The Fateful Question Of Culture The Wellek Library Lectures:

The Fateful Question of Culture Geoffrey H. Hartman, 1997 One of our most incisive critics asks where the assault against the canons of Western culture has led us Other scholars have written about literature after Auschwitz but none has brought to this dire subject Hartman's combination of knowledge thoughtfulness scope and scruple Denis Donoghue author of **CONNOISSEURS OF CHAOS**

Victorian Fetishism Peter Melville Logan, 2008-12-18 Victorian Fetishism argues that fetishism was central to the development of cultural theory in the nineteenth century From 1850 to 1900 when theories of social evolution reached their peak European intellectuals identified all primitive cultures with Primitive Fetishism a psychological form of self projection in which people believe everything in the external world thunderstorms trees stones is alive Placing themselves at the opposite extreme of cultural evolution the Victorians defined culture not by describing what culture was but by describing what it was not and what it was not was fetishism In analyses of major works by Matthew Arnold George Eliot and Edward B Tylor Peter Melville Logan demonstrates the paradoxical role of fetishism in Victorian cultural theory namely how Victorian writers projected their own assumptions about fetishism onto the realm of historical fact thereby fetishizing fetishism The book concludes by examining how fetishism became a sexual perversion as well as its place within current cultural theory

Imperfect Sympathies J. Page, 2004-09-17 Judith W Page argues that the cultural revolution of sympathy and sentiment in British literature from 1770 1830 influenced the representations of Jews and Judaism Page draws on historical materials and primary documents by and about Jews of the period as well as a variety of authors and literary genres She argues that there is a tension between the Romantic impulse to admire and sympathize with Jews and Judaism on the one hand and the traditions of anti semitism and conversionist philo Semitism on the other This often unresolved tension in the literature reflects the political and cultural struggles of the time as well as the dilemma of Romanticism which advocates sympathy but doesn't always accommodate difference

A Life Composed André Schüller, 2002 The modern literary critic T S Eliot wrote in 1929 must be an experimenter outside of what you might at first consider his own province there is no literary problem which does not lead us irresistibly to larger problems This book follows Eliot's principle and situates his literary and critical work in a wide context that reveals manifold links between aesthetics ethics politics and epistemology the historical context of early twentieth century idealism vitalism and pragmatism especially the intensely political Bergsonian controversy and the modern context of the philosophies of Charles Taylor Michel Foucault and Richard Rorty Knowledge it argues was verbalised in the modernist age individualised into the act of knowing an act with motives and goals and thus introduced into the realm of ethics a process central to twentieth century thought Eliot's poems especially constructed as a life composed a literary lifetime linking composition and composure ponder the virtue of precision the sins of pride and mental sloth the temptation of prejudice and the need for conviction Decidedly tentative Eliot's poems solve the problem of morally significant literature In a century of suspicion they ask the crucial

question of where one should start to rely **Wordsworth Translated** John Williams, 2011-11-03 British writers of the Romantic Period were popular in Germany throughout the nineteenth century and translations of Scott Burns Moore Hemans and Byron among others became widespread This study analyses the reception of William Wordsworth's poetry in 19th century Germany in relation to other romantic poets Research into Anglo German cultural relations has tended to see Wordsworth as of little or no interest to Germany but new research shows that Wordsworth was clearly of interest to German poets translators and readers and that there was significantly more knowledge of and respect for Wordsworth's poetry and interest in his ideas and beliefs than has previously been recognised Williams focuses particularly on the work of Friedrich Jacobsen Ferdinand Freiligrath and Marie Gothein who span the early middle and late years of the century respectively and establishes the wider presence of many others translating anthologising and commenting on Wordsworth poetry and beliefs

