

Geography

Geography is the study of the Earth and its features. It includes the study of the physical features of the Earth, such as mountains, rivers, and oceans, and the human features of the Earth, such as cities, roads, and agriculture. Geography is a multidisciplinary field that draws on knowledge from other fields, such as history, biology, and chemistry, to understand the Earth and its environment. Geography is also a practical field that helps us to understand the world around us and to make better decisions about how we live and work.
