The Handbook Of International Migration The American Experience:

The Handbook of International Migration Charles Hirschman, Philip Kasinitz, Josh Dewind, 1999-11-04 The historic rise in international migration over the past thirty years has brought a tide of new immigrants to the United States from Asia South America and other parts of the globe Their arrival has reverberated throughout American society prompting an outpouring of scholarship on the causes and consequences of the new migrations The Handbook of International Migration gathers the best of this scholarship in one volume to present a comprehensive overview of the state of immigration research in this country bringing coherence and fresh insight to this fast growing field The contributors to The Handbook of International Migration a virtual who's who of immigration scholars draw upon the best social science theory and demographic research to examine the effects and implications of immigration in the United States The dramatic shift in the national background of today's immigrants away from primarily European roots has led many researchers to rethink traditional theories of assimilation and has called into question the usefulness of making historical comparisons between today's immigrants and those of previous generations Part I of the Handbook examines current theories of international migration including the forces that motivate people to migrate often at great financial and personal cost Part II focuses on how immigrants are changed after their arrival addressing such issues as adaptation assimilation pluralism and socioeconomic mobility Finally Part III looks at the social economic and political effects of the surge of new immigrants on American society Here the Handbook explores how the complex politics of immigration have become intertwined with economic perceptions and realities racial and ethnic divisions and international relations A landmark compendium of richly nuanced investigations The Handbook of International Migration will be the major reference work on recent immigration to this country and will enhance the development of a truly interdisciplinary field of international migration studies

Christianity and Religious Plurality Wilbert R. Shenk, Richard J. Plantinga, 2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of faiths and religious practices from all continents are present in Europe and North America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today's radically context sensitive world

Immigration Research for a New Century Nancy Foner, Ruben G. Rumbaut, Steven J. Gold, 2000-11-16 The rapid rise in immigration over the past few decades has transformed the American social landscape while the need to understand its impact on society has led to a burgeoning research literature Predominantly non European and of varied cultural social and economic backgrounds the new immigrants present analytic challenges that cannot be wholly met by traditional immigration studies Immigration Research for a New Century demonstrates how sociology anthropology history political science economics and other disciplines intersect to answer questions about today's immigrants In Part I leading scholars examine the emergence of an interdisciplinary body of work that incorporates such topics as the social construction of race the importance of ethnic self help and economic niches the influence of migrant homeland ties and the types of solidarity and conflict found among migrant populations The authors also explore the social and national origins of immigration scholars themselves many of whom came of age in an era of civil rights and ethnic reaffirmation and may also be immigrants or children of immigrants Together these essays demonstrate how social change new patterns of immigration and the scholars personal backgrounds have altered the scope and emphases of the research literature allowing scholars to ask new questions and to see old problems in new ways Part II contains the work of a new generation of immigrant scholars reflecting the scope of a field bolstered by different disciplinary styles These essays explore the complex variety of the immigrant experience ranging from

itinerant farmworkers to Silicon Valley engineers The demands of the American labor force ethnic racial and gender stereotyping and state regulation are all shown to play important roles in the economic adaptation of immigrants The ways in which immigrants participate politically their relationships among themselves their attitudes toward naturalization and citizenship and their own sense of cultural identity are also addressed Immigration Research for a New Century examines the complex effects that immigration has had not only on American society but on scholarship itself and offers the fresh insights of a new generation of immigration researchers

Remittance as Belonging Hasan Mahmud,2024-10-11 Remittance as Belonging Global Migration Transnationalism and the Quest for Home argues that migrants remittances express their sense of belonging and connectedness to their home country of origin making an integral part of both migrants ethnic identity and sense of what they call home Drawing on three and a half years of ethnographic fieldwork with Bangladeshi migrants in Tokyo and Los Angeles Hasan Mahmud demonstrates that while migrants go abroad for various reasons they do not travel alone Although they leave behind their families in Bangladesh they move abroad essentially as members of their family and community and maintain their belonging to home through transnational practices including remittance sending By conceptualizing remittance as an expression of migrants belonging this book presents detailed accounts of the emergence growth decline and revival of remittances as a function of transformations in migrants sense of belonging to home

