Ausgabe zur bislang umfangreichsten Fassung des renommierten Fachbuchs geworden

The Routledge Handbook of the Bioarchaeology of Human Conflict Christopher Knüsel, Martin Smith, 2013-12-17 If human burials were our only window onto the past what story would they tell Skeletal injuries constitute the most direct and unambiguous evidence for violence in the past Whereas weapons or defenses may simply be statements of prestige or status and written sources are characteristically biased and incomplete human remains offer clear and unequivocal evidence of physical aggression reaching as far back as we have burials to examine Warfare is often described as senseless and as having no place in society Consequently its place in social relations and societal change remains obscure The studies in The Routledge Handbook of the Bioarchaeology of Human Conflict present an overview of the nature and development of human conflict from prehistory to recent times as evidenced by the remains of past people themselves in order to explore the social contexts in which such injuries were inflicted A broadly chronological approach is taken from prehistory through to recent conflicts however this book is not simply a catalogue of injuries illustrating weapon development or a narrative detailing progress in warfare but rather provides a framework in which to explore both continuity and change based on a range of important themes which hold continuing relevance throughout human development

Rutherford's Vascular Surgery and Endovascular Therapy, 2-Volume Set, E-Book Anton N. Sidawy, Bruce A. Perler, 2022-06-04 Encyclopedic definitive and state of the art in the field of vascular disease and its medical surgical and interventional management Rutherford's Vascular Surgery and Endovascular Therapy offers authoritative guidance from the most respected and innovative global thought leaders and clinical and basic science experts of our time The thoroughly revised 10th Edition published in association with the Society for Vascular Surgery and authored by multidisciplinary and
