A Kingdom of the Truth or Deception? David K. Hebert Th.D., 2024-12-18 This book has been the culmination of over forty years of study on the concept of defending the Christian faith against false religions and cults that oppose that faith by exposing them Since 2007 the study took on a more academic researched scholarly tone while writing one chapter in the doctoral work It was during that time frame that studying the false religions and cults took on a more focused biblical historical and Christian orthodox direction So the foundation of this book uses the Parable of the Wheat and the Weeds Tares in Matthew 13 24 30 36 43 and a clear understanding of the core orthodox Christian beliefs as the standard for Christians to compare the kingdom of God versus the kingdom of darkness and God's truth versus Satan's lies error throughout biblical history from the Garden of Eden to the present day especially as the day of Jesus Christ's return so rapidly approaches

The New Psychology Charles F. Haanel, 2006-10 In the way that only Haanel can do Haanel defines man's place in the Universe and reveals his latent powers with a vividness that reminds the reader of a lightening flash After you read The New Psychology you'll see everything a little differently Synopsis The supreme charm of The New Psychology is the practical character of its teachings the clarity and simplicity of its expression Unlike many works that attempt to present psychical truths it is not a tangled skein of disconnected thoughts but an orderly logical and well reasoned system The New Psychology with a synthesis of philosophy science metaphysics and religion defines man's place in the universe and reveals his latent powers with a vividness that reminds the reader of a lightening flash The seeker for truth will find in its pages the keys to the treasure house of the world's wisdom About The New Psychology The New Psychology is quite different from Haanel's other works In The New Psychology Haanel expands on the ideas and theories behind mental science and offers to you many examples and proofs that bolster the claims made While this work is almost one hundred years old everything holds true to this day I attempted to footnote things as extensively as possible I am certain that when Haanel wrote this book the people he mentioned were more than likely household names James J Hill while almost unheard of today was pretty much the Bill Gates of his time I hope my footnotes help put things in perspective for you The New Psychology is a must for anyone who wants to understand the mental science It is also a must for anyone who wants to thoroughly understand Haanel and his beliefs Through his words we can get a clearer picture of him as a thinker explorer and perhaps even a visionary Here are just a few things that you will learn as you read Charles F Haanel's The New Psychology The Psychology of Success The man with the money consciousness is constantly attracting money The man with the poverty consciousness is constantly attracting poverty Both fulfill the exact conditions by thought word and deed that make the path for the thing of which they are conscious come to them As a man thinketh in his heart so is he Job said The thing I greatly feared has come upon me In modern psychological language it might better have been stated this way The thing I was greatly conscious of came upon me Consciousness or thought and faith are mental wires by which the thing we are conscious of finds its way to us The Law of Abundance Abundance is a natural law of the universe The evidence of this law is conclusive we see it on every hand Everywhere nature is lavish wasteful extravagant Nowhere is economy observed in any created thing The millions and millions of trees and flowers and plants and animals and the vast scheme of reproduction where the process of creating and re-creating is forever going on all indicate the lavishness with which nature has made provision for man That there is an

