Sound-Emotion Interaction in Poetry Reuven Tsur, Chen Gafni, 2022-06-03 This book is a collection of studies providing a unique view on two central aspects of poetry sounds and emotive qualities with emphasis on their interactions. The book addresses various theoretical and methodological issues related to topics like sound symbolism, poetic prosody and voice quality in recited poetry. The authors examine how these sound-related phenomena contribute to the generation of emotive qualities and how these qualities are perceived by readers and listeners. The book builds upon Reuven Tsur's theoretical research and supplements it from an experimental angle. It also engages in methodological debates with prevalent scientific approaches. In particular, it emphasises the importance of proper theory in empirical literary studies and the role of the personal traits of the reader in literary analysis. The intended readership of this book consists mainly of literary scholars, but it might also appeal to researchers from disciplines such as linguistics, psychology and brain science.
