Struggling with Destiny in Karimpur,

1925-1984 Susan S. Wadley, 2023-07-28 Susan Wadley first visited Karimpur the village behind mud walls made famous by William and Charlotte Wiser as a graduate student in 1967 She returned often adding her observations and experiences to the Wisers field notes from the 1920s and 1930s In this long awaited book Wadley gives us a work of unprecedented scope a portrait of an Indian village as it has changed over a sixty year period She hears of changes in agriculture labor relations education and the family But Karimpur s residents do not speak with one voice in describing the ways their lives have changed viewpoints vary considerably depending on the speaker s gender economic status and caste Using cultural

documents such as songs and stories as well as data on household budgets and farming practices Wadley examines what it means to be poor or rich female or male She demonstrates that the forms of subordination prescribed for women are paralleled by those prescribed for lower castes Villagers also speak of political struggles in India and of the importance of religion when confronting change Their stories songs and life histories reveal the rich fabric of Karimpur and show how much can be learned from listening to its people Susan Wadley first visited Karimpur the village behind mud walls made famous by William and Charlotte Wiser as a graduate student in 1967 She returned often adding her observations and experiences to the Wisers field notes from the 1920s and 1930s I **Child Labor in Sub-Saharan Africa** Loretta Elizabeth Bass, 2004

Bass s comprehensive systematic study examines the complex factors framing child labor in Africa and offers a window on the lives of the child workers themselves **Population and Development** Geoffrey Hawthorn, 2013-02-01 First published in 1978 this book explores the vital global issue of high and low fertility in poorer countries through a series of case studies by contemporary experts in the fields of development and demography These studies examine such issues as the relations between fertility rates and income distributions in poor societies the question of whether or not neo classical macro economics are sufficient to understand and to try to engineer relations between economies and populations and the specifics of the relations between fertility and a variety of socio economic factors in both South Asia and West Africa The point of the collection is to explain how very far general models can be taken and to suggest that they cannot be taken as far as those who have tended to ignore the structural complexities of and differences between various societies have implied **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *Himalayan Households* Thomas Earl Fricke, 1994 Available for the first time in English this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government s responsibility for these atrocities The large scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention in 1991 when three Korean women filed suit in a Toyko District Court stating that they had been forced into sexual servitude and demanding compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi s investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2 000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen

To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers

Population Geography Huw Roland Jones, 1990-12-15 Illustrated with a wide range of case studies drawn from all parts of the world POPULATION GEOGRAPHY clearly depicts the cause and effect links between demographic change and the socio economic transformation of societies Providing timely information in a clear and accessible style the text is an ideal classroom text for instructors who are introducing their students to the topic of population geography