Mass Migration to the United States Pyong Gap Min,2002-09-10 This is an evaluation of the differences and similarities between the immigrant groups to the USA between 1880 and 1930 and those from the post 1965 period of immigration

Transnational Immigrants Uma Sarmistha,2019-07-20 This book provides a detailed account of transnational practices undertaken by Indian high tech workers living in the United States It describes the complexities and challenges of adapting to a new culture while clinging to tradition Asian Indians represent a significant part of the professional and high tech workforce in the United States and the majority are temporary workers working on contractual jobs H1 B and L1 work visa category Further it is not unusual for Indian immigrant workers to marry and have children while working in the U S Gradually they learn to negotiate the U S cultural terrain in both their place of work and at home in the U S As such there is the potential that they will become transnational developing new identities and engaging in cultural and social practices from two different nations India and the U S Against this background the book describes the nature and extent of transnational practices adopted by high tech Indian workers employed in the United States on temporary work visas The study reveals that the temporary stay of these professionals and their families in the U S necessitates day to day balancing of two cultures in terms of food clothing recreation and daily activities creating a transnational lifestyle for these young professionals Transnational activities at the workplace which are forced by the work culture of the MNCs that employ them can be considered as transnationalism from above Simultaneously being bi lingual at home cooking and eating Indian and Western food socializing with Indian and American friends outside work and all the cultural activities they perform on a day to day

basis indicates transnationalism from below The book is of interest to researchers and academics working on issues relating to culture social change migration and development *American Guestworkers* David Griffith,2007-08-31 The H 2 program originally based in Florida is the longest running labor importation program in the country Over the course of a quarter century of research Griffith studied rural labor processes and their national and international effects In this book he examines the socioeconomic effects of the H 2 program on both the areas where the laborers work and the areas they are from and taking a uniquely humanitarian stance he considers the effects of the program on the laborers themselves

Transnational Cultural Flow from Home Pyong Gap Min,2022-12-09 When the first wave of post 1965 Korean immigrants arrived in the New York New Jersey area in the early 1970s they were reliant on retail and service businesses in the minority neighborhoods where they were This caused ongoing conflicts with customers in black neighborhoods of New York City with white suppliers at Hunts Point Produce Market and with city government agencies that regulated small business activities In addition because of the times Korean immigrants had very little contact with their homeland Korean immigrants in the area were highly segregated from both the mainstream New York society and South Korea However after the 1990 Immigration Act Korean immigrants with professional and managerial backgrounds have found occupations in the mainstream economy Korean community leaders also engaged in active political campaigns to get Korean candidates elected as city council members and higher levels of legislative positions in the area The Korean community s integration into mainstream society also increasingly developed stronger transnational ties to their homeland and spurred the inclusion of everyday Korean life in the NY NJ area *Transnational Cultural Flow from Home* examines New York Korean immigrants collective efforts to preserve their cultural traditions and cultural practices and their efforts to transmit and promote them to New Yorkers by focusing on the Korean cultural elements such as language foods cultural festivals and traditional and contemporary performing arts This publication was supported by the 2022 Korean Studies Grant Program of the Academy of Korean Studies AKS 2022 P 009

Unequal Chances Anthony Francis Heath,Sin Yi Cheung,2007-10-25 The first major cross national study of ethnic minority disadvantage in the labour market Standard analyses using the most authoritative datasets enable the reader to make precise comparisons The study reveals that most groups of non European ancestry continue to experience substantial ethnic penalties in the second and later generations **The Homeland Is the Arena** Ousmane Kane,2011-04-08 Addresses an historically neglected aspect of international migration analyzing the role played by transnational religion in the adaptation of Senegalese immigrants in America in the late twentieth century Global Migrants, Global Refugees Aristide R. Zolberg,Peter M. Benda,2001-06-01 In recent years several influential commentators have stated or strongly implied that the advanced industrial democracies are today being overwhelmed by a host of problems including rapid population growth the breakup of multi ethnic states environmental degradation and increasing economic differentials between the developing and developed worlds for which no effective solutions are at hand The migration inducing potential of these post Cold War

