Jason Kalman,2021-12-20 Despite its general absence from the Jewish liturgical cycle and its limited place in Jewish practice
the Book of Job has permeated Jewish culture over the last 2 000 years Job has not only had to endure the suffering described

in the biblical book but the efforts of countless commentators interpreters and creative rewriters whose explanations more often than not challenged the protagonist's righteousness in order to preserve Divine justice Beginning with five critical essays on the specific efforts of ancient medieval and modern Jewish writers to make sense of the biblical book this volume concludes with a detailed survey of the place of Job in the Talmud and Midrashic corpus in medieval biblical commentary in ethical mystical and philosophical tracts as well as in poetry and creative writing in a wide variety of Jewish languages from around the world from the second to sixteenth centuries

Hardness of Heart in Biblical Literature Charles B. Puskas, 2022-09-13 Every speaker teacher or preacher has on some occasion encountered an audience that was unreceptive to what he or she had to say One response to such communication breakdowns given by both the Old Testament prophets and New Testament authors was to declare that the hearers have hardened their hearts to the message or that God has hardened them What is this hardness of heart phenomenon Who became hardened and why Was it a result of some deficiency in communication What were the consequences of such a disposition Is there any hope for a change of perspective for those hardened In this concise and carefully argued volume Charles Puskas considers all the key texts relating to human obstinacy towards God in pursuit of answers to these questions

Theory and Practice in Essene Law Aryeh Amihay, 2017 This book offers a novel approach for the study of law in the Judean Desert Scrolls using the prism of legal theory Following a couple of decades of scholarly consensus withdrawing from the Essene hypothesis it proposes to revive the term and suggests employing it for the sectarian movement as a whole while considering the group that lived in Qumran as the Yahad It further proposes a new suggestion for the emergence of the Yahad based on the roles of the Examiner and the Instructor in the two major legal codes the Damascus Document and the Community Rule The understanding of Essene law is divided into concepts and practices in order to emphasize the discrepancy between creed rhetoric and practices The abstract exploration of notions such as time space obligation intention and retribution is then compared against the realities of social practices including admission initiation covenant leadership reproof and punishment The legal analysis yields several new suggestions for the study of the scrolls first Amihay proposes to rename the two strands of thought of Jewish law formerly referred to as nominalism and realism with the terms legal

essentialism and legal formalism The two laws of admission in the Community Rule are distinguished as two different laws one of an association for a group as a whole the other as an admission of an individual The law of reproof is proven to be an independent legal procedure rather than a preliminary stage of prosecution The methodological division in this study of thought and practice provides a nuanced approach for the study of law in general and religious law in particular
