Olson, 1999-12-30 Few eras in U S history have begun with more optimistic promise and ended in more pessimistic despair than the 1960s When JFK became president in 1960 the U S was the hope of the world Ten years later American power abroad seemed wasted in the jungles of Indochina and critics at home cast doubt on whether the U S was really the land of the free and the home of the brave This book takes an encyclopedic look at the decade at the individuals who shaped the era the civil rights movement the antiwar movement the women s movement and the youth rebellion It covers the political military social cultural religious economic and diplomatic topics that made the 1960s a unique decade in U S history

*Chinese America: History and Perspectives 1990 ,*

**Cosby** Ronald L. Smith, 1993 This work is about strategies American companies should use when doing business with China It demonstrates the benefits of co operation such as the path breaking 2005 deal between IBM s consumer computer division and China s Legend resulting in the creation of China s Lenovo Computer Company The authors review other examples of US Chinese joint ventures and present new strategies for how American and Chinese firms can work together in areas and ways that are presently untapped Chinese companies are moving into position now to quickly emerge as giant multinationals that displace or acquire Fortune 1000 companies sooner than many anticipate That is why this is such an important and compelling work that will become a must read for corporate executives concerned about their existing and

future business in China A western company without a carefully laid out China Strategy will find it increasingly difficult to remain profitable in other markets And the China Strategies of most American companies have not been as successful as China s Strategy of dealing with its competitors So how can a foreign company profit from China s emerging global economic dominance Western companies and governments that focus on strategies that fulfil the needs of China and Chinese trading partners will have advantages over their competitors who do not This controversial book reveals the key fallacies American political and business leaders face in the relationship between American and Chinese styles of capitalism and government Collaborating profitably with emerging giant global Chinese corporations may be a more rewarding strategy than ignoring them or trying to compete with them This title s new win win strategic approach is the only alternative to America and China remaining competitors and slipping into trade war Cold War armed conflict and ecological catastrophe These related books provide the urgently needed new perspectives and blueprints necessary to build the global strategic partnerships and shared prosperity between American and Chinese companies

**A Conservative History of the American Left** Daniel J. Flynn,2008-04-29 From Communes to the Clintons Why does Hillary Clinton crusade for government provided health care for every American for the redistribution of wealth and for child rearing to become a collective obligation Why does Al Gore say that it s okay to over represent the dangers of global warming in order to sell Americans on his draconian solutions Why does Michael Moore call religion a device to manipulate gullible Americans Where did these radical ideas come from And how did they enter the mainstream discourse In this groundbreaking and compelling new book Daniel J Flynn uncovers the surprising origins of today s Left The first work of its kind A Conservative History of the American Left tells the story of this remarkably resilient extreme movement one that came to America s shores with the earliest settlers Flynn reveals a history that leftists themselves ignore whitewash or obscure Partly the Left s amnesia is convenient Who wouldn t want to forget an ugly history that includes eugenics racism violence and sheer quackery Partly it is self aggrandizing Bold schemes sound much more

innovative when you refuse to acknowledge that they have been tried and have failed many times before And partly it is unavoidable The Left is so preoccupied with its triumphal future that it doesn't pause to learn from its past mistakes So it goes that would be revolutionaries have repeatedly failed to recognize the one troubling obstacle to their grandiose visions reality In unfolding this history Flynn presents a page turning narrative filled with colorful fascinating characters progressives and populists radicals and reformers socialists and SDSers and leftists of every other stripe There is the rags to riches Welsh industrialist who brought his utopian vision to America one in which private property religion and marriage represented the most monstrous evils and gained audiences with the likes of Thomas Jefferson John Adams and James Madison There is the wife swapping Bible thumper who nominated Jesus Christ for president There is the playboy adventurer whose worshipful accounts of Soviet Russia lured many American liberals to Communism There is the daughter of privilege turned violent antiwar activist who lost her life to a bomb she had intended to use against American soldiers There are fanatics and free spirits perverts and puritans entrepreneurs and altruists and many more beyond A Conservative History of the American Left is a gripping chronicle of the radical visionaries who have relentlessly pursued their lofty ambitions to remake society Ultimately Flynn shows the destructiveness that comes from this undying pursuit of dreams that are utterly unattainable