abundance for everyone is evident but that many seem to have been separated from this supply is also evident they have not yet come into realization of the universality of all substance and that mind is the active principle which starts causes in motion whereby we are related to the things we desire The Master Mind Great men or masters stand like solitary towers in the Eternal City And secret passages running deep beneath external nature give their thoughts intercourse with high Intelligence which strengthens and controls them And of which the laborers on the surface do not even dream The Master Mind is within your body and soul yet interpenetrating both It is the Grand Man the God Man of each of us It is the same in all human beings and is what is familiarly called the I AM A Master is one who is not controlled or mastered by flesh blood the Devil or others He is not a subject but a ruler He knows and he knows that he knows because of this he is free and can be dominated by no one When you have reached the point where you are steadily mastering and overcoming and clothing your mind with more and more knowledge you have your face toward the Light and are moving onward and upward Law becomes your servant and is no longer your master You speak your thought or word accompanied with faith will and the proper mental picture and your word accomplishes that whereunto it is sent Or in other words the Creative Law hastens to fulfill your word The Law of Attraction Attraction is the power that is sweeping through eternity a living stream of relative action in which the basic principle is ever active It embraces the past and carries it forward into the ever widening future a movement where relative action cause and effect go hand in hand where law dovetails into law and where all laws are the ever willing handmaids of this great creative force The Universal Mind The nervous system is matter Its energy is mind It is therefore the instrument of the Universal Mind It is the link between matter and spirit between our consciousness and the Cosmic Consciousness It is the gateway of Infinite Power The Conscious Mind All the lost mines of Mexico all the argosies that ever sailed from the Indies all the gold and silver laden ships of the treasure fleets stored in Spain count no more in value than a beggar s dole compared to the wealth that is created every eight hours by modern business ideas Opportunity follows perception action follows inspiration growth follows knowledge environment follows progress always the mental first then the transformation into the illimitable possibilities of character and achievement The progress of the United States is due to two percent of its population In other words all our railroads all our telephones our automobiles our libraries our newspapers and a thousand other conveniences comforts and necessities are due to the creative genius of two percent of the population The Creative Process If the chemist produces nothing of value nothing which can be converted into cash we are not interested But fortunately the chemist in this case produces an article that has the highest cash value of any article known to man He provides the one thing which all the world demands something which can be realized upon anywhere at any time It is not a slow asset on the contrary its value is recognized in every market The product is thought thought rules the world thought rules every government every bank every industry every person and every thing in existence and is differentiated from everything else simply and only because of thought Every person is what he is because of his method of thinking and

men and nations differ from each other only because they think differently

Vibration Before any environment harmonious or otherwise can be created action of some kind is necessary and before any action is possible there must be thought of some kind either conscious or unconscious and as thought is a product of mind it becomes evident that Mind is the creative center from which all activities proceed

Causation Universal intelligence leaves its source to become embodied in material forms through which it returns to its source

Mineral life animated by electromagnetism is the first step of intelligence upward toward its universal source

Universal energy is intelligent and this involuntary process by which matter is built up is an intelligent process of nature that has for its specific purpose the individualization of her intelligence

Equilibrium Nature is forever trying to bring about an equilibrium and in accordance with this law we find constant action and reaction

The concentration of matter implies the dissipation of motion conversely the absorption of motion implies the diffusion of matter

This accounts for the entire cycle of changes passed through by every existence

Moreover it applies to the entire cycle of each existence as well as to each detail of its history

Both processes are going on at every instance but always there is a differential result in favor of one or the other

And every change even though it be only a transposition of parts inevitably advances one of the factors

Physiology One of the most interesting features of the human system is its series of manufacturing plants in which are produced the chemical agents necessary to mobilize the constituents of food

And it is a part of the fine natural economy that the secretions containing these chemical agents should serve several other purposes also

In general each may be said to have an alternative effect upon the others or at least upon the activities of the other plants also they act upon the inward bound nerve paths as exciters of effects in both the conscious and the subconscious activities

The Psychology of Medicine To the development of radio communication is largely due to the imagination of science and the dawning of an idea that a few years ago would have been considered revolutionary and subversive of all the established traditions of medicine

The psychical method has always played an important though largely unrecognized part in therapeutics

It is from faith which buoys up the spirits sets the blood flowing more freely and the nerves playing their parts without disturbance that a large part of all cures arise

Despondency or lack of faith will often sink the stoutest constitution almost to death

sooner faith will enable a bread pill or a spoonful of clear water to do almost miracles of healing when the best medicines have been given over in despair

The basis of the entire profession of medicine is faith in the doctor and his drugs and his methods

Mental Chemistry Chemistry is the science which treats of the intra atomic or the intra molecular changes that materials things undergo under various influences

Mental is defined as of or pertaining to the mind including intellect feeling and will or the entire rational nature

Science is knowledge gained and verified by exact observation and correct thinking

Mental chemistry is therefore the science which treats of the changes that conditions undergo through the operation of the mind

As the transformations that are brought about in applied chemistry are the result of the orderly combination of materials it follows that mental chemistry brings about results in a like manner