History's Disquiet Harry D. Harootunian, 2000 America's preeminent intellectual historian of modern Japan inaugurates a challenging debate on the arbitrary cultural divisions of our world and in the process sheds light on the troubling academic enterprise called area studies This is one of the first works to explore on equal footing the European and Japanese conceptions of modernity as imagined in the writings of Georg Simmel and Walter Benjamin as well as ethnologist Yanagita Kunio and Marxist philosopher Tosaka Jun *Geoffrey Hartman* Pieter Vermeulen, 2010-07-26 Geoffrey Hartman Romanticism after the Holocaust offers the first comprehensive critical account of the work of the American literary critic Geoffrey Hartman The book aims to achieve two things first it charts the whole trajectory of Hartman's career now more than half a century long while playing close attention to the place of his career in broader cultural and intellectual contexts second it engages with contemporary discussions about ecology ethics trauma the media and community in order to argue that Hartman's work presents a surprisingly consistent and original position in current debates in literary and cultural studies Vermeulen identifies a persistent belief in the potency of aesthetic mediation at the heart of Hartman's project and shows how his work repeatedly reasserts that belief in the face of institutional cultural and intellectual factors that seem to deny the singular importance of literature The book allows Hartman to emerge as a major literary thinker whose relevance extends far beyond the domains of Romanticism of literary theory and of trauma studies Hiroshima After Iraq Rosalyn Deutsche, 2010-08-06 Many on the left lament an apathy or amnesia toward recent acts of war Particularly during the George W Bush administration's invasion of Iraq opposition to war seemed to lack the heat and potency of the 1960s and 1970s giving the impression that passionate dissent was all but dead Through an analysis of three politically engaged works of art Rosalyn Deutsche argues against this melancholic attitude confirming the power of contemporary art to criticize subjectivity as well as war Deutsche selects three videos centered on the deployment of the atomic bomb Krzysztof Wodiczko's *Hiroshima Projection* 1999 made after the first Gulf War Silvia Kolbowski's *After Hiroshima mon amour* 2005 2008 and Leslie Thornton's *Let Me Count the Ways* 2004 2008 which followed the U S invasion of Iraq Each of these works confronts the ethical task of

addressing historical disaster and each explores the intersection of past and present wars These artworks profoundly contribute to the discourse of war resistance illuminating the complex dynamics of viewing and interpretation Deutsche employs feminist and psychoanalytic approaches in her study questioning both the role of totalizing images in the production of warlike subjects and the fantasies that perpetuate especially among the left traditional notions of political dissent She ultimately reveals the passive collusion between leftist critique and dominant discourse in which personal dimensions of war are denied

Knowledge, Power, and Academic Freedom Joan Wallach Scott, 2019-01-22 Academic freedom rests on a shared belief that the production of knowledge advances the common good In an era of education budget cuts wealthy donors intervening in university decisions and right wing groups threatening dissenters scholars cannot expect that those in power will value their work Can academic freedom survive in this environment and must we rearticulate what academic freedom is in order to defend it This book presents a series of essays by the renowned historian Joan Wallach Scott that explore the history and theory of free inquiry and its value today Scott considers the contradictions in the concept of academic freedom She examines the relationship between state power and higher education the differences between the First Amendment right of free speech and the guarantee of academic freedom and in response to recent campus controversies the politics of civility The book concludes with an interview conducted by Bill Moyers in which Scott discusses the personal experiences that have informed her views Academic freedom is an aspiration Scott holds its implementation always falls short of its promise but it is essential as an ideal of ethical practice *Knowledge Power and Academic Freedom* is both a nuanced reflection on the tensions within a cherished concept and a strong defense of the importance of critical scholarship to safeguard democracy against the anti intellectualism of figures from Joseph McCarthy to Donald Trump

In the Ruins of Neoliberalism Wendy Brown, 2019-07-16 Across the West hard right leaders are surging to power on platforms of ethno economic nationalism Christianity and traditional family values Is this phenomenon the end of neoliberalism or its monstrous offspring In the Ruins of Neoliberalism casts the hard right turn as animated by socioeconomically aggrieved white working and middle class populations but contoured by neoliberalism's multipronged assault on democratic values From its inception neoliberalism flirted with authoritarian liberalism as it warred against robust democracy It repelled social justice claims through appeals to market freedom and morality It sought to de democratize the state economy and society and re secure the patriarchal family In key works of the founding neoliberal intellectuals Wendy Brown traces the ambition to replace democratic orders with ones disciplined by markets and traditional morality and democratic states with technocratic ones Yet plutocracy white supremacy politicized mass affect indifference to truth and extreme social disinhibition were no part of the neoliberal vision Brown theorizes their unintentional spurring by neoliberal reason from its attack on the value of society and its fetish of individual freedom to its legitimation of inequality Above all she argues neoliberalism's intensification of nihilism coupled with its accidental wounding of white male supremacy generates an apocalyptic populism willing to

destroy the world rather than endure a future in which this supremacy disappears
