Bulla,2020-11-09 This book examines slavery an antiquated ugly inhumane practice seemingly abolished in the nineteenth century yet never eradicated The legacies of historical slavery have become increasingly subject to public debate manifested in calls for

reparations the UNESCO Slave Route Project and in the dismantling of Confederate monuments in the United States NGOs have researched and publicized the extent of contemporary slavery which some of the essays in this collection discuss This area of inquiry intersects with wider debates about the legacies of colonialism and structural racism which could be seen in the Rhodes Must Fall campaigns in South Africa and Oxford NGOs estimate that there are between 21 and 46 million slaves worldwide today The essays gathered here critically examine the historical roots of slavery the issue of reparations and deconstruct contemporary human trafficking *Race and Slavery in the Middle East* Bernard Lewis,1990 From the days before Moses up through the 1960s slavery was a fact of life in the Middle East But if the Middle East was one of the last regions to renounce slavery how do we account for its and especially Islam s image of racial harmony How did these long years of slavery affect racial relations In *Race and Slavery in the Middle East* Bernard Lewis explores these questions and others examining the history of slavery in law social thought practice and literature and art over the last two millennia

The Black Populations of France Sylvain Pattieu,Emmanuelle Sibeud,Tyler Edward Stovall,2022-02 *The Black Populations of France* is a study of Black peoples and their history in France and the French Empire during the modern era from the eighteenth century to the present The contributors to this collection explore three main axes The first addresses circulations the ways Black populations have moved through the spaces of metropolitan France and the empire and focuses on the actors themselves and the margins of maneuver available to them particularly as soldiers sailors immigrants or political militants The second considers legacies and the ways the past has informed the present addressing themes such as the memory of slavery the histories of Black women and gender and the historical influence of African Americans on Blacks in France The final axis considers racial policy and the ways the state has shaped racial discourses through the interactions between state policies and ideas of race developed by individuals organizations and communities *The Black Populations of France* makes an important contribution to both modern French history and the history of the global Black diaspora By putting these histories in dialogue with each other it underscores the central place of France in world history **The**

Legacy of Arab-Islam in Africa John Allembillah Azumah,2014-10-01 Thoughtful and challenging this book argues for a reassessment of the role historically played by Islam in Africa and offers new hope for increased mutual understanding between African people of different faiths Drawing on a wealth of sources from the colonial period to the most up to date scholarship the author challenges the widely held perception that while Christianity oppressed and subjugated the African people Islam fitted comfortably into the indigenous landscape Instead this penetrating account reveals Muslim settlers to be as guilty of enforcing slavery and conversion as those of their more maligned sister tradition Only with an acknowledgement of the true roles of both faiths in African history suggests Azumah can the people of both traditions move themselves and their continent towards a new future of tolerance and self awareness Slavery, Abolition, and Islam Haroon Bashir,2024-12-02 Does the Qur an promote the abolition of slavery If so why had the slave trade been allowed to operate

across the Muslim world for over a millennium And why had Muslim scholars not attempted to eradicate slavery previously These were the questions that Islamic abolitionist scholars explored as they sought to challenge the slave trade throughout the nineteenth century The abolition of slavery remains a relatively new concept in human history and scholars from all religious traditions have attempted to navigate the religious and ethical questions raised by the historical acceptance of slavery In this book Haroon Bashir tells the story of how scholars promoting abolition in the name of Islam transformed the debate around Islam and slavery The book explores how abolitionism became the hegemonic position within contemporary Islamic thought and highlights the journey behind the current consensus Abolitionist arguments were not simply accepted with defenders of the slave trade using the weight of historical tradition to emphasise the legitimacy of slavery The strongly contested debates that ensued had huge ramifications for understandings of authority tradition and modernity within Islamic thought that are as present as they are past Through an exploration of these various discourses and contestations Slavery Abolition and Islam highlights how both slavery and abolition were historically challenged within the Islamic context and demonstrates how those debates continue to impact contemporary discussions In doing so the book also explores broader themes of religious traditions continuity and transformation

Places in Political Time Earnest N. Bracey, 2005 Places in Political Time approaches the black African Diaspora phenomenon from a new perspective considering cultural myths history allegories and other stories which present the human condition from a black American perspective The essays describe and evaluate tough questions on racism and uncomfortable truths about people within the Black Diaspora exploring how people of color interact with themselves and dominate cultures

A History of Race in Muslim West Africa, 1600-1960 Bruce S. Hall, 2011-06-06 The mobilization of local ideas about racial difference has been important in generating and intensifying civil wars that have occurred since the end of colonial rule in all of the countries that straddle the southern edge of the Sahara Desert From Sudan to Mauritania the racial categories deployed in contemporary conflicts often hearken back to an older history in which blackness could be equated with slavery and non blackness with predatory and uncivilized banditry This book traces the development of arguments about race over a period of more than 350 years in one important place along the southern edge of the Sahara Desert the Niger Bend in northern Mali Using Arabic documents held in Timbuktu as well as local colonial sources in French and oral interviews Bruce S Hall reconstructs an African intellectual history of race that long predated colonial conquest and which has continued to orient inter African relations ever since

Black and Slave David M. Goldenberg, 2017-05-22 Studies of the Curse of Ham the belief that the Bible consigned blacks to everlasting servitude confuse and conflate two separate origin stories etiologies one of black skin and the other of black slavery This work unravels the etiologies and shows how the Curse an etiology of black slavery evolved from an earlier etiology explaining the existence of dark skinned people We see when where why and how an original mythic tale of black origins morphed into a story of the origins of black slavery and how in turn the second then supplanted the first as an explanation for black skin In

the process we see how formulations of the Curse changed over time depending on the historical and social contexts reflecting and refashioning the way blackness and blacks were perceived In particular two significant developments are uncovered First a curse of slavery originally said to affect various dark skinned peoples was eventually applied most commonly to black Africans Second blackness originally incidental to the curse in time became part of the curse itself Dark skin now became an intentional marker of servitude the visible sign of the blacks degradation and in the process deprecating black skin itself

The Arab Lands under Ottoman Rule Jane Hathaway, 2019-12-06 The Arab Lands under Ottoman Rule assesses the effects of Ottoman rule on the Arab Lands of Egypt Greater Syria Iraq and Yemen between 1516 and 1800 Drawing attention to the important history of these regions the book challenges outmoded perceptions of this period as a demoralizing prelude to the rise of Arab nationalism and Arab nation states in the nineteenth and twentieth centuries As well as exploring political events and developments it delves into the extensive social cultural and economic changes that helped to shape the foundations of today's modern Middle and Near East In doing so it provides a detailed view of society incorporating all socio economic classes as well as women religious minorities and slaves This second edition has been significantly revised and updated and reflects the developments in research and scholarship since the publication of the first edition Engaging with a wide range of primary sources and enhanced by a variety of maps and images to illustrate the text The Arab Lands under Ottoman Rule is a unique and essential resource for students of early modern Ottoman history and the early modern Middle East
