the 1940s but she was also an inventor and not just any inventor Hedy Lamarr's work with radio frequencies is credited with paving the way for Wi-Fi. It seems that the greatest bomb that this bombshell dropped would only fully explode until the last years of her life because when Lamarr passed away in the year 2000 the computing world was just then mainstreaming many of her ideas. Sadly as amazing as her early career was in later life Lamarr became reclusive and had very limited contact with the outside world. It is perhaps ironic that it was the ideas of this recluse that would bring so many people together in the modern world of interconnectedness.
