Research Rumors of Indiscretion explores how a college senior's psychology class project a seemingly innocuous questionnaire could cause a statewide uproar that attracted national attention The questionnaire quickly brought to the notice of the University of Missouri's dean of women soon found its way into the university president's office the local media and even the Missouri legislature Many people never having read the questionnaire were forced to rely on rumors or excerpts in the newspapers about what it actually contained Yet a cry arose for the expulsion of the students and professors responsible for this as one headline labeled it filthy questionnaire The controversy surrounding the questionnaire drew lines between young and old with the rising generation challenging the Victorian ideas of those who were frightened by this coming of age of America during the Jazz Age Nelson brings out the historical significance of this episode by placing it into two contexts the history of the University of Missouri and the culture war in America during the 1920s He argues that the 1920s were a time of continuity as well as change in Missouri and the United States What was actually lost was Victorianism and its mandate for an orderly culture in which each member had a sharply defined role violations of which carried societal consequences The youth of this time rebelled against the constraints of such a society Many sought change but few were what would later be called radicals Nelson uses the University of Missouri episode to demonstrate that while Victorianism's unrealistic notions were lost tradition

controversies based on an analysis of the underlying intellectual struggle to come to terms with Darwin The middle section of the book distinguishes the Darwinism of Darwin himself amid the main currents of post Darwinian evolutionary thought and is followed by chapters which examine the responses to Darwin of twenty eight Christian controversialists tracing the philosophical and theological lineage of their views The paradox that emerges that Darwin s theory was accepted in substance only by those whose theology was distinctly orthodox theology and of other evolutionary theories with liberal and romantic theological speculation
