The Gulf War Did Not Happen Politics Culture And Warfare Postvietnam:

The Gulf War Did Not Happen Jeffrey Walsh, 1995 This is an interdisciplinary collection of essays which studies the complex relationship between the historical Gulf war of 1990 1991 and those myths narratives and images commonly drawn on to explain it A linking theme through the volume is the shadow of Vietnam how the Gulf war was perhaps the culminating event in what has come to be known as the Vietnam syndrome *Gender and warfare in the twentieth century* Angela K. Smith, 2018-02-28 *Gender and warfare in the twentieth century* is a collection of exciting accessible and very readable essays that span the twentieth century exploring the ways in which men and women have both represented warfare and represented themselves as participants in warfare A range of contributors from different disciplines explore these representations by examining a wide variety of sources fiction film personal diaries memoirs non fiction letters oral testimonies and more The collection ranges from the trenches of the Western Front through the shell shocked inter war years the civil war in Spain and the disparate battle fronts of World War Two to the complexities of Vietnam and the late century Hollywood workings and re workings of these conflicts The focus on gendered readings provides a thread that binds these essays together to create a comprehensive and interesting picture of the legacy of twentieth century warfare at the beginning of the new millennium

Rethinking Geopolitics Simon Dalby, Gearoid O. u Tuathail, 2002-01-22 *Rethinking Geopolitics* argues that the concept of geopolitics needs to be conceptualised anew as the twenty first century approaches Challenging conventional geopolitical assumptions contributors explore theories of post modern geopolitics historical formulations of states and cold wars the geopolitics of the Holocaust the gendered dimension of Kurdish insurgency the cold war world political cartoons concerning Bosnia Time magazine representations of the Persian Gulf the Zapatistas and the Chiapas revolt the new cyber politics conflict simulations in the US military the emergence of a new geopolitics of global security Exploring how popular cultural assumptions about geography and politics constitute the discourses of contemporary violence and political economy *Rethinking Geopolitics* shows that we must rethink the struggle for knowledge space and power Media, War and Postmodernity Philip Hammond, 2007-10-10 *Media War and Postmodernity* investigates how conflict and international intervention have changed since the end of the Cold War asking why Western military operations are now conducted as high tech media spectacles apparently more important for their propaganda value than for any strategic aims Discussing the humanitarian interventions of the 1990s and the War on Terror the book analyzes the rise of a postmodern sensibility in domestic and international politics and explores how the projection of power abroad is undermined by a lack of cohesion and purpose at home Drawing together debates from a variety of disciplinary and theoretical perspectives Philip Hammond argues that contemporary warfare may be understood as postmodern in that it is driven by the collapse of grand narratives in Western societies and constitutes an attempt to recapture a sense of purpose and meaning **Feminist Cultural Studies of Science and Technology** Maureen McNeil, 2008-01-15 *Feminist Cultural Studies of Science and Technology* challenges

the assumption that science is simply what scientists do say or write it shows the multiple and dispersed makings of science and technology in everyday life and popular culture This first major guide and review of the new field of feminist cultural studies of science and technology provides readers with an accessible introduction to its theories and methods Documenting and analyzing the recent explosion of research which has appeared under the rubric of cultural studies of science and technology it examines the distinctive features of the cultural turn in science studies and traces the contribution feminist scholarship has made to this development Interrogating the theoretical and methodological features it evaluates the significance of this distinctive body of research in the context of concern about public attitudes to science and contentious debates about public understanding of and engagement with science

War in the Age of Technology Geoffrey Jensen, Andrew Wiest, 2001-04 Considering the relationships between war technology and modern society this book fuses military and social history concerning the use of organized violence between states during the period since 1789 Thirteen essays look at the military use of technology on and off the battlefield the introduction of total war during the two world wars and the possibility of limited war in the nuclear age The experiences of the British military are emphasized Contributors include historians archivists psychologists and military scholars c Book News Inc

The Media at War Susan Carruthers, 2011-02-15 News media movies blogs and video games issue constant invitations to picture war experience the thrill of combat and revisit battles past War it s often said sells But what does it take to sell a war and to what extent can news media be viewed as disinterested reporters of truth Lively and highly readable this book explores how wars have been reported interpreted and perpetuated from the dawn of the media age to the present digital era Spanning a broad geographical and historical canvas Susan L Carruthers provides a compelling analysis of the forces that shape the production of news and images of war from state censorship to more subtle forms of military manipulation and popular pressure This fully revised second edition has been updated to cover modern day conflict in the post 9 11 epoch including the wars in Iraq and Afghanistan Rich in historical detail The Media at War also provides sharp insights into contemporary experience prompting critical reflection on western society s paradoxical attitudes towards war

Propaganda, the Press and Conflict David R. Willcox, 2005-09-19 An incisive analysis of the use of the press for propaganda purposes during conflicts using the first Gulf War and the intervention in Kosovo as case studies As the contemporary analysis of propaganda during conflict has tended to focus considerably upon visual and instant media coverage this book redresses the imbalance and contributes to the growing discourse on the role of the press in modern warfare Through an innovative comparative analysis of press treatment of the two conflicts it reveals the existence of five consistent propaganda themes portrayal of the leader figure portrayal of the enemy military threat threat to international stability and technological warfare As these themes construct a fluid model for the analysis and understanding of propaganda content in the press during conflicts involving British forces they also provide the background against which the author can discuss general issues regarding propaganda

