metaphysics of neoliberalism that reproduces and fortifies the self contradictions rampant in the current neoliberal hegemony While helping us to gain a comprehensive understanding of the tenets of the eerie ills of our epoch the critique of the new materialisms can furthermore inspire us to appreciate how the exact inversion of the new materialist complex amounts to a revitalization of the modern project A revitalization that is critical to think our epoch differently **In Their Own Words** Fred Erisman,2021-01-15 Amelia Earhart s prominence in American aviation during the 1930s obscures a crucial point she was but one of a closely knit community of women pilots Although the women were well known in the profession and widely publicized in the press at the time they are largely overlooked today Like Earhart they wrote extensively about aviation and women s causes producing an absorbing record of the life of women fliers during the emergence and peak of the Golden Age of Aviation 1925 1940 Earhart and her contemporaries however were only the most recent in a long line of women pilots whose activities reached back to the earliest days of aviation These women too wrote about aviation speaking out for new and progressive technology and its potential for the advancement of the status of women With those of their more recent counterparts their writings form a long sustained text that documents the maturation of the airplane aviation and women s growing desire for equality in American society In Their Own Words takes up the writings of eight women pilots as evidence of the ties between the growth of American aviation and the changing role of women Harriet Quimby 1875 1912 Ruth Law 1887 1970 and the sisters Katherine and Marjorie Stinson 1893 1977 1896 1975 came to prominence in the years between the Wright brothers and World War I Earhart 1897 1937 Louise Thaden 1905 1979 and Ruth Nichols 1901 1960 were the voices of women in aviation during the Golden Age of Aviation Anne Morrow Lindbergh 1906 2001 the only one of the eight who legitimately can be called an artist bridges the time from her husband s 1927 flight through the World War II years and the coming of the Space Age Each of them confronts issues relating to the developing technology and possibilities of aviation Each speaks to the importance of assimilating aviation into daily life Each details the part that women might and should play in advancing aviation Each talks about how aviation may enhance women s participation in contemporary American society making their works significant documents in the history of American culture
