The Hidden Language Of Your Handwriting:

The Hidden Language of Your Handwriting James Greene, David Lewis, 1980 Training the Translator Paul Kussmaul, 1995-01-01 This book begins by investigating through the use of think aloud protocols the mental processes of students when they translate The creative and successful processes observed can be used directly for teaching purposes while the unsuccessful ones can serve to find out where remedial training is needed The book then goes on to discuss methods for improving a translator's competence The strategies offered are based on the pragmatic and semantic analysis of texts from a functional point of view and they include such practical matters as the use of dictionaries and the evaluation of translations and error analysis The book is intended for teachers in translator training institutions but it can also be used by students for self training

Evaluating the Evaluator Hansjörg Bittner, 2019-11-28 This book offers a theoretical framework for assessing translation quality grounded in supportive argumentation The volume outlines a systematic framework for translators and translation critics to substantiate their decisions and judgments on a translation's quality and in the case of negative criticism put forward a more effective translation solution The book traces the decision making process underpinning translation practice considering the different factors surrounding a particular translation to inform the most appropriate translation strategy such as the temporal and

geographical relationship between source and target texts special provisions required by clients timeframe qualifications and sociocultural and political issues The framework posits that such factors should underpin any arguments used by the translator in adopting a given strategy and in turn that any criticism of a translation's quality must be in line with the same argumentative structure Applied to a corpus of translation examiners reports of translation the book demonstrates how this framework can act as a tool to be scaled to fit the needs of the different actors of a translation translators critics and scholars This book will be of interest to scholars in translation studies and practicing translators