Amongst the issues which have become increasingly relevant to both recent academic debate and popular culture the author tackles the role of the journalist in war coverage the place of the press in a news market dominated by instant visual media and the effectiveness of propaganda in specific cultural and political context This book will appeal to advanced students and researchers in war studies media studies propaganda and psychology

Intelligence and International Security Len

Scott,R. Gerald Hughes,Martin Alexander,2013-10-31 The events of 9 11 and subsequent acts of jihadist terrorism together with the failures of intelligence agencies over Iraq s Weapons of Mass Destruction have arguably heralded a new age of intelligence For some this takes the form of a crisis of legitimacy For others the threat of cataclysmic terrorism involving chemical biological radiological or nuclear attack gives added poignancy to the academic contention that intelligence failure is inevitable Many of the challenges facing intelligence appear to be both new and deeply worrying In response intelligence has clearly taken on new forms and new agendas How these various developments are viewed depends upon the historical normative and political frameworks in which they are analysed This book addresses fundamental questions arising in this new age The central aim of the collection is to identify key issues and questions and subject them to interrogation from different methodological perspectives using internationally acclaimed experts in the field A key focus in the collection is on British and North American perspectives Recent trends and debates about the organisation and conduct of intelligence provide key themes for exploration Underpinning several contributions is the recognition that intelligence faces a conflict of ideas as much as practices and threats This book was published as a special issue of Intelligence and National Security

US Intervention Policy and Army Innovation Richard Lock-Pullan,2004-08-02 This book examines how the US Army

rebuilt itself after the Vietnam War and how this has effected US intervention policy after the Cold War

Body Horror

John Taylor,1998-09 What compels us to look at shocking photographs or alternatively to look away Should the media use disturbing images to inform at the risk of offending How is our sense of politics morality and culture affected when we are exposed to gruesome images of accidents and disasters murder and execution grief and death In Body Horror John Taylor addresses these questions by examining how the media presents unsettling pictures especially those of dead and injured foreigners Drawing on recent experiences in the Gulf Bosnia and Rwanda Taylor argues that documentary photography for all the horror it reproduces ultimately defines a democracy Fully aware of the voyeuristic aspects of photojournalism Taylor probes the difficulty of applying moral imperatives when separating the utility of showing images of suffering and violence from the risk of either insulting or gratifying public sensibilities A compelling documentary of photography s cultural and political power Body Horror analyzes the moral responsibility attached to publishing and bearing witness to photographs of violence and the historical amnesia that arises when such imagery remains unseen

Violence And The Media Carter,

Cynthia,2003-01-01 Why is there so much violence portrayed in the media What meanings are attached to representations of violence in the media Can media violence encourage violent behaviour and desensitize audiences to real violence Does the

everydayness of media violence lead to the normalization of violence in society Violence and the Media is a lively and indispensable introduction to current thinking about media violence and its potential influence on audiences Adopting a fresh perspective on the media effects debate Carter and Weaver engage with a host of pressing issues around violence in different media contexts including news film television pornography advertising and cyberspace The book offers a compelling argument that the daily repetition of media violence helps to normalize and legitimize the acts being portrayed Most crucially the influence of media violence needs to be understood in relation to the structural inequalities of everyday life Using a wide range of examples of media violence primarily drawn from the American and British media to illustrate these points Violence and the Media is a distinctive and revealing exploration of one of the most important and controversial subjects in cultural and media studies today

Ethnicity and Nationalism Thomas Hylland Eriksen, 2002-07-20 New expanded edition of a classic anthropology title that examines ethnicity as a dynamic and shifting aspect of social relations

notions that exist about war reporters and participate in their further construction With its cultural approach this book complements studies of war correspondents in media and communication studies history and ethnology **War and the Media** Philip M. Taylor, 1998-10-15 The Gulf War of 1991 was the highest profile media war in history Never before had so many journalists attempted to cover a war from both sides of the conflict This book traces the role of the media in the Gulf War and examines the attempts by both the coalition and Iraq to influence public opinion through propaganda and persuasion Philip Taylor asks how much the public was being told and how much was held back Analyzing the key news stories of the conflict he looks at the efforts of the American led coalition to persuade television audiences and newspaper readers to take a right view of what was happening and of the Iraqi government's propaganda campaigns concerning civilian damage and the Mother of all Battles **Journal of International Affairs**, 1995 *Die USA und ihre Bösen* Stefan Butter, 2019-12-10 Spielfilme sind nicht nur ein populäres Unterhaltungsmedium sie transportieren auch Konzepte und Werte der Gesellschaften in denen sie produziert werden Dazu gehören nicht zuletzt Vorstellungen vom Bösen Feindbilder ohne die keine Kultur auskommt Die Geschichtswissenschaft hat dem bislang nur wenig Aufmerksamkeit geschenkt In der ersten umfassenden Studie zu diesem Thema untersucht Stefan Butter den Feindbildwandel in den USA in jenen Jahrzehnten in denen der Kalte Krieg zu Ende ging und der Krieg gegen den Terror begann und damit entscheidende Weichen für die Welt gestellt wurden in der wir heute leben