developments has been a particular source of concern This volume provides a counter catastrophic view of developments and a more sober and balanced assessment of the challenges the United States and other industrial democracies face in the sphere of international migration than that offered in recent years The first part is devoted to a diagnosis of the problem revaluation of the notion of a migration crisis by examining the likely consequences of population growth environmental degradation and political conflict in the developing and post communist worlds Special attention is also given to the manifestations of these forces in the western hemisphere where they may have direct consequences for immigration to the United States In the second part the implications for U S policy are considered ranging from promotion of democracy and development of strategies for minimizing international migrations and refugee flows to the intricacies of humanitarian relief and intervention when preventive measures prove ineffective

Mobile People, Mobile Law Franz von Benda-Beckmann,Keebet von

Benda-Beckmann,2017-03-02 Demonstrating how users of law who often operate in multi sited situations are forced to deal with increasingly complex legal circumstances this volume focuses on political and social processes through which people appropriate use and create legal forms in multiple legal settings It provides new insights into social and political processes through which transnational law is locally appropriated by different actors and presents empirical studies of confrontation

adaptation vernacularization and hybridization of law due to its transplantation across the borders of national states The contributors offer insights into modern dynamics of legal change challenging assumptions about increasing homogeneity in law with a keen eye for the historical situations in which current legal changes stand *The Battle for the Migrants* Torsten Feys, 2017-10-18 This book approaches the well documented study of European mass migration to the United States of America from the viewpoint of mass migration as a business venture The overall purpose is to demonstrate that maritime and migration histories are interlinked and dependent on a deeper understanding of the social economic and political factors at work in the nineteenth century Atlantic community It centres on both the evolution of the port of Rotterdam as a migration gateway and the crucial role of the Holland America line as a regulator of the North American passenger trade The first part of the book explores the simultaneous rise of transatlantic mass migration and long distance steamshipping between 1830 to 1870 The second part divided into five chapters explores how mass migration became a big business between 1870 and 1914 and scrutinises how steamship companies organised and provided initiatives for transoceanic migration plus the role of shipping agents and agent networks and how passenger services were constructed within transatlantic networks Over the course of the text it becomes increasingly clear that by approaching mass migration as a trade issue the role of steamship companies in the facilitation of transatlantic migration is rendered both intrinsic and pivotal It consists of an introduction containing contextual information two sections providing historical overviews five chapters exploring different aspects of the shipping industry s response to mass migration conclusion bibliography and six appendices of passenger destination agent and advertising statistics

Externalizing Migration Management Ruben Zaiotti, 2016-02-05 The extension of border controls beyond a country s territory to regulate the flows of migrants before they arrive has become a popular and highly controversial policy practice Today remote control policies are more visible complex and widespread than ever before raising various ethical political and legal issues for the governments promoting them The book examines the externalization of migration control from an interdisciplinary and comparative perspective focusing on remote control initiatives in Europe and North America with contributions from the fields of politics sociology law geography anthropology and history This book uses empirically rich analyses and compelling theoretical insights to trace the evolution of remote control initiatives and assesses their impact and policy implications It also explores competing theoretical models that might explain their emergence and diffusion Individual chapters tackle some of the most puzzling questions underlying remote control policies such as the reasons why governments adopt these policies and what might be their impact on migrants and other actors involved *The Practice of Global History* Matthias Middell, 2019-08-22 Over recent decades almost every area of historical study has seen its global turn from consumption to finance from politics to migration from social order to cultural patterns This volume reflects the vibrant state of global history scholarship in Europe and examines to what extent global history is practiced and conceptualised distinctively within Europe Drawing together contributions from scholars from France Germany Hungary the

Netherlands Switzerland and the UK the book offers a sweeping overview of the state of the field In particular the contributors look at histories of colonialism and imperial expansion knowledge circulation and mobility across borders This book reflects the diversity of current scholarship on global and transnational history and will offer important insights for anyone interested in understanding the cutting edge of research in this area **Globalization** Ashish Vaidya, 2005-12-19