Mental Medicine In The Law

of Mental Medicine Thomas Jay Hudson says Like all laws of nature the law of mental medicine is universal in its application and like all the others it is simple and easily comprehended Granted that there is an intelligence that controls the functions of the body in health it follows that it is the same power or energy that fails in case of disease Failing it requires assistance and that is what all therapeutic agencies aim to accomplish No intelligent physician of any school claims to be able to do more than to assist nature to restore normal conditions of the body Orthobiosis Virgil says Happy is he who has found the cause of things It was Metchnikoff who tried after his investigations into the physical to apply ethics to life so that life might be lived to the full which is the true wisdom He called this condition orthobiosis He held that the end of science is to rid the world of its scourges through hygiene and other measures of prophylaxis Biochemistry Biochemistry is a science whose concern is with vital processes and which has availed itself of the cell theory and of the principle of the infinite divisibility of matter It also makes use of the homeopathic dose The dose must be proportionate to the patient the cell for as Virchow has pointed out the essence of disease is the cell changed pathogenically The New Psychology The observation and analysis knowledge and classification of the activities of the personal consciousness consisting of the science of psychology has been studied in colleges and universities for many years but this personal or conscious self conscious mind does not by any means constitute the whole of the mind Suggestion Mr C Harry Brooks tells of a very interesting and instructive visit to the clinic of Dr Emile Coue in a book entitled The Practice of Auto Suggestion published by Dodd Mead they must therefore be the product of something that has life or intelligence Spirit is the only Creative Principle in the Universe and Thought is the only activity that spirit possesses Therefore germs must be the result of a mental process A thought goes forth from the thinker it meets other thoughts for which it has an affinity they coalesce and form a nucleus for other similar thoughts this nucleus sends out calls into the formless energy wherein all thoughts and all things are held in solution and soon the thought is clothed in a form in accordance with the character given to it by the thinker Philosophy Physical science has resolved matter into molecules molecules into atoms atoms into energy and it has remained for Mr J A Fleming in an address before the Royal Institution to resolve this energy into mind He says In its ultimate essence energy may be incomprehensible by us except as an exhibition of the direct operation of that which we call Mind or Will We find therefore that science and religion are not in conflict but are in perfect agreement Science Science is not idealistic nor spiritualistic nor materialistic but simply natural she seeks to learn everywhere facts and their logical corollaries without doing homage in advance to a system in this or in that direction Science says Groves should have neither desires nor prejudices truth should be her sole aim Religion Destiny is determined for nations and for individuals by factors and forces that are really fundamental such as men s attitude toward one another Ideals and motives are more potent than events in shaping History What people think about the abiding concerns of life means more than any contemporary agitation or upheaval Comparative Religion The primitive races never developed sufficiently to embody their ideas in a literature They are the so called savage and barbarous tribes of ancient and

modern times and may be known to some extent through the survival of their ideas and customs through their civilized descendants and through writings of these same descendants In the early period we are impressed by the psychological unity of man Details of these early races differ of course yet the variations are far less than one would suspect for it is a surprising fact that in all parts of the world the minds of men as they reach to the fundamental facts of existence work very nearly in the same way The psychological likeness of the process of man s mind is one of the most striking discoveries of modern times The Great Religious Groups Haanel provides investigation and discussion about the world s great religions and their influence on the world Judaism Mohammedanism Zoroastrianism The Vedic Religion Buddhism Yoga System Confucianism Shintoism The Philosophy of Greece Christianity The Religions to Today *The Quimby Manuscripts* Phineas Parkhurst Quimby,1921 **Commune with Your Heart** Dwight Nichols,2004 According to Nichols what Jesus said to do is the same thing that David the Psalmist said to do about 3 000 years ago Be still and commune with your own heart This is how we purify our heart it is how we discover the truth that sets us free it is how we find peace joy and happiness what everyone desires **Got a Dream? NEVER GIVE Up!** Otto Seegers,2005 This is a book that will help you dig up the dream within you and will get you going no matter what you have done or where you have been Read the simple secret of faith and the fascinating story of the garbage man in Dresden who came up with a team of horses just in the nick of time Discover why too much enthusiasm can be as disastrous as not enough of it as illustrated by the story of the house on quicksand The dramatic story of Colonel Sanders and the lost elephant How to deal with failure how to deal with it so you can get back into the saddle and try again Read about such greats as Rembrandt and Terry Fox Handicapped No problem Read how Helen Keller handled that Look at Abraham Lincoln s Litany of Setbacks It will blow your mind How Winston Churchill said it all Then the Grand Finale it will get you going no matter who you are or where you ve been True simple stories learned from a life time of learning Written in simple down to earth language anyone can understand Motivation and inspiration combined
