The Fenians In Context Irish Politics And Society 1848 82:

The Fenians in Context R. V. Comerford, 1998 This text provides the context for Fenianism and a perspective on the social and political history of mid Victorian Ireland The Fenian movement of the mid 19th century is one of the central elements in the story of Irish nationalism It was a decisive factor in the land war of the late 1870s early 1880s and in the evolution of Parnell s political career It became a leading theme of the Anglo Irish literary revival and it has continued to exert its influence on Irish republicanism in the 20th century

The Fenians in Context R. V. Comerford, 1985 **Politics and the Irish Working Class, 1830-1945** Donal Ó Drisceoil, F. Lane, 2005-09-30 This book is the first ever collection of scholarly essays on the history of the Irish working class It provides a comprehensive introduction to the involvement of Irish workers in political life and movements between 1830 and 1945 Fourteen leading Irish and international historians and political scientists trace the politicization of Irish workers during a period of considerable social and political turmoil The contributions include both surveys covering the entire period and case studies that provide new perspectives on crucial historical movements and moments This volume is a milestone in Irish labour and political historiography and an important contribution to the international literature on politics and the working class

Ribbon Societies in Nineteenth-century Ireland and Its Diaspora Kyle Hughes (Lecturer in British history), Donald M. MacRaild, 2018 This is the first full length study of Irish Ribbonism tracing the development of the movement from its origins in the Defender movement of the 1790s to the latter part of the century when the remnants of the Ribbon tradition found solace in a new movement the quasi constitutional affinities of the Ancient Order of Hibernians Placing Ribbonism firmly within Ireland s long tradition of collective action and protest this book shows that owing to its diversity and adaptability it shared similarities but also stood apart from the many rural redresser groups of the period and showed remarkable longevity not matched by its contemporaries The book describes the wider context of Catholic struggles for improved standing explores traditions and networks for association and it describes external impressions Drawing on rich archives in the form of state surveillance records show trial proceedings and press reportage the book shows that Ribbonism was a sophisticated and durable underground network drawing together various strands of the rural and urban Catholic populace in Ireland and Britain **Ribbon Societies in Nineteenth Century Ireland and its Diaspora** is a fascinating study that demonstrates Ribbonism operated more widely than previous studies have revealed

Terrorism and Modern Literature Alex Houen, 2002-09-12 Is terrorism s violence essentially symbolic Does it impact on culture primarily through the media What kinds of performative effect do the various discourses surrounding terrorism have Such questions have not only become increasingly important in terrorism studies they have also been concerns for many literary writers This book is the first extensive study of modern literature s engagement with terrorism Ranging from the 1880s to the 1980s the terrorism examined is as diverse as the literary writings on it chapters include discussions of Joseph Conrad s novels on Anarchism and Russian Nihilism Wyndham Lewis s avant

garde responses to Syndicalism and the militant Suffragettes Ezra Pound's poetic entanglement with Segregationist violence Walter Abish's fictions about West German urban guerrillas and Seamus Heaney's and Ciaran Carson's poems on the Troubles in Northern Ireland In each instance Alex Houen explores how the literary writer figures clashes or collusions between terrorist violence and discursive performativity What is revealed is that writing on terrorism has frequently involved refiguring the force of literature itself In terrorism studies the cultural impact of terrorism has often been accounted for with rigid structural theories of its discursive roots But what about the performative effects of violence on discourse Addressing the issue of this mutual contagion *Terrorism and Modern Literature* shows that the mediation and effects of terrorism have been historically variable Referring to a variety of sources in addition to the literature newspaper and journal articles legislation letters manifestos the book shows how terrorism and the literature on it have been embroiled in wider cultural fields The result is not just a timely intervention in debates about terrorism's performativity Drawing on literary critical theory and philosophy it is also a major contribution to debates about the historical and political dimensions of modernist and postmodernist literary practices

The Crimean War and Irish Society Paul Huddie, 2015 This book is a home front study of Ireland during the Crimean War which analyses how the various strands of Irish society responded to the conflict's events issues and impacts and how they memorialised it as part of the British Empire

Passionate Politics Jeff Goodwin, James M. Jasper, Francesca Polletta, 2009-03-09 Emotions are back Once at the center of the study of politics emotions have receded into the shadows during the past three decades with no place in the rationalistic structural and organizational models that dominate academic political analysis With this new collection of essays Jeff Goodwin James M Jasper and Francesca Polletta reverse this trend reincorporating emotions such as anger indignation fear disgust joy and love into research on politics and social protest The tools of cultural analysis are especially useful for probing the role of emotions in politics the editors and contributors to *Passionate Politics* argue Moral outrage the shame of spoiled collective identities or the joy of imagining a new and better society are not automatic responses to events Rather they are related to moral institutions felt obligations and rights and information about expected effects all of which are culturally and historically variable With its look at the history of emotions in social thought examination of the internal dynamics of protest groups and exploration of the emotional dynamics that arise from interactions and conflicts among political factions and individuals *Passionate Politics* will lead the way toward an overdue reconsideration of the role of emotions in social movements and politics generally Contributors Rebecca Anne Allahyari Edwin Amenta Collin Barker Mabel Berezin Craig Calhoun Randall Collins Frank Dobbin Jeff Goodwin Deborah B Gould Julian McAllister Groves James M Jasper Anne Kane Theodore D Kemper Sharon Erickson Nepstad Steven Pfaff Francesca Polletta Christian Smith Arlene Stein Nancy Whittier Elisabeth Jean Wood Michael P Young
