original insights this book examines the policies and diplomacies pursued by Arab and Western governments while discussing both the political and cultural roles played by the modern Arab World It explores

the various facets of the malaise affecting the Arab world stressing the urgent call for reform and recovery as well as the need to address major issues including inter Arab affairs relations with a hegemonic USA and peace with Israel In addition the book provides new perspectives on a range of topics including Arab and Muslim diplomacy literature and culture often as these interact with Western models and paradigms in an increasingly interconnected but challenging world Employing a combination of disciplines and discourses the book aids learners and policy makers in better understanding the Arab world s successes and failures in its problematic relations with the West and modernity *Consumed by War* Richard C.

Hall,2021-05-11 Europe endured such incessant political discord throughout the twentieth century that some historians refer to the period s conflicts as the Long War During the Balkan wars of 1912 1913 regional fighting in southeastern Europe ignited conflict across the continent that continued through both world wars and the Cold War In *Consumed by War* European Conflict in the 20th Century Richard C Hall illuminates the complex diplomatic and military struggles of a region whose instability rooted in a nineteenth century nationalistic fervor provided a catalyst for the political events that ensued From the assassination of Archduke Franz Ferdinand in 1914 to the incarceration of Radovan Karadzic in 2008 this narrative history appeals to general readers and scholars interested in a fresh interpretation of a complicated and brutal era *The Russian Bureau* Linda Killen,2021-05-11 The American position on Russia during the First World War was defined by the same idealism that guided our relations with other countries Woodrow Wilson and American leaders had hailed the Revolution of March 1917 as an expression of the true spirit of Russia a harbinger of democracy The Bolshevik revolt and the civil war that followed were in their eyes only temporary disturbances Still the growth of the new democracy would only prosper if the Russians could restore order to their beleaguered land In this book Linda Killen examines a hitherto neglected instrument of American policy in Russia the Russian Bureau of the War Trade Board With support from the administration the bureau was established by Congress in October 1918 as a public corporation with a fund of 5 million to facilitate trade between Russia and America for government and business leaders thought that the Russians could be helped to resolve their problems with the income from trade The bureau was also to assist in two areas essential to trade stabilizing the currency and restoring the transportation system With the signing of the peace treaty however the bureau as a wartime agency was dissolved in June 1919 and its work assigned to the State Department As one of the first American attempts at foreign aid the bureau s program was necessarily tentative but Linda Killen shows that as a specific case the bureau offers an instructive example It reveals a widespread ignorance of Russian affairs both in government and in business circles More importantly it demonstrates the fatal weakness of an idealistic policy that was blind to political realities Perhaps the bureau s most tangible accomplishment came when its 5 million were finally transferred to the Trans Siberian Railroad to purchase new equipment Yet ironically it was the hated Bolsheviks who benefitted from this aid when they seized Siberia and used the new equipment to restore the rail line to efficient operation This detailed study of the Russian Bureau sheds new light on a turbulent and

tragic area of American diplomacy Unfortunately the democratic Russia that Wilson sought to help may never have existed except in his mind and never came to be *Land and Power* Harold I. Nelson, 2019-06-28 Originally published in 1963 this book examines the territorial settlement with Germany at the end of the First World War It approaches it from the standpoint of British official attitudes and policy in order to discover the pre Paris Peace Conference evolution of British governmental thinking on German boundary issues to bring out the relationship between British attitudes and those of their allies and to determine British influence on the drafting of the territorial provisions of the ill fated Treaty of Versailles **Catalog of Copyright Entries. New Series** Library of Congress. Copyright Office, 1947 Includes Part 1 Books Group 1 1946

This is likewise one of the factors by obtaining the soft documents of this **Suitors And Suppliants The Little Nations At Versailles** by online.
