The Far Arena:

The Far Arena Richard Ben Sapis,2015-10-13 Released from the Arctic ice after two millennia a Roman gladiator contends with his haunted memories and the modern world in this marvelous novel Los Angeles Times While exploring the polar expanse for an oil company geologist Lew McCardle discovers something remarkable a body encased in the ice Even more remarkable the skills of a Russian researcher bring the man miraculously back to life This strange visitor from the distant past has an amazing story to tell With the help of a Nordic nun who translates from his native Latin Lucius Aurelius Eugenianus reveals that in the era of Domitian he was a champion in the ancient Roman Coliseum a gladiator known far and wide as the greatest of all time But now the warrior Eugeni must readjust to this new world with its bizarre customs hidden traps and geopolitical and moral complexities as he struggles to come to terms with painful memories of loves and glories lost and the bloodthirsty imperial politics and heartbreaking betrayals that ultimately led him to this time and place An ingenious amalgam of science fiction fantasy and history Richard Ben Sapis s *The Far Arena* is a breathtaking work of literary invention at once thrilling poignant and thought provoking

The Far Arena Richard Sapis,1980-01-01 *Movement Parties of the Far Right* Pietro Castelli Gattinara,Andrea L. P. Pirro,2024-11-02 In an era of traditional political party decline this book explores a new phase of nativist mobilization in which street politics plays an increasingly important role Pietro Castelli Gattinara and Andrea Pirro delve into the hybrid and transitional nature of far right movement parties i e collective actors that contest elections like political parties and mobilize in the protest arena like social movements Movement parties offer an exceptional object of study since they challenge the conventional distinction between institutional and non institutional politics Examining the production structure of ten movement parties across nine European countries the authors identify key factors that affect their engagement in protest activity They address the organizational capacity decision making processes and external mobilization of these collective actors using unique empirical material including quantitative data on far right protest mobilization spanning over a decade protest network visualizations and qualitative interviews with high ranking officials The book provides fresh insights into how the far right spreads its influence and relates to non institutional politics making it essential reading for anyone concerned about the way in which nativist collective actors transform society from the ground up A compelling study looking at the relationship between electoral politics and grassroots activism *Movement Parties of the Far Right* illuminates the complex organizational and strategic choices underlying far right mobilization

Contemporary Germany and the Fourth Wave of Far-Right Politics Manès Weisskircher,2023-09-28 This volume provides a state of the art analysis on the fourth wave of far right politics in Germany by leading scholars in the field Innovatively the book focuses not only on the role of the electoral breakthrough of AfD the Federal Republic s first ever nationally established far right party but also on the many crucial instances of non party activism such as the New Right intellectual circles PEGIDA street protest and political violence For a long time Germany was regarded as an exceptional

case because of the lack of an established far right party on the national level Times have changed but Germany still remains unique The book highlights four features that continue to make the case exceptional within Western Europe I The strong diversity of vibrant far right political players in Germany and their many interconnections II the electoral success of AfD i e the delayed electoral breakthrough of a far right party on the national level III the importance of militant democracy specifically how established players have responded to AfD and IV the relevance of the east west divide for understanding far right politics in Germany Contributions on these topics highlight the broader theoretical relevance of the analysis of the German far right connecting to many research questions that have occupied scholars also in other contexts The book is essential reading for all those with an interest in the far right German and European politics as well as in the interconnections between political parties social movements and subcultural milieus *The Soul of a Horse Blogged - the Journey Continues* Joe Camp,2010-10-04 *Intersystem EMC Analysis, Interference, and Solutions* Uri Vered,2018-05-31 This comprehensive new resource provides methods and tools for defining EMC requirements and techniques for performing predictions and calculations to achieve electromagnetic compatibility This book demonstrates how radar communications and navigation systems can function without interference EMC requirements for the device platform site and arena level are discussed and EMC detection analysis is utilized to predict EMC problems The book explores the interference between receiving and transmitting electronic systems and examines intersystem and intrasystem EMC Techniques and mathematical framework for performing EMC prediction and calculations to solve electromagnetic compatibility problems are highlighted Moreover this book presents classic methods and several original EMC calculation procedures including new approaches in mathematical development of interference probability calculations Readers learn how to anticipate problems and then define EMC solutions **The Punisher** Patricia Bernard,2014-11-08 To save the girl he loves Fish must walk into the Mighty Arena a place where heroes die screaming Branch lies bruised Weed is chained as collateral and thirty prisoners lives hang on Fish s first bout Worse the finger eating High Priestess called the Punisher has wagered her empire that the Rule Changer will fall while the glass eating Oriacan armies march ever closer to Megalopolis With traitors in the stands and prophecy on his shoulders Fish has one chance to turn an enemy coliseum into the spark of revolution Win the arena and free thirty souls Lose and a prophecy drowns in blood **The Slaves of Lomooro** Charles Nuetzel,2007-01-01 Crash landed on a savage planet of city states Lomooro three citizens of the Galactic Federation discover they must depend on one another in order to survive *The Hippodrome of Gerasa* Antoni A. Ostrasz†,2020-04-23 This book presents the study of Roman circuses and the complex fieldwork for the restoration of the Jarash Hippodrome a work in progress abruptly ended by the untimely death of Antoni A Ostrasz in 1996 It aims to provide researchers as well as restorers of ancient monuments with unparalleled insights of architectural studies for anastyloses *The Left Divided* Sara Watson,2015-08-13 Why do some countries construct strong systems of social protection while others leave workers exposed to market forces In the past three decades

scholars have developed an extensive literature theorizing how hegemonic social democratic parties working in tandem with a closely allied trade union movement constructed models of welfare capitalism. Indeed, among the most robust findings of the comparative political economy literature is the claim that the more political resources controlled by the left, the more likely a country is to have a generous universal system of social protection. *The Left Divided* takes as its starting point the curious fact that despite this conventional wisdom, very little of the world actually approximates the conditions identified by mainstream scholarship for creating universal generous welfare states. In most countries outside of northern Europe, divisions within the left, within the labor movement, among left parties as well as between left parties and a divided union movement are a defining feature of politics. *The Left Divided* in contrast focuses on the far more common and deeply consequential situation where intra-left divisions shape the development of social protection. Arguing that the strength and position taken by the far left is an important and overlooked determinant of social protection outcomes, the book presents a framework for distinguishing between different types of left movements and analyzes how the distribution of resources within the left shapes party strategies for expanding social protection in theoretically unanticipated ways. To demonstrate the counterintuitive effects of having the far left control significant political resources, Watson combines in-depth case studies of Iberia with cross-national analysis of OECD countries and qualitative comparative analyses of other divided lefts.
