Alessandro Laureani, Jiju Antony, 2021-06-08 *Leading Lean Six Sigma Research on Leadership for Operational Excellence* Deployment assesses the impact of organizational leadership on the deployment of Lean Six Sigma in organisations This book details what leadership traits are needed for a successful deployment presenting a ground-breaking leadership dependency model

Continuous Process Improvement in Organizations Large and Small Robert E. Hamm, Jr., 2015-11-13 Our world changes faster today than at any time in the history of mankind Organizations like living breathing organisms must learn to adapt to changes in the environment in which each operates It is generally held today by those who study organizations that

those who fail to adapt to seemingly unending change are certainly doomed but those able to adapt to constant change tend to thrive The purpose of this book is to describe the leadership required to successfully implement continuous process improvement in organizations The author begins the journey with a discussion of organizational culture as he sets out to describe how leaders develop a culture where continuous improvement can thrive The challenges of organizational change faced by all leaders who strive to take advantage of the benefits of continuous process improvement is discussed as well as what leaders must do to make change stick The goal is to provide a description of the leadership necessary to make continuous process improvement a reality in any organization

A Six Sigma Approach to Sustainability Holly A.

Duckworth,Andrea Hoffmeier,2016-02-22 In an age when most business plans extend only to the next quarterly reporting period the authors of this book propose an audaciously longer view of future planning Reaching beyond the modern five or ten year strategic plan the authors take a cue from Kongo Gumi a Japanese construction company launched in 578 AD that managed to thrive as a fami

Research Methods and Statistics in Physical Education Armel Dawson,2019-03-06

One of the most essential problems that is frequently overlooked is that of planning the daily program for each class This should be done carefully It is only the novice who needs to write out in detail the various aspects of the lesson to be taught although capable experienced teachers can usually profit by jotting down a few brief notes or key words as they think through the coming lesson Research is a careful systematic and objective investigation conducted to obtain valid facts draw conclusions and establish principles regarding an identifiable problem in some field of knowledge The present book discusses all the aspects of methodology of research in the field of physical education and sports sciences Hopefully the present book will be useful for the students teachers of physical education and sports layperson researchers prospective coaches etc in many ways

Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences

and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment

Enterprise Contract Management Anuj Saxena, 2008-02-15 Globalization increased economic and geopolitical uncertainty technological advancements and a rise in the number of regulations and legislations have led to a significant rise in the importance volume and complexity of modern contractual agreements Yet in spite of these profound changes many organizations still manage the contracting process in a fragmented manual and ad hoc manner resulting in poor contract visibility ineffective monitoring and management of contract compliance and inadequate analysis of contract performance The net effect of this has been a heightened interest in re engineering and automation of Enterprise Contract Management ECM processes across industry sectors and geographies

Enterprise Contract Management A Practical Guide to Successfully Implementing an ECM Solution addresses all the questions surrounding ECM ECM solutions and the project management change management and risk management considerations to ensure its successful implementation This concise text will help your organization manage the challenges of the contract life cycle and the key success factors and pitfalls in a typical ECM solution It is a must read for corporate executives buyers procurement and strategic sourcing specialists contract administrators and procurement managers There is currently no other book available on ECM solutions All existing books on contract management focus on the legal aspects of contracts but none describe the functions features capabilities of technology solutions that support ECM nor do they explain the key considerations for ensuring a successful ECM solution implementation
