The Hero Bloomfield:

Refiguring the Hero Dian Fox, 2010-11-01 Virtues and Passions in Literature Anna-Teresa Tymieniecka, 2007-11-10

The Human Condition prompts our creative strivings beyond the natural round of life toward outstanding achievements This book explains how the emergence of Human Condition lifts natural endowment of the individual to the level of excellence It shows how natural forces and promptings of life transmute through creative Human Condition subliminal passions of the soul into innumerable streaks of spiritual significance Psychological Constructs and the Craft of African Fiction of Yesteryears Linus Tongwo Asong, 2012 The novel remains the most popular genre in the African literary landscape In the very large body of criticism that has been devoted to the craft of African fiction this very stimulating study of six African novels will hold its own distinctive place for a long while It brings to African critical thought not only an exceptional acumen of interpretation and analysis but something much more important to most of the previous serious literary study than mere technical dissection a keen sense of the experience and imaginative truth that make Asong's selected African texts living books as well as authentic record of human and moral values Many of Asong's perceptions are not only critically shrewd but humanly searching alert to aesthetic quality and invention No one interested in creative criticism of African fiction will read this book without finding its approach a challenge to his or her own reading of African fiction and a stimulus to understanding the growth and enduring richness of the best of the African novel The book balances nicely in its choice of three texts in English and three in French the two dominant colonial languages in Africa South of the Sahara Even more interesting is the fact that although all the French texts have been translated into English Asong opts to treat the three in the original language in which they were conceived and executed a decision which keeps the reader as close as possible to the original idiom

Low, 2016-04-30 As cultural practice the early modern

duel both indicated and shaped the gender assumptions of wealthy young men it served in fact as a nexus for different often competing notions of masculinity As Jennifer Low illustrates by examining the aggression inherent in single combat masculinity could be understood in spatial terms social terms or developmental terms Low considers each category developing a corrective to recent analyses of gender in early modern culture by scrutinizing the relationship between social rank and the understanding of masculinity Reading a variety of documents including fencing manuals and anti dueling tracts as well as plays by Shakespeare Jonson Middleton and other dramatists Low demonstrates the interaction between the duel as practice as stage device and as locus of early modern cultural debate Myths, Legends, and Heroes John

Murdoch,1996-07-01 In this study the author looks at the role the warrior hero plays within a set of predetermined political and social constraints The hero if not a sword wielding barbarian bent only upon establishing his own fame such fame seekers including some famous medieval literary figures might even fall outside the definition of the Germanic hero the real value of whose deeds are given meaning only within the political construct Individual prowess is not enough The hero must

conquer the blows of fate because he is committed to the conquest of chaos and over all to the need for social stability Even the warrior hero's concern with his reputation is usually expressed negatively that the wrong songs are not sung about him The author discusses works in Old English Old and Middle High German Old Norse Latin and Old French deliberately going beyond what is normally thought of as heroic poetry to include the German so called minstrel epic and a work by a writer who is normally classified as a late medieval chivalric poet Konrad von Wurzburg the comparison of which with Beowulf allows us to span half a millennium

The Provincials, a Country Tale, Dedicated to the Intelligent Reader in Town and Country. By the Author of The Ramsay Family, 1818

Chaucer and the Early Writings of Boccaccio David Wallace, 1985 David Wallace's examination of the aims and literary affiliations of Boccaccio's early writings provides an indispensable preface to and context for an informed appraisal of Chaucer's usage of Boccaccio Previous studies of the relationship between the work

of the two poets have tended to consider Chaucer's borrowings without making a thorough study of the traditions which shaped the Italian writer's work Wallace argues that Boccaccio was not primarily concerned with winning recognition at the Angevin court but was chiefly concerned with fashioning an identity for himself as an illustrious vernacular author Chaucer recognised that both the *Filostrato* and *Teseida* derived their basic narrative capabilities from popular tradition analogous to that of the English tail rhyme romance Following a detailed analysis of Chaucer's translation practice in *Troilus and Criseyde* Wallace concludes that it was Boccaccio's attempt to develop a narrative art occupying the middle ground between popular and illustrious domestic and European traditions that Chaucer found so uniquely congenial and instructive **Tracking**
